

## Hello

It's been a busy start to the year at Coote O'Grady. As well as continuously developing and improving our legal tech we have recently launched [Legal eTeam](#) - the first legal eBilling solution of its kind. Unlike other eBilling technology, this solution has been designed specifically for EMEA and APAC markets, combining a digitally enabled, fully managed service, for in-house legal and insurance claims teams. Read on to find out more.

Our legal spend management experts have been sharing their knowledge on LinkedIn with a series of LIVE broadcasts - don't worry if you missed them we have put links below. We are also delighted to announce that our combination of technology and human-led expertise is being recognised across the industry and were recently shortlisted for the Small Business of the Year Award 2022 in the [North East Business Awards](#)

## We Have Reimagined Legal eBilling

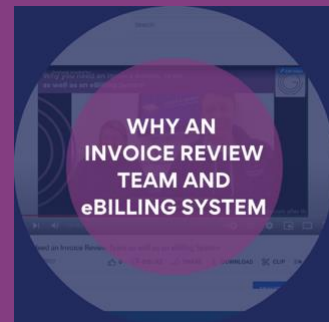

[Legal eTeam](#) is a digitally enabled, fully managed service, for in-house legal and insurance claims teams. This hybrid, digitally-enabled eBilling service combines

legal eBilling, a legal operations team, and a proprietary legal spend and analytics dashboard. As the main eBilling solution for EMEA and APAC Legal eTeam provides savings like no other solution.

## Watch The latest Coote O'Grady Webinars

***"We provide areas of support that you wouldn't necessarily get with an in-house team"***

*- Stacey Coote, Co-CEO  
Coote O'Grady*

If you miss any of our LinkedIn Lives you can watch them back over on our [YouTube channel](#). There you will also find lots of other useful videos and webinars on our services.

## Tree-mendous

Thanks to the savings we have made for clients on their external legal spend we have been able to plant more trees under the more:trees initiative.
