

Welcome Back!

It's finally here. We open tomorrow, Friday, May 15th, and we cannot wait to see you!

Tonight, weather permitting, marks the first night of Billings League, teeing off at 4pm. Fingers crossed for a beautiful evening!

****Around the Course****

A lot of work has gone into clearing the short game area and it's really taking shape. As for the Centennial Project, no work is anticipated on the greens portion this year, but the new putting green is looking fantastic. It will open as soon as Keith gives us the all clear that the growth cycle is complete. Stay tuned!

****Septic & Paving****

The septic work is finally complete, and it comes with brand new pavement! It's looking great. Speaking of paving, our double courts have been paved as well. The beloved single court will remain HarTru clay, but we are very excited to try out the new paved courts this June. They'll need about a month to set before they can be painted and lined for both tennis and pickleball. Fingers crossed for mid to late June. We'll keep you posted as things develop!

****A Helpful New Resource****

This year we have a handy calendar of regular events, put together by the wonderful Nina Arnett. Thank you, Nina, for all your hard work and for coordinating with everyone to make this happen! The calendar is attached.

****Spring Fashion****

Spring is here and so is new merchandise! Stop in and check out the latest arrivals, perfect timing to freshen up your look for the season.

****Cart Procedures -- Please Note****

Cart procedures have changed this year. Keys will now be kept in the clubhouse. See Willow for more information.

We'll see you out there!

Best regards,

Island Country Club Staff
