management

We are an award-winning team of Legal Spend Management and Legal Operations professionals

About Us

We provide legal spend management solutions and consulting on all legal spend management issues combining real expertise with a personalised service. Whether it be one of our core legal spend management services or a unique consultancy package we deliver real benefits with immediate impact for some of the world's largest organisations. At Coote O'Grady we deliver consulting support that is practical and for the benefit of the client in the long term.

COOTE O'GRADY
WE ARE LEGAL SPEND MANAGEMENT

We are a fully independent organisation, with market-leading skills and expertise, uniquely positioned to deliver the highest quality service through our world-class processes and expertise.

We operate across a wide range of industry sectors, including financial services, insurance, automotive, pharmaceutical and the public sector to name a few.

We have developed advanced proprietary legal spend management technology solutions, which enable us to effectively analyse legal invoices (bills) and claims litigation spend to help drive significant savings. Our solution also ensures a sustainable ongoing return on investment for our clients.

As well as being legal spend and legal operations specialists, we are committed to flexible working for our expert team, supporting a range of flexible working practices including part-time, term-time and remote working. Our employees take personal control over their schedule and work environment, so they balance their lives in a way that works for them, while our clients benefit from an energised and motivated team.

As a forward-thinking employer we're committed to giving something back to the communities we work in, giving at least 1% of revenue to a charity voted for by our employees each year
