168 responses

4. What do you enjoy most about Riverside Park?

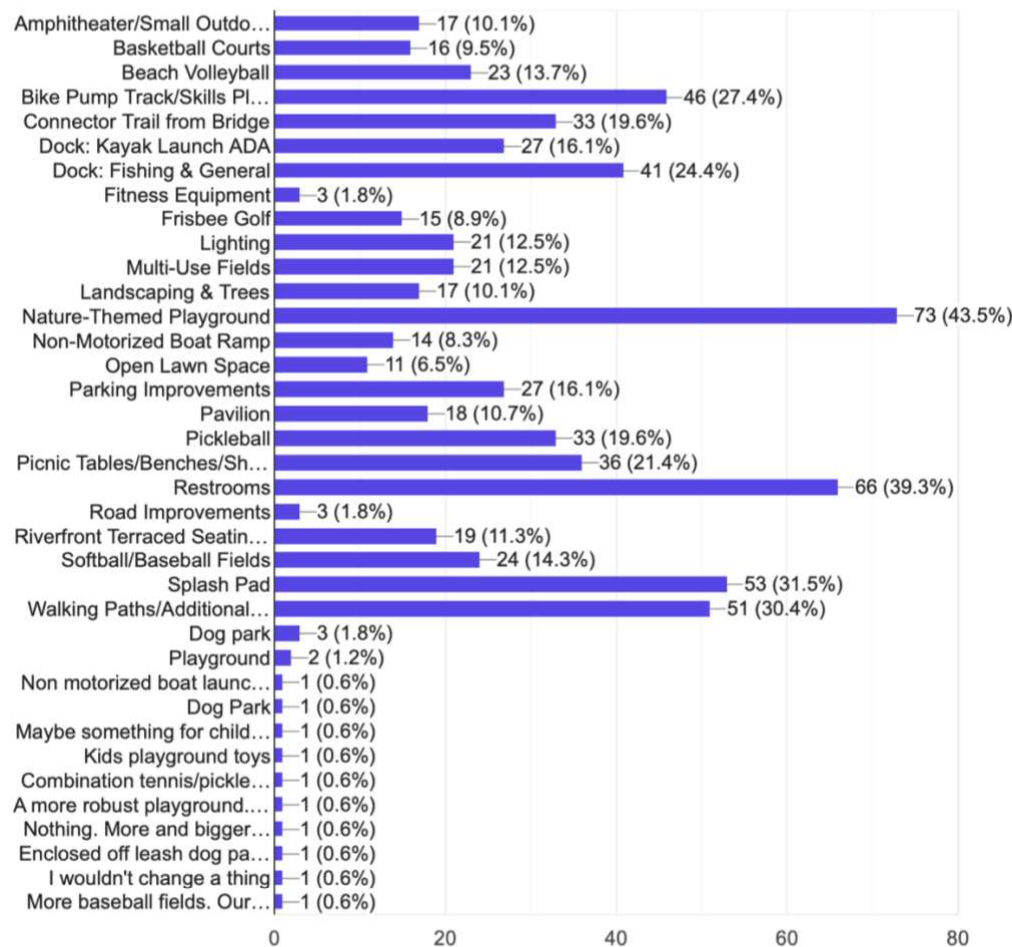

135 responses

The walking path
N/a
Proximity to town, walking trails, river access, ball fields
safe path fir kids and views
Open space and natural landscape wgile being close to town
The walking paths and nature
Nothing there's miles off trails in the county
Easy access area for recreation
I love the playground

