

NAS

INNOVATIONS

Delivering Innovation, Excellence.

*Innovating security, connectivity, automation and
infrastructure for a smarter future*

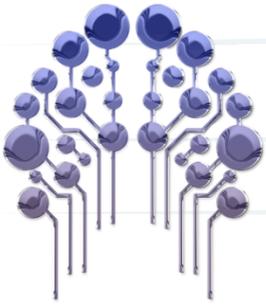

ABOUT US

At NAS Innovation, we are committed to delivering cutting-edge solutions across four key sectors: Electrical Materials, Security & Safety Systems, Sanitary Tools, and Low Current Systems.

With a strong foundation in innovation and quality, we supply high-performance products and integrated solutions tailored to meet the evolving needs of businesses and industries. Our expertise ensures efficiency, safety, and seamless connectivity, making NAS Innovation your trusted partner in modern infrastructure solutions.

OUR VISION

Supporting Vision 2030 for the Kingdom of Saudi Arabia

to be a leader in the field of energy and technology and exporting it abroad.

The first and trustworthy choice in providing integrated solutions with international quality standards.

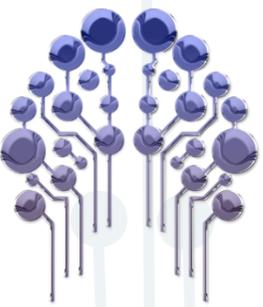

Nas innovations provides trust, quality and unlimited support.

OUR MISSION

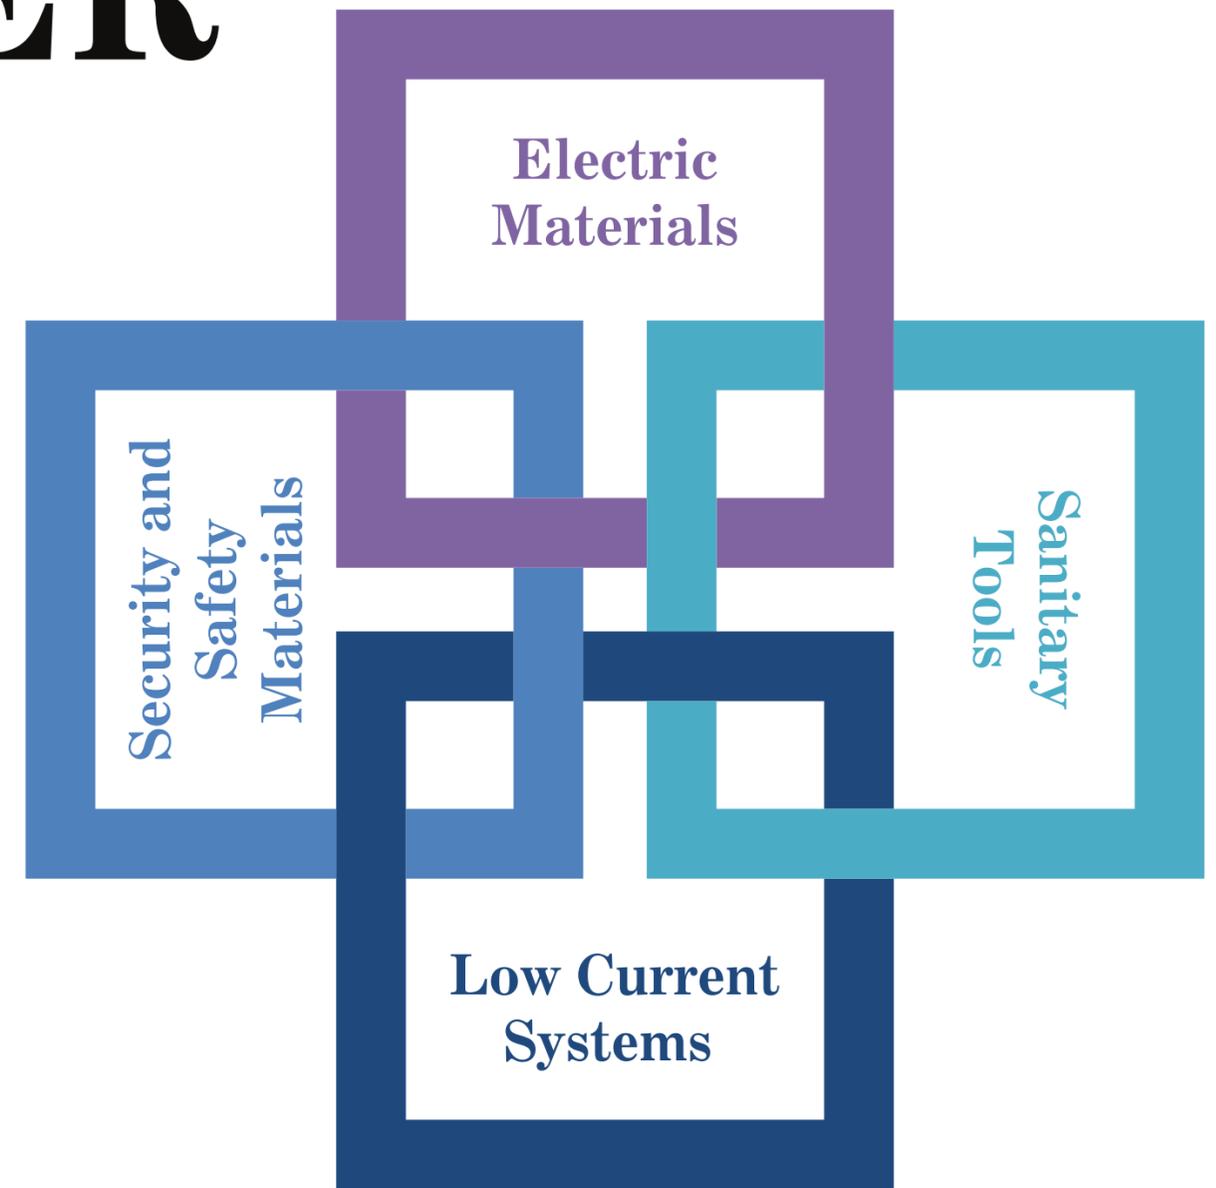

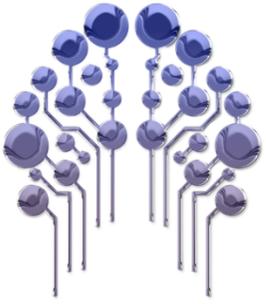

Commitment and trust - quality and safety - ensuring customer satisfaction - continuous development of resources - social responsibility towards society-adherence to values and ethics of professional conduct.
