Welding turntables

The new welding turntables from Orbitalum Tools are a safe, efficient and ergonomic solution, when turning workpieces, short components and microfittings have to be welded.

Features:

- Welding turntable pivotable from 0° to 90°
- Different clamping chuck sizes
- Rugged steel construction
- Burner head support pivotable
- Three-coordinate burner head support
- Socket holder TIG burner
- Water-cooled 250 A TIG burner

Optionally available:

- Wire feed unit for Ø 0.8 mm (0.031") and 1.0 mm (0.039") wire with 15 kg wire reel retainer
- Multifunctional wire adjustment
- AVC/OSC arc voltage control and oscillation

Other accessories:

- DVR earth cable
- DVR control cable
- Remote control

WELDING TURNTABLE	OT-DVR 50	OT-DVR 100		
Code	on request	on request		
Load capacity (max.), approx.	60 kg / 132.3 lbs	150 kg / 330.7 lbs		
Hollow shaft Ø	30 mm 1.181"	120 mm 4.724"