5. What improvements would you most like to see at Riverside Park?

 Copy char

168 responses

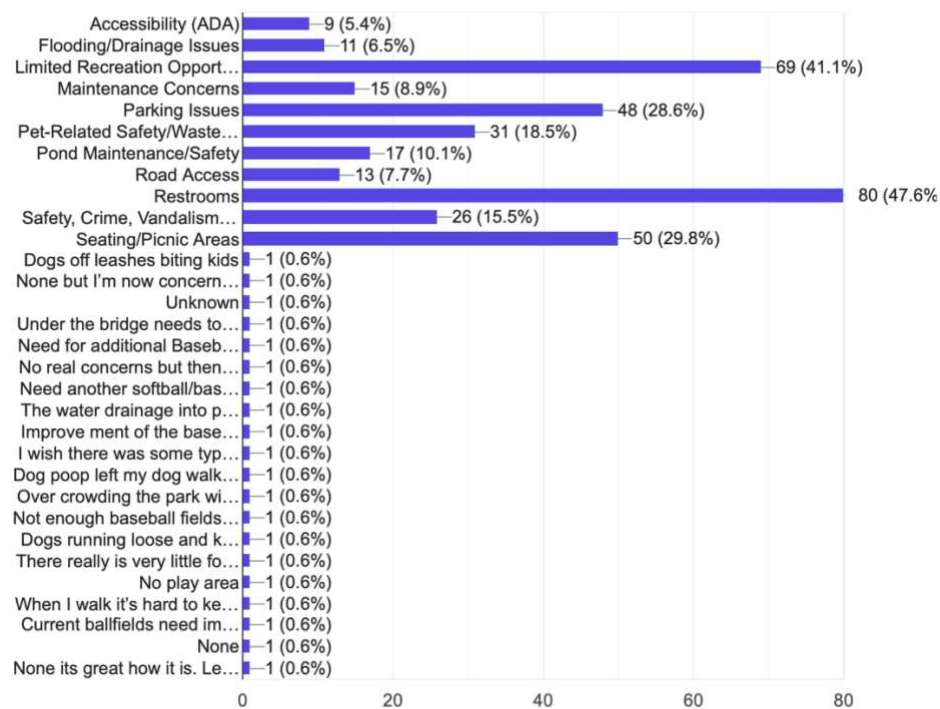

1. Nature Themed Playground - (43.5%)
2. Restrooms - (39.3%)
3. Splash Pad - (31.5%)
4. Walking Paths/Additional Trails – (30.4%)
5. Bike Pump Track/Skills Park – (27.4%)
6. Dock: Fishing & General – (24.4%)
7. Picnic Tables, Benches, Seating – (21.4%)
8. Connector Trail / Pickleball – (19.6%)
9. Parking Improvements / Dock: Kayak Launch ADA (16.1%)
10. Softball / Baseball Fields (14.3%)

6. What are your top 3 concerns or challenges that currently exist at the park?

[Copy chart](#)

168 responses

7. Are there barriers that currently prevent you from using the park more often?

100 responses

No

no

No

Parking

Under bridge access

There's miles of trails in boundary county no need to go there

Lack of playground

No restrooms

Needs more rec options

8. What features do you feel are currently missing from the park?

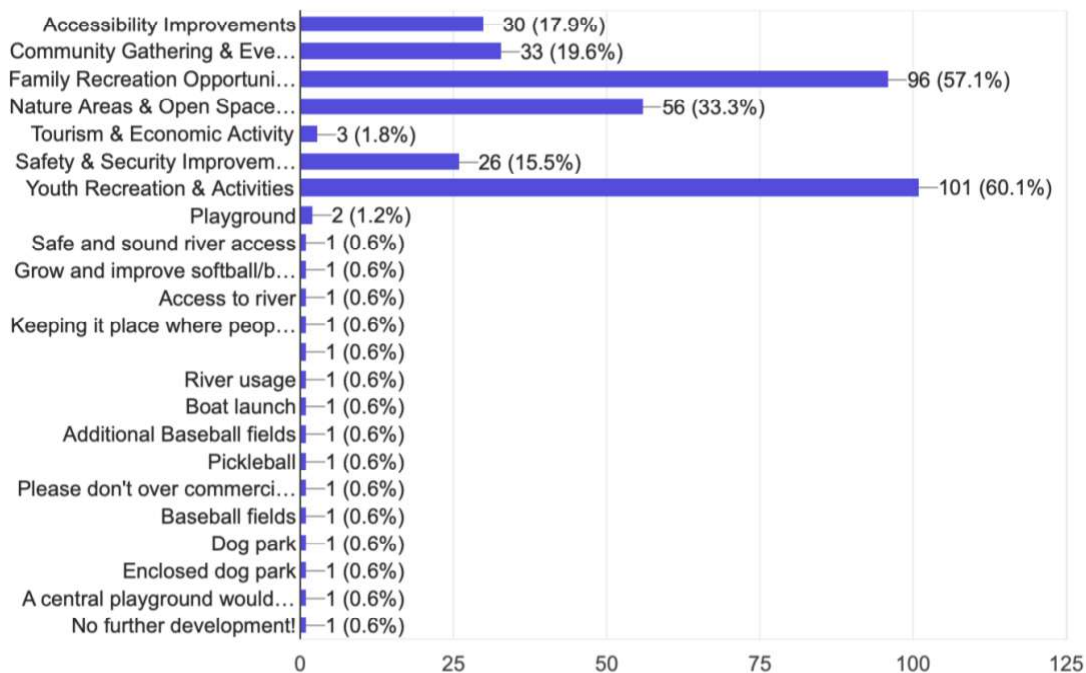

123 responses

Playground
None
Playground
Fenced off leash dog park.
Improved water access
Play area for small kids, clean bathrooms and water fountains
More baseball/soccer fields
Playground, additional baseball/softball field
Play area for children

9. What should be the highest priority for future development?

 [Copy chart](#)

- Under 18
- 18-24
- 25-34
- 35-44
- 45-54
- 55-64
- 65+

16. Do you have any additional comments, concerns, or suggestions? (Paragraph Response)

65 responses

A fenced dog park like in Ponderay would be great! Thank you all for the work you do. Very supportive of making Bonners Ferry a lovely place to live! Also, thank you for the ADA considerations - very thoughtful.

