# 5kg Compressed Coco Bricks

- Coco Earth Harvest's **5kg Coco Bricks** are made from **superwashed, finely sieved organic coco coir fiber** for superior purity and performance.
- Each brick expands to over **65 litres of premium growing medium**, ideal for greenhouses, nurseries, and horticulture.
- Eco-friendly, pH-balanced, and ready to use—perfect for professional and home growers alike.

Parameter	Description
EC	<ul style="list-style-type: none"><li>• Super washed process to maintain EC levels well below &lt;350 ppm</li></ul>
pH	<ul style="list-style-type: none"><li>• pH 5.5 - 6.5</li></ul>
Yield	<ul style="list-style-type: none"><li>• Each brick yields between 65 -70 liters upon hydration</li></ul>
White label options	<ul style="list-style-type: none"><li>• Various including polybags with carry handles, individual and bulk shrink wrap, multi-packs as well as custom labelling.</li></ul>
Units/Pallet	<ul style="list-style-type: none"><li>• 256 units per pallet</li></ul>
Units/Container	<ul style="list-style-type: none"><li>• 5120 pcs (20 skids) can be orders in single or multi-assortments if combined with other products to fill 40ft container</li></ul>

# 650g Compressed Coco Bricks

- Coco Earth Harvest’s **650g Coco Bricks** are crafted from **superwashed, finely sieved organic coco coir fiber** for clean, consistent performance.
- Each brick expands to **8–9 litres of premium growing medium**—perfect for seed starting, pots, or small-scale cultivation.
- Lightweight, pH-balanced, and easy to use—ideal for home gardeners and hobby growers

Parameter	Description
EC	<ul style="list-style-type: none"><li>• Super washed process to maintain EC levels well below &lt;350 ppm</li></ul>
pH	<ul style="list-style-type: none"><li>• pH 5.5 - 6.5</li></ul>
Yield	<ul style="list-style-type: none"><li>• Each brick yields between 8-10 liters upon hydration</li></ul>
White label options	<ul style="list-style-type: none"><li>• Custom-packed as needed: individually shrink-wrapped, 4–8 unit multi-packs, cartons of 20, or bulk-wrapped for skids.</li></ul>
Units/Pallet	<ul style="list-style-type: none"><li>• 1000pcs - 2000pcs (varies based on packaging)</li></ul>
Units/Container	<ul style="list-style-type: none"><li>• 20000 pcs -40000 pcs if a single 40ft container, can be combined with other products to fill 40ft container</li></ul>

# 650g Compressed Husk Bricks

- Coco Earth Harvest’s **650g Super-Washed** Husk Chip Bricks expand to **8–10L of clean**, chunky coir chips ideal for orchids, mulching, and soil conditioning.
- Low EC, pH-balanced, and excellent for aeration, drainage, and long-lasting moisture retention.

Parameter	Description
EC	<ul style="list-style-type: none"><li>• Super washed process to maintain EC levels well below &lt;350 ppm</li></ul>
pH	<ul style="list-style-type: none"><li>• pH 5.5 - 6.5</li></ul>
Yield	<ul style="list-style-type: none"><li>• Each brick yields between 8-10 liters upon hydration</li></ul>
White label options	<ul style="list-style-type: none"><li>• Custom-packed as needed: individually shrink-wrapped, 4-8 unit multi-packs, cartons of 20, or bulk-wrapped for skids.</li></ul>
Units/Pallet	<ul style="list-style-type: none"><li>• 1000pcs - 2000pcs (varies based on packaging)</li></ul>
Units/Container	<ul style="list-style-type: none"><li>• 20000 pcs -40000 pcs if a single 40ft container, can be combined with other products to fill 40ft container</li></ul>

# 5kg Compressed Husk Chip

- Coco Earth Harvest’s **5kg Coco Husk Chips** are made from clean, chunky coconut husk pieces—ideal for orchids, mulching, and soil aeration.
- Each brick **yields upto 65 litres** upon hydration
- Naturally pH-balanced, long-lasting, and excellent for moisture retention and drainage.

