

# Dr Lovees Ahfembombi Lueong

Climate Change and Development Consultant

---

Lovees Ahfembombi is a dynamic and highly motivated Postdoctoral Research Scientist and Development Expert with a wealth of experience and a strong academic background in climate science. Proficient in both English and French, he has excelled in diverse roles, including consultancy positions with international organizations. Lovees is a prolific researcher, with an impressive track record of publishing in leading international scientific journals. He has earned accolades such as the Conservation Action Research Grant and has spearheaded numerous successful projects on environmental sustainability. Lovees is an active member of the prestigious Cameroon Academy of Young Scientists and has demonstrated his commitment to education by teaching a variety of University courses and mentoring Master's dissertations. Additionally, he has been the recipient of several coveted fellowships, underscoring his dedication to advancing his expertise and passion for environmental sustainability and inclusion. His tenure with the Rural Women Center for Education and Development (RuWCED) as the Program Manager for Gender Environment and Development highlights his comprehensive understanding of the environmental landscape. Lovees' multifaceted career speaks to his unrelenting drive to make a positive impact in the field of climate science and development.
