Provider Collaboration

Aetna Better Health's approach to provider collaboration includes a portfolio of Value-Based Programs that support clinical and financial success and aim to achieve key objectives:

- Improved quality of care and outcomes
- Increased access to care
- Reduced medical costs
- Growth of Aetna membership

Programs are selected for providers based on:

- Practice size and specialties
- Membership panel and population
- Level of understanding and engagement
- Clinical and technological capabilities

Provider Collaboration

Support providers in their transition from pay-for-volume to pay-for-value by improving access, quality, and affordability in the healthcare ecosystem.

Performance-Based Reimbursement

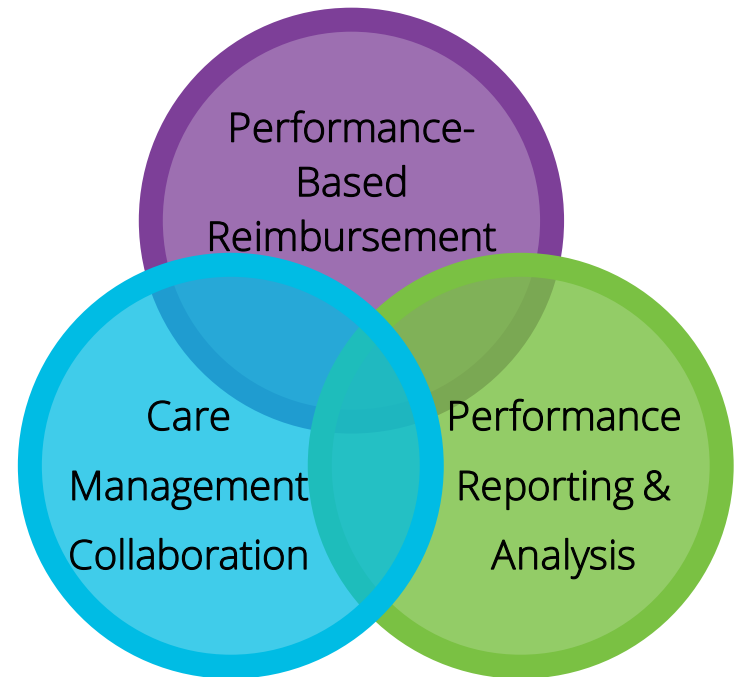

Providers are eligible for incentives tied to both clinical and financial outcomes. Incentive payments are based on performance of selected metrics and targets designed to reduce avoidable utilization and deliver improved care.

Care Management Collaboration

Care management support is provided through the use of technology, tools and locally-based clinical resources to assist providers in coordinating care for members.

Performance Reporting & Analysis

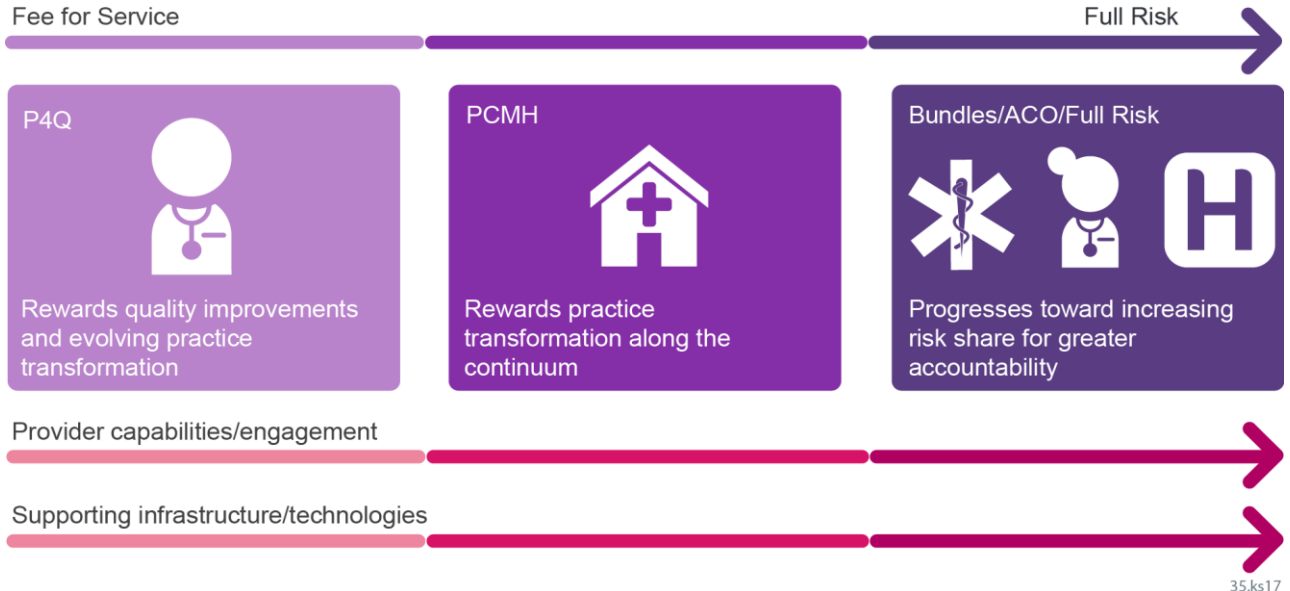

Reporting & analysis is available to support providers in understanding their performance and identifying key gaps and areas of opportunity to achieve success.