Parameter	Description
EC	<ul style="list-style-type: none"><li>• Super washed process to maintain EC levels well below &lt;350 ppm</li></ul>
pH	<ul style="list-style-type: none"><li>• pH 5.5 - 6.5</li></ul>
Yield	<ul style="list-style-type: none"><li>• Each brick yields between 65 liters upon hydration</li></ul>
White label options	<ul style="list-style-type: none"><li>• Various including polybags with carry handles, individual and bulk shrink wrap, multi-packs as well as custom labelling.</li></ul>
Units/Pallet	<ul style="list-style-type: none"><li>• 240 units per pallet</li></ul>
Units/Container	<ul style="list-style-type: none"><li>• 4800 pcs (20 skids) can be orders in single or multi-assortments if combined with other products to fill 40ft container</li></ul>

# 25kg Loose Coco Bales

- Coco Earth Harvest’s **25kg Loose Super-Washed Coco Coir Bales** yield over **220 litres** of ready-to-use premium growing medium.
- No hydration required—just open and use for pots, beds, or mixes.
- Clean, low-EC, and finely sieved for optimal aeration, moisture retention, and root health..

Parameter	Description
EC	<ul style="list-style-type: none"><li>• Super washed process to maintain EC levels well below &lt;350 ppm</li></ul>
pH	<ul style="list-style-type: none"><li>• pH 5.5 - 6.5</li></ul>
Yield	<ul style="list-style-type: none"><li>• Each Bale yields over 220 liters of loose washed coco upon opening.</li></ul>
White label options	<ul style="list-style-type: none"><li>• Bales can be customized with stickers based on any art work</li></ul>
Units/Pallet	<ul style="list-style-type: none"><li>• 28 bales per pallet</li></ul>
Units/Container	<ul style="list-style-type: none"><li>• 560 pcs (20 skids) can be orders in single or multi-assortments if combined with other products to fill 40ft container</li></ul>

# 1000kg Jumbo Bales

- Coco Earth Harvest’s **1000kg Jumbo Coco Coir Bales** provide over **5,000 litres of premium, ready-to-use growing medium**.
- No hydration needed—perfect for large-scale greenhouses, nurseries, and soil mix operations.
- Low-EC, finely sieved, and optimized for superior aeration, moisture retention, and root development.

Parameter	Description
EC	<ul style="list-style-type: none"><li>• Super washed process to maintain EC levels well below &lt;350 ppm</li></ul>
pH	<ul style="list-style-type: none"><li>• pH 5.5 - 6.5</li></ul>
Yield	<ul style="list-style-type: none"><li>• Each Bale yields over 5000 litres of growing medium on opening.</li></ul>
White label options	<ul style="list-style-type: none"><li>• Bales can be customized with stickers based on any art work</li></ul>
Units/Pallet	<ul style="list-style-type: none"><li>• 01 Bale per pallet</li></ul>
Units/Container	<ul style="list-style-type: none"><li>• 20 Bales per 40ft container and can be assorted with other product skids if needed.</li></ul>

# Coco Coir Pots

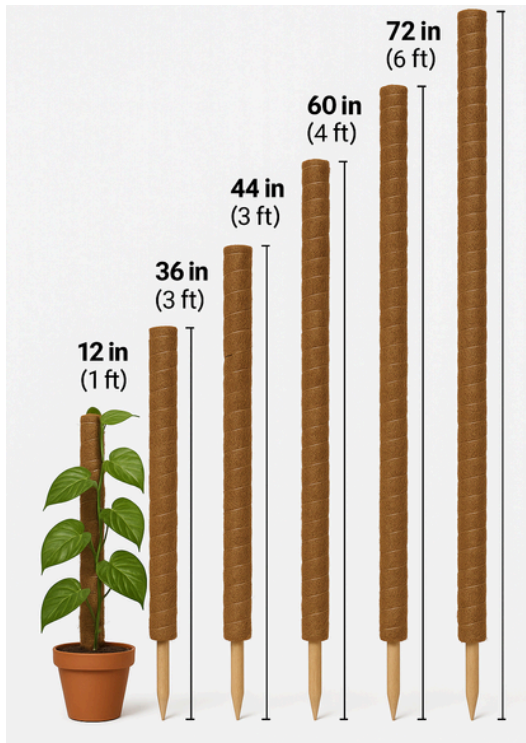

- Coco Earth Harvest’s Coco Coir Pots are biodegradable, breathable containers made from natural coconut fibers—ideal for seed starting, transplants, and eco-friendly gardening.
- Available in a variety of sizes to suit everything from seedlings to mature plants.

