# ABOUT THE AUTHOR

Don Lapre is a self-made multi-millionaire and the star of the nationally aired TV show, Making Money. Growing up, Don's family was very poor. Even though Don was still a youth, it was necessary for him to help generate an additional income to help his family survive. It was out of this necessity that one of the greatest Entrepreneurs in America was born!

Over that last 25 years, this remarkable man has developed more ways to make money than you could imagine. But the most incredible part of the story is his willingness to share what he has learned with others. Don Lapre has supplied literally hundreds of thousands of people all across the country with the information and money making tools that could change their lives. As you can see every day on his nationally aired TV show, his ever growing list of successful students is amazing. These people's lives will never be the same thanks to Don Lapre and his generosity.

Over the last few years, Don has gained National recognition for his incredible innovations in the 1-900 pay-per-call business. He has revolutionized the industry by creating a unique program that allows the average American with an average income to get set up with their own incredible 1-900 business. With his program you don't need any equipment to get started and all you have to do is advertise to get people to call your 1-900 number. Don's company sets up the programs and handles everything else. And, you receive weekly checks for all the calls that you generate. If you would like more information on this exciting program you can call 1-800-800-2451. This will connect you directly to Don Lapre's office where they will be happy to explain all the details!

Another area of Don's company that is skyrocketing is his Custom Internet Web Site division. Through a unique new program, Don did it again. He took something that everyone would love to have but could not afford, and he made it affordable! For less than you would ever think possible, you could have your very own Custom Internet Web Site set up right through Don's company. With an estimated 50 million people on the Internet, it is becoming a premier advertising location and communications tool! If you would like more information on the program you can give Don's office a call at 1-800-800-2451. You'll find that his staff is very helpful as well as a pleasure to talk to.

The manual that you're about to read is just one of many incredible publications available by Don Lapre. If you would like to request a catalog of Don's extended line of money making and money saving tools, please call Don's customer service number at 602-453-1282.

# INTRODUCTION

My personal list of wholesale products is an incredible resource for over a thousand items at low wholesale prices! The following list of suppliers is in alphabetical order by the item(s) they carry. Remember, when contacting a supplier, be sure to ask for information on all the products they offer. Don't be afraid to ask a lot of questions! Most suppliers have additional merchandise which may not be shown on this list, you may stumble on to some real winners! Make sure you inquire about additional information that they may have on the products they carry, such as brochures and catalogs. Also, you may want to inquire about getting on their fax or mailing list. (If they have one.) Some companies have these programs to announce special prices or limited time offers. Keep in mind that some wholesalers may require a tax ID number or business license to buy their products!

## WRITE THINGS DOWN!

When ever you contact a supplier, you should be prepared to write down all the information they have to offer. Especially, if you are shopping around for the very best deals. In the back of this guide I have provided you with some extremely helpful Wholesale Supplier Contact Sheets. Use these sheets to help you keep track of any needed information you may receive when calling a supplier.

## DROP-SHIPPING

Companies listed in this directory followed by an asterisk (\*) are in the drop-shipper category. Drop-shipping means you could sell merchandise without first buying and stocking an inventory of it. Basically, you obtain orders for merchandise which you, in turn, forward to the supplier, along with the wholesale price for the item you order. The supplier then ships the item directly to your customer!

With drop-shipping, it is usually not necessary to invest money in a stock of merchandise before it is sold! There are many other advantages to using the drop-ship method including but not limited to:

- No lost revenue on unsold goods
- Less shipping problems
- No need for warehouse space
- Allows you to offer a wide variety of products to your customers

Drop shipping does come with a cost however. Since the supplier has to package and ship the products, they will charge you a shipping and handling fee that you need to add in to your sale price to cover your expenses. So find out exactly what these fees are in advance!

## HAVE FUN!

An incredible wealth of information is at your finger tips! Using this guide, along with my Small Ads, Big Profits manual could help you build your home business in to a dream!

## NEVER STOP DREAMING!
