LIFETIME WARRANTY

1 YEAR WARRANTY

ADJUSTABLE
Display can adjust to accommodate a range of sizes.

ADJUSTABLE HEIGHT
Display can adjust to accommodate a range of heights.

INDOOR USE
Banners and stands are recommended for indoor usage.

OUTDOOR USE
Banners and stands are recommended for outdoor usage.

DOUBLE-SIDED
Displays graphics back-to-back to view from both sides.

SINGLE-SIDED
Displays graphic on front side only.

TOOLLESS
Display parts assemble together without the use of tools.

HOOK & LOOP
Banners attach via hook & loop strips on top and/or bottom.

CLAMP
Top and/or bottom bars clamp to banner.

HEM
Banner edges are folded over and stitched with white thread.

GROMMET
Banner edges are hemmed with #2 grommets in corners.

POLE POCKET
The top and/or bottom of the banner is folded over and sewn, creating a pocket that accepts dowels.

SEG
Graphics are installed with silicone edge inserted into frame.

ONE CHOICE®
Top selling displays produced at our Baja location. This allows us to offer even lower prices with free ground bulk shipping.

FREE UPS GROUND SHIPPING
Free ground shipping offered with our One Choice® products.

DIGITAL PRINTING COLOR INFORMATION

OFFSET VS. DIGITAL
Digital printing offers a shorter turnaround and more consistent end results than offset printing. Digital printers do not print PMS and RGB colors. These colors will have color shifts.

PMS (SPOT COLOR) MATCHING
Although digital printers do not print PMS colors, our production team will manually adjust the color output to match your spot colors upon request (per color/material). Please ask us about our PMS Color Matching service when you upload your files.
*Please note that 1-2 business days will be added to the turnaround time.

Spot Colors

C M Y K LC LM

MATERIAL
Printed colors look slightly different depending on materials.

RE-ORDERING
If you are in need of graphics from a previous order printed by us, let us know before you approve proofs. To match colors with previously printed graphics as closely as possible, we need extra time and information from you. We typically hold files for 3-4 months. By request, we can back up files for future use.

PRINTING METHODS

UV PRINTING
Using the 4-color process (plus light cyan and light magenta), we create weather resistant images for outdoor graphics using ultraviolet curable inks.
Used for: Roll Up Banner Stands

DIRECT-TO-FABRIC DYE-SUBLIMATION
The direct-to-fabric printing process applies the ink directly to the fabric using the 4-color process. The print then goes through the sublimation process of heat-plus-time to create beautiful, photo images.
Used for: Single and Double-Sided Flags, and Casita Canopies

PAPER TRANSFER DYE-SUBLIMATION
The Dye-Sub Paper Transfer printing method takes the 4-color process to a new level, with a print quality that yields crisp lines and colors. Colors are printed directly onto paper which then get transferred to fabric and fused via dye-sublimation.
Used for: 4-Sided Table Throws, Fabric Displays, and Fabric Pop Up Displays