Parameter	Description
Dimensions	<ul style="list-style-type: none"><li>• Most common sizes are 4 inch square or 4 inch round but can be customized as needed.</li></ul>
Material	<ul style="list-style-type: none"><li>• Coco Fiber + Latex</li></ul>
MOQ	<ul style="list-style-type: none"><li>• Varies depending on product assortment but usually 1 40ft container</li></ul>
White label options	<ul style="list-style-type: none"><li>• Available in polybag multi-packs or cartons as per sizes</li></ul>
Units/Pallet	<ul style="list-style-type: none"><li>• 750 pcs per carton</li><li>• 16 Cartons per pallet = <b>12,000 pots/pallet</b></li></ul>
Units/Container	<ul style="list-style-type: none"><li>• <b>240,000</b> pots per container (assuming single product for 40ft container)</li></ul>

# Coco Coir Grow Poles

- Coco Earth Harvest’s Coco Grow Poles are natural support stakes wrapped in coconut coir fiber—ideal for climbing plants like monstera, pothos, and philodendrons.
- They promote aerial root attachment and healthy vertical growth, available in multiple lengths and diameters.

Parameter	Description
Dimensions	<ul style="list-style-type: none"><li>• Lengths range from 12 in - 72in</li><li>• Most common diameter is 1 inch, but can range from 0.75in - 1.5in</li></ul>
Material	<ul style="list-style-type: none"><li>• Coco Fiber + Coir Twine + Wooden Stakes</li></ul>
MOQ	<ul style="list-style-type: none"><li>• Varies depending on product assortment but usually 1 40ft container</li></ul>
White label options	<ul style="list-style-type: none"><li>• Available in polybag multi-packs or cartons as per sizes</li></ul>
Units/Pallet	<ul style="list-style-type: none"><li>• One carton will contain 6 x 36" Coco Grow Poles</li><li>• 100 Carton per pallet = <b>600 grow poles/pallet</b></li></ul>
Units/Container	<ul style="list-style-type: none"><li>• <b>12,000</b> Grow Poles per 40ft Container</li></ul>

# Coco Coir Grow Mats

- Coco Earth Harvest’s Coco Grow Mats are made from natural coconut coir fibers, providing a clean, soil-free medium for seed starting, microgreens, and hydroponics.
- They retain moisture, promote healthy root growth, and are available in various sizes and sheet rolls.

Parameter	Description
Dimensions	<ul style="list-style-type: none"><li>• Available in sheets of 12in x 12in or 12in x 24 inches sold in multi packs</li><li>• Also available in rolls of various dimensions and thickness</li></ul>
Material	<ul style="list-style-type: none"><li>• Coco Fiber + Latex</li></ul>
MOQ	<ul style="list-style-type: none"><li>• Varies depending on product assortment but usually 1 40ft container</li></ul>
White label options	<ul style="list-style-type: none"><li>• Available in multipacks,</li></ul>
Units/Pallet	<ul style="list-style-type: none"><li>• 1ft x 1ft = 100 mats per Carton/ <b>4000 mats per pallet</b></li><li>• 1ft x 2ft = 50 mats per Carton/ <b>2000 mats per pallet</b></li></ul>
Units/Container	<ul style="list-style-type: none"><li>• 1ft x 1ft = <b>80,000 mats per container</b></li><li>• 1ft x 2ft = <b>40,000 mats per container</b></li></ul>

# Coco Seed Starter Discs

- Coco Earth Harvest’s Coco Coir Seed Starters are compact, soil-free discs made from superwashed coir—perfect for germinating seeds with minimal mess.
- They expand when watered, offering excellent moisture retention and root support for strong, healthy seedlings.

Parameter	Description
Dimensions	<ul style="list-style-type: none"><li>• <b>25 mm (1 inch)</b> – Ideal for small seeds and compact trays</li><li>• <b>32 mm (1.25 inch)</b> – Most commonly used across retail and horticulture</li><li>• <b>38 mm (1.5 inch)</b> – Preferred for larger seeds or longer root development</li><li>• <b>50 mm (2 inch)</b> – Used for transplant-ready seedlings or nursery applications</li></ul>
Material	<ul style="list-style-type: none"><li>• Coco Fiber + Latex + Cotton Liners (if applicable)</li></ul>
MOQ	<ul style="list-style-type: none"><li>• Varies based on customer requirement</li></ul>
White label options	<ul style="list-style-type: none"><li>• These discs are often sold in packs of 50, 100, or 500 for gardeners, nurseries, and retailers</li></ul>
Units/Pallet	<ul style="list-style-type: none"><li>• <b>3580</b> discs per carton</li><li>• <b>214,800</b> per pallet</li></ul>

# Coco Growing Cubes

- Coco Earth Harvest’s Coco Grow Cubes are made from superwashed, finely shredded coco coir encased in a breathable cotton mesh, ideal for seed starting and cuttings.
- Each cube features a pre-drilled hole for easy planting and promotes strong root development with optimal moisture and aeration.
- Perfect for plug trays, hydroponics, and transplanting—clean, eco-friendly, and ready to use.

Parameter	Description
Dimensions	<ul style="list-style-type: none"><li>• <b>1 inch x 1 inch x 1 inch</b> (25 mm cube)<ul style="list-style-type: none"><li>• – Ideal for seed starting and small cuttings in plug trays.</li></ul></li><li>• <b>1.5 inch x 1.5 inch x 1.5 inch</b> (38 mm cube)<ul style="list-style-type: none"><li>• – Common for hydroponics and early-stage propagation.</li></ul></li><li>• <b>2 inch x 2 inch x 2 inch</b> (50 mm cube)<ul style="list-style-type: none"><li>• – Suitable for larger seedlings and cuttings before transplanting.</li></ul></li></ul>
Material	<ul style="list-style-type: none"><li>• Coco Fiber + Cotton Liners</li></ul>
MOQ	<ul style="list-style-type: none"><li>• Varies based on customer requirement</li></ul>
White label options	<ul style="list-style-type: none"><li>• Grow Cubes are typically packed in cartons of ranging from <b>1000pcs - 2000pcs</b>, depending on dimension and packaging requirements</li></ul>
Units/Pallet	<ul style="list-style-type: none"><li>• For 1.5 inch cube ~<b>1,300 pcs per carton</b></li><li>• <b>78,000</b> cubes per pallet</li></ul>

# Coir Erosion Mats

- Coco Earth Harvest’s Coco Coir Erosion Mats are durable, biodegradable mats made from woven coconut coir fiber, designed to stabilize soil and prevent erosion on slopes, riverbanks, and construction sites.
- They promote vegetation growth by retaining moisture while allowing water permeability, making them ideal for reforestation, landscaping, and hydroseeding projects.
- Available in various densities (400gsm to 900gsm) and customizable sizes to suit project-specific requirements.

Parameter	Description
Dimensions	<ul style="list-style-type: none"><li>• <b>400gsm Coir Mat</b> – Lightweight and ideal for gentle slopes, landscaping, and temporary erosion control where quick degradation is desired.</li><li>• <b>700gsm Coir Mat</b> – Medium-duty mat suitable for moderate slopes, reforestation projects, and roadside stabilization.</li><li>• <b>900gsm Coir Mat</b> – Heavy-duty erosion control for steep banks, river embankments, and long-term soil stabilization in high-flow areas.</li></ul>
Material	<ul style="list-style-type: none"><li>• 100% Natural Coco Coir Fiber</li></ul>
MOQ	<ul style="list-style-type: none"><li>• 1 x 40ft Container</li></ul>
Units/Container	<ul style="list-style-type: none"><li>• 400gsm - 400 rolls/ 40ft container</li><li>• 700gsm - 250 rolls/40ft container</li><li>• 900gsm - 110 rolls/40ft container</li></ul>

# Coir Erosion Logs

- Coco Earth Harvest’s Coco Coir Erosion Logs are densely packed rolls of natural coconut coir fiber encased in durable mesh netting, designed to control soil erosion and manage stormwater runoff.
- Ideal for stabilizing slopes, stream banks, shorelines, and construction perimeters, they promote vegetation growth while filtering sediment and slowing water flow.
- Available in various diameters and lengths, these biodegradable logs offer an eco-friendly solution for long-term erosion control and site restoration.

Parameter	Description
Dimensions	<ul style="list-style-type: none"><li>• 3 meters long x 30 inches wide</li><li>• Plant hole diameter and spacing can be customized</li></ul>
Material	<ul style="list-style-type: none"><li>• Coconut Fiber Filling</li><li>• <b>Outer Netting (Mesh)</b><ul style="list-style-type: none"><li>◦ Typically made from synthetic polypropylene mesh or biodegradable coir netting</li><li>◦ <b>Polypropylene</b> (50-100 mm mesh): Durable for high-flow areas</li><li>◦ <b>Coir Mesh:</b> Fully biodegradable, ideal for environmentally sensitive zones</li></ul></li></ul>
MOQ	<ul style="list-style-type: none"><li>• 1 x 40ft Container</li></ul>
Units/Container	<ul style="list-style-type: none"><li>• 400 logs per 40ft container</li></ul>
