

Carbon Reduction Plan

i-4p Consulting Limited

Reporting Period: 1 January 2024 – 31 December 2024

Commitment to achieving Net Zero

i-4p Consulting Limited confirms its commitment to achieving Net Zero greenhouse gas emissions by 2050, in line with UK Government policy and Procurement Policy Note (PPN) 06/21. This commitment applies to the bidding entity and will be applied when performing any public sector contract.

Baseline Emissions Footprint

The baseline year for emissions reporting is 2024. Due to the organisation's small size and remote-only operating model, emissions are estimated using activity-based methods in accordance with the Greenhouse Gas (GHG) Protocol.

Scope 1 Emissions

No Scope 1 emissions. The organisation owns no offices, company vehicles, or fuel combustion sources.

Scope 2 Emissions

Indirect emissions from electricity consumption associated with employee home working, estimated using UK Government published grid electricity conversion factors.

Scope 3 Emissions

Defined Scope 3 emissions include home working energy use, business travel, IT equipment and peripherals, cloud computing and data storage services, and electronic waste generated at end of life.

Carbon Reduction Targets

i-4p Consulting Limited observe continual year-on-year reductions in emissions and is committed to achieving Net Zero by 2050.

Carbon Reduction Projects

Carbon reduction measures include remote-first delivery, avoidance of commuting and office premises, a low-carbon travel policy with rail preferred over air, sustainable IT procurement, extended equipment lifecycles, and preference for cloud providers with published net zero or renewable energy commitments. These measures will be applied when performing the relevant contract.

Declaration and Sign Off

This Carbon Reduction Plan has been reviewed and approved by the undersigned.
