

Redefining Radiographic Clarity
Advanced DR systems engineered for precise, reliable diagnosis.

Overview

Founded in 2024, Larak Healthcare is a UK-based manufacturer specializing in the development of advanced digital X-ray detector solutions. The company is focused on delivering high-performance imaging technology that combines accuracy, reliability, and ease of use for modern clinical environments.

Larak Healthcare currently offers a comprehensive range of digital X-ray detectors, engineered to provide exceptional image quality and consistent performance. These solutions are designed to meet the practical demands of hospitals, diagnostic centers, and medical professionals, supporting faster and more confident clinical decision-making.

Driven by a strong commitment to innovation and quality, Larak Healthcare continuously refines its detector technology to align with the evolving needs of the healthcare sector, laying the foundation for future expansion in digital imaging solutions.

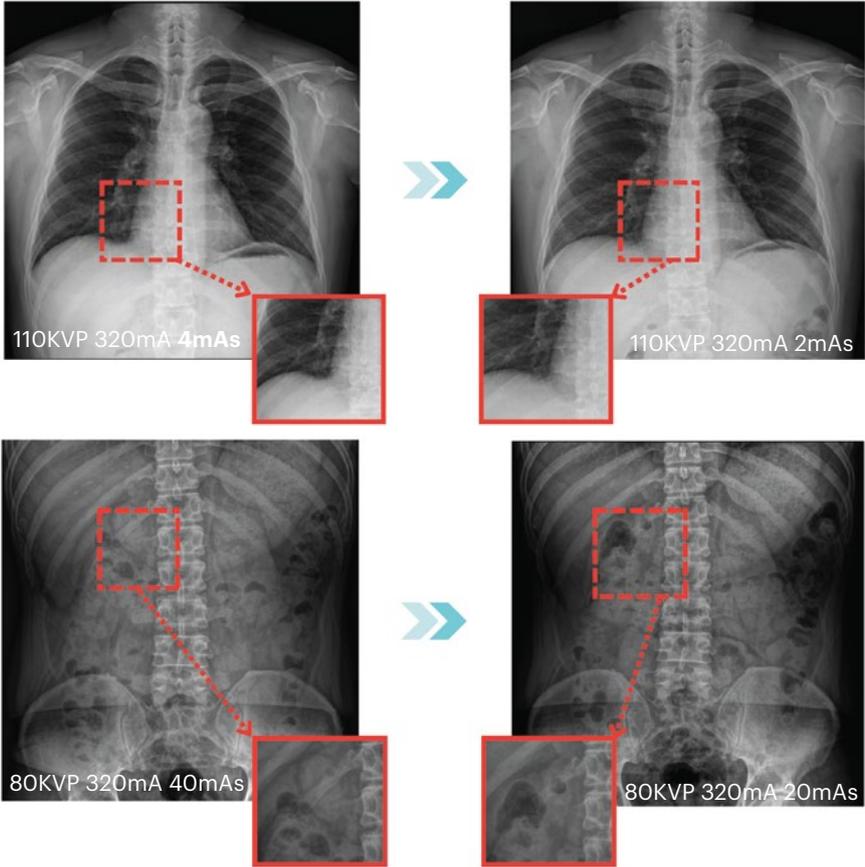

Advanced Digital
X-ray Solutions

Low-dose

High DQE enables high image quality at reduced X-ray dose, minimizing patient exposure without compromising diagnostic accuracy.

Minimizes radiation exposure

High-definition image performance

MTF 83%
