

## INTRODUCING P.J. BURNS IRISH WHISKEY

Firhill Visions is proud to be the exclusive U.S. importer of P.J. Burns Irish Whiskey. With our commitment to quality and purity in taste, our whiskey is available in 750ml and 1.75 L bottles.

P.J. Burns Irish Whiskey is made from a carefully selected blend of the finest Single Grain and Single Malt Irish Whiskeys from Ireland's most accomplished independent distillery (Great Northern Distillery). A high proportion of the blend is finished in Virgin (American) Oak Casks and combined with a good balance of Single Malt. The result is a smooth flavor but with a complex body and finish.

This whiskey is bottled at 40% ABV and is free from added coloring and is non-chill filtered. You will certainly appreciate this high Quality Blend!