Please please please make a playground

Love to see more opportunities for people of all ages but especially little kids to enjoy time outside while preserving the natural open space

We don't need anymore trails

I like the waterfront improvements most. I'd like to see that developed better/more accessible. I like the bike park idea too- very family oriented.
Great job on the video and survey!

This is a great idea for the community!

Concerns about the lack of communication with park neighbors and the district 2 drainage district.
Our community needs more opportunities for the youth. Sports fields are very needed here

Fixing the current softball fields would be awesome. They are clay and sliding on them is a guaranteed injury.

My kids and I love this park. It's a great place to let my little guy get better skilled on his bike while I run with the stroller. We often stop at the fitness stations, however having a 2 and 4 year old, they are much too young to properly use the equipment.
A playground where they can explore and play would be nice.
Also a safe place to littles to cool off in the hot summer heat would be so beneficial to our community. I am very excited to see this project succeed.

Boat ramp for non motorized

Preserving some of the tranquility of the park would be appreciated as the way it is now is very peaceful. Adding too much stuff would take away from the nature/scenic vibe of the park. If there are going to be additional amenities I would prefer sports (pickleball court being my number 1 requested), the splash pad, and more picnic table areas. A dog park would help with dogs being off leash bothering people while they are doing various activities.

Frisbee Golf. It would be cheap to install as well as take up less space than people think. So there would be space for other recreational activities. Basketball/pickleball courts, bike trails and other places are available to the area still and the course can be built around it. As a disc golf business I've been included in and built multiple courses. Please reach out to me to have help building/designing the course if that's an option. Disc golf is also famous for raising the funds in the community. I'd even pay for a large portion of it.

Pickleball is a fad, there are some good ideas in the video but I think some of them pander too much to minority groups and wouldn't get used as much as you may think.

More baseball fields.

Great job on the video and getting the information out there for the community

More ideas include concessions, updated bathrooms, and teen focused opportunities

Concern about the timeline and priority of development.

Many of the recommendations would be better suited for the fairgrounds park where there is already adequate parking and new services are being built (bathrooms). Pickleball courts, basketball courts, and splashpad should all be improvements at the fairgrounds. Riverside park is better suited for additional baseball and softball fields. I support a playground, additional walking paths and better parking but feel the space will be underutilized if the open areas remain grass/multisport fields. This park has always been intended for softball and baseball fields and currently sees 500+users weekly from April through August during youth baseball and adult softball seasons. The road is named Ballpark road. It would benefit our community for many years to have enough softball and baseball fields there for all age groups to play on.

Don't change what is already nice as it is.

Would love to see a splash pad/playground developed. I am not in favor of Little League plans for new fields.

I think all the expansion ideas are actually wonderful, however, it's going to substantially change this park. Maybe that's the idea but I think this park is special just the way it is because it offers so much peace and calm that you can't get anywhere else.

Owner of Adventure Ridge here, would love to partner somehow in helping the nature themed playground and walking path info for kids come to life! 541-633-0386

We would like to see increased opportunities for public enjoyment of the park area while still maintaining the park's natural beauty.
Overdevelopment is a concern in this limited space.

A playground that is also handicap accessible is so important. There are far more handicap children than we realize in our county and this would be huge to feel included. Currently our other park is not accessible and that's hard for children like my son and some of his handicap friends (preschool/kindergarten age).

Thank you!

I love that there are big open spaces to play in. I enjoy how quiet & peaceful it is. I worry some of the proposed changes would ruin those two things.

Pickle ball is a trend and will fade, don't waste space for it. Just improve the tennis courts we have, no need to build new ones. Amphitheater will not get used.

Our youth need more baseball fields. They will use them for many years to come and they require little cost/maintenance. The bike park looks boring and disappointing. Not to mention there are plenty of opportunities and places to ride bikes in the county. We don't need to ruin and take up space down there with parking lots. The fitness centers are a joke. Please don't build more. Pickleball will phase out and the court will be costly with maintenance. Put all these unnecessary attractions down at the fairgrounds.

Love all of these proposed ideas! Multi use fields are very much needed in our community!

Dogs are my biggest concern. A GIANT dog came running out of nowhere, off leash, with the owner out of sight and knocked my little one to the ground. It took the owner almost 2 minutes to reach us and control their dog. My little one screams at the sight of dogs now. A little enforcement on off leash dogs would be nice.

I would love a safe place for my kiddos to play while I walk the circle loop around them.

