

WINDSHIELD TINT INSTALLATION AUTHORIZATION & RISK ACKNOWLEDGMENT

Customer Name:		Phone:	
Vehicle Year/Make/Model:		Mileage:	
Installation Date:		Work Order #:	

AUTHORIZATION TO PERFORM WORK

I authorize Tint Express and its technicians to install window film on the selected glass of my vehicle. I understand that professional window-film installation requires controlled use of a liquid application/slip solution. Tint Express uses protective procedures intended to minimize liquid exposure to the dashboard, interior and electronic components.

MODERN VEHICLE ELECTRONICS

I understand that modern vehicles may contain sensitive electronic modules, wiring, sensors, cameras, antennas, connectors and driver-assistance components in or near the windshield, dashboard, A-pillars, center console and kick-panel areas. Some vehicles may be particularly sensitive to moisture. Tint Express will use reasonable protective precautions; however, the location, condition and water resistance of concealed vehicle components are determined by the vehicle manufacturer and are outside Tint Express's control.

PRE-EXISTING / UNRELATED CONDITIONS

Tint Express is not responsible for failures or damage caused by conditions unrelated to the work performed, including pre-existing electrical or mechanical problems, manufacturer defects, prior moisture intrusion, windshield leaks or improperly sealed/replaced glass, clogged drains, prior repairs or modifications, aftermarket wiring/electronics, deteriorated seals or body seams. The occurrence of an electrical, mechanical or electronic failure after window-film installation does not, by itself, establish that the installation caused the failure.

DAMAGE CLAIMS & OPPORTUNITY TO INSPECT

If I believe damage resulted from the installation, I agree to notify Tint Express promptly and, when reasonably possible, provide Tint Express an opportunity to inspect and document the condition before the affected area is cleaned, altered, repaired or discarded, except when immediate action is reasonably necessary for safety or to prevent additional damage. If another repair facility is involved, I agree to make reasonable efforts to provide relevant diagnostic reports, photos/videos, diagnostic trouble codes and other documentation, and to request preservation of replaced components when reasonably possible.

DETERMINING RESPONSIBILITY

Tint Express will evaluate legitimate claims fairly based on available evidence, including vehicle condition, installation records, photographs/video and diagnostic findings. A finding that a component was damaged by moisture does not, by itself, establish the source of that moisture or that Tint Express caused the condition. When causation is disputed, Tint Express may request reasonable diagnostic evidence identifying the source/path of the moisture and its connection to the work performed. Nothing in this acknowledgment is intended to waive rights that cannot legally be waived under applicable law.

CUSTOMER AUTHORIZATION

I have read and understand this acknowledgment, have had an opportunity to ask questions, and authorize Tint Express to perform the requested window-film installation.

TECHNICIAN PRE/POST-INSTALLATION CHECKLIST

- Vehicle starts/operates normally before service
- Mileage photographed
- Dashboard/warning lights documented
- Windshield/dash/A-pillars photographed
- Pre-existing damage/conditions documented
- Dash/electronics protection installed
- Electronics-sensitive vehicle precautions completed
- Post-install dash/A-pillars inspected & dried
- Vehicle starts/operates normally after service
- Post-install photos/video completed
