ILLUMINATED DISPLAYS

The illuminated display units are built with the end user's convenience in mind: functionality and portability. The interior LED lights illuminate the display for a high volume look.

Illumi - SEG Pop-up Display

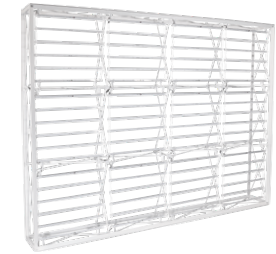

The Illumi is a pop-up display unit that is specifically made to apply SEG fabric graphics. The interior ladder lights illuminate the display for a high volume look. This design also provides the option to connect multiple units to create a completely unique set up. See next page for bridge options.
