

Portland Section December Meeting Notice

Vol 61 no 9

<http://www.acsportland.org>

December 2022

ACS Portland Holiday Party

with speaker and cocktail chemist Jordan Devereaux

Thursday Dec. 8

Meet at Lucky Lab Quimby at 6PM

1945 NW Quimby Street, Portland, OR 97209

Charge: \$10 per person

RSVP

Biography: Jordan Devereaux is a chemist/chemical biologist in the OHSU Medicinal Chemistry Core. He completed his Ph.D. in 2016 developing novel thyromimetics with Dr. Thomas Scanlan. He now uses his background in biochemistry, PKADME, and molecular biology to help clients understand how chemistry can be applied to their research.

Abstract: Esters are simple compounds that produce some of the major odors and flavors in fermented beverages. Their origins lie in microbial struggles for survival - chemical weapons and the detritus of the losers. This creates opportunities for us to manipulate fermentation to produce exciting flavors in our beers, wines, and spirits.

Andrew Baggett, Chair
and Past Chair
Hannah Hefely, Secretary

Dave Reingold, Treasurer
Angela Hoffman, Councilor
Jim Tung, Councilor