I really love the plans! Its a beautiful and peaceful park right now, but it can be so crazy when an event happens that it deters me from stopping by because of no parking and just a lot of people there. However, we are also a special needs family so i really like the idea of more ADA compliant things including a playground and flat and wide walking paths are a huge hit for us. We love it!

The softball fields need major maintenance including outfield fencing and regular mowing

N/a

I just hope we keep it tasteful and don't try to build Spokane park in Bonners ferry

When I think of a playground that is actually beautiful and enjoyable, even as an adult, I think of the fort Sherman park in CDA.

I think priority #1 is waterfront access. It's a wonderful resource that has great potential. I really like the idea of the bike park, and the pickleball court. But the whole plan sounds great and kudos to whoever put the video and surveys together! It makes me 9B proud.

Keep it simple, a third baseball/softball field, expanded parking, and walking/ jogging trails.

I love the overall vision. My general concerns are centered around added maintenance cost to P&R, a department that already seems to struggle with maintaining existing infrastructure (ball fields often have to be prepped by teams/leagues that are playing on them, existing tennis courts are falling apart and recent maintenance performed by clubs rather than P&R, bathrooms are having to be built by volunteers after several years of being unable to afford them internally... etc.)

My 2nd ask would be that if pickle ball courts are built that a small amount of extra money is spent to just make them a dual purpose court for tennis and pickle ball (many other facilities are doing this same thing to save cost of building separate courts). Our existing courts are in TERRIBLE condition. I play on them multiple times per week and am rarely there when others are not trying to use them as well. My family and several others have started commuting to Sandpoint at times just to play on courts that are in better condition.

Awesome playground!!

I would like to keep the park wild but see a need for upgrades such as parking also extending the trail system would be great. Improvement of the baseball fields fences and dug outs.

The only concern I have is the lack of responsibility of pet owners. Picking up their dog waste. I am not sure how to combat this issue, public education- but the county does have ways to dispose of the waste readily available.

I would like to see the natural open concept remain- while adding a playground and bike track for younger kids. I think it would be great to connect the trail system to the bridge as well.

Thank you for your hard work!

Some additions sound like a great use of the space. But be careful of over developing and taking away it's unique character. 1 new bigger baseball field would be useful to the community.

Please don't overdevelop!

It's a lovely park. I think families would use it more if there were things for kids to do- and adults too. I'm old, I meet up with friends and stroll one around the block.

We love the park how it is. We don't want to make it different, we just feel it will bring a different dynamic and financial burden to our town.

none

Please don't take out the cottonwood trees! Replacing them with a parking lot would be crazy and terrible and sinful. Find a way to keep them. There's nothing so big and old and beautiful. You cannot replace that.

Shady family friendly areas would be great! A park that is safe (please have a mom on the play equipment committee) and lots of shade with water fountains and close bathrooms would be great!! A paved walking area for strollers, bikes, scooters would be wonderful, especially during mud season.

Hate to see this become something that is too busy for people to enjoy... simple is better. Would like to have a baseball/softball complex for the kids in the community.

Focus on families and kids, not boomers

I love the vision, and support all you do to provide healthy recreational options for our community. For people with dogs, this is a popular area, so keeping that dog friendly - but also making more opportunities for all ages is great. Please improve the parking and add more. Thank you.

More Pickleball please.

I look forward to seeing the riverside park grow. I think have a safe place for people to get in and out of the river with non motorized boats would be great. But I also think a safety on the river station should be included. More people need to understand our river and how to navigate it safely. Provideing knowledge about the dangers.

I also love the idea of providing more opportunities for our youth to have something to do in our town. But that comes with the concern of vandalism.

This can be a great space for families

Walking trails are great but no desire for more. Youth activities are needed

No

We are blessed to have this property for community use. As a lifelong BF native and 4th generation Boundary county family, I feel we should take this development seriously and consider the majority of the main users of the Park. The answer is: The Baseball community, Walkers of dogs, and general community socialization. All Stakeholders should be considered for future development.

The only playground in the community currently is not suitable for little kids safety wise and would benefit the community

More waterfront paths would be nice like other towns have. A playground or structure for kids to play on while visiting the park.

Make this park for everyone to enjoy. If you can bring in multiple sports, activities it will be for all to enjoy not just ball parks users. Seniors like to sit on benches and enjoy the scenery and socialize. Maybe have tables with checker and chess boards. It gets them out of the house and engaged

I like the idea of improving the park, but I would hate to see development ruin what makes the park nice to visit. It's quiet, rural and still kinda raw, still has a lot of natural features. It still feels like a small town place

Nope:)

Love the vision, just concerned with limited funding

Please don't pursue the river access/boat ramp... it will take away from it's beauty and peacefulness of that park. There are multiple docks/access available on the way to the refuge.
Please don't pursue the pump track either at this location. Perhaps this is better located at the fairgrounds.
