

IN THE CIRCUIT COURT FOR ORANGE COUNTY, FLORIDA
PROBATE DIVISION
IN RE: GUARDIAN ADVOCATE OF
CASE NO: 2008-CP-001369

PHYSICIAN'S REPORT

1. Name of Physician: Travis L.Herring, M.D.
106 West Fern Drive
Orange City, Florida 32763
2. Name of ward: Frank Amodeo
3. Dates of examination: March 3, 2021 and March 9, 2021
4. Purpose of examination: Evaluation of General State of Health
5. Evaluation of ward's condition:

Ward does have diabetes Type 2, obesity, and longstanding hypertension. He does show signs of physical deconditioning. He takes no medicines of any kind and is opposed to taking any medicines. Despite some difficulty adjusting to supervised release, ward has structured his environment to maintain personal equilibrium and become productive. A change to the ward's current living and work environment, including a return to incarceration, would be detrimental to the ward's health.

The ward does not have any physical complaints save the body urge for exercise including walking and running and normal sunshine exposure. He has only recently begun to approach his historic sleep pattern.

6. Physician recommendation for ward:

Exercise and weight loss through dietary change offer the best chance to improve ward's general state of health and to deal with diabetes, hypertension, and obesity.

The Examiner does not recommend drug treatment of diabetes and hypertension for the ward. Moreover, given the ward's extreme sensitivity to medications, no vaccines should be given to the ward.

7. Date of this report: **15 Mar 2021**
8. Signature of physician completing this report:
