

Insurance Sector Solutions

As Leaders in Legal Tech and Legal Operations, we have the Solutions to Help you Better Manage your External Legal Spend

LegalSRM™ is designed specifically for global insurers. A wealth of performance insights can be extracted from this market-leading digital technology to track the performance of your panel law firms and TPAs to help you to determine critical success factors. LegalSRM will provide you with true performance metrics allowing you to select law firms based on their overall performance of settling your claims.

The insights from LegalSRM have enabled us to save time and costs in the performance management of our law firms.

Head of Claims, Global Insurer

Legal eTeam is a digitally-enabled, fully managed service, for insurance claims teams. This hybrid, eBilling service combines legal eBilling, a legal operations team and a proprietary legal spend and analytics dashboard. Whether you're new to legal eBilling or have an established system in place, as a Legal eTeam insurance sector client you won't need to worry about law firm billing, systems issues, integrations, customisations, updates or maintenance. We will help you;

The relationship with COG Legal differs greatly from dealing with a faceless e-billing process. They understand that the insurer and its panel firms' relationship is important and treat issues sensitively, recognising that the value of panel firms is not just about the rates they charge or the invoices they render, but the overall service provided.

Head of Claims, UK Insurer
