Quecc
Quality for Education and Child Care

Dear Parents,

Your child's daycare center has commissioned Quecc GmbH to conduct an external evaluation. This means that the educational work will be assessed by external experts based on observations, interviews, and surveys. We need your help with this. How would you rate the daycare center's work? What are the daycare center's strengths, and what areas do you think need improvement? The results will be used to acknowledge what has already been achieved and to provide specific recommendations for further developing the educational work. This survey is, of course, voluntary and anonymous. The results will be used exclusively to provide feedback to the daycare center and will not be shared with third parties.

Thank you very much for your cooperation.
