Track Days July 31 – August 3, 2026

Guidelines and Expectations

This is our thirtieth year of operation. It is brought to you by a group of friends who wanted more from a track day and our friends to enjoy it.

This is a private invite only event.

If you are participating in this event, you are a friend of one of the organizers or have been invited by someone who has taken part in our events. All invitees are the responsibility of their inviter including on and off-track behavior.

This is an open track day event. Our format is listed for Slow, Intermediate and Fast riders with Slow session starting at the top of the hour, Intermediate twenty minutes after the hour, and Fast at forty minutes after the hour. All riders are allowed to participate in all sessions. Keep in mind that you must be able to keep minimum average pace of the session. Passing in the Slow and Intermediate group is done with wingspan spacing and if you decide to ride the Fast group, be prepared to ride predictably and with much faster riders without restrictions.

What To Expect To Do Per Day:

Get to track before 7:30am.

Bring your bike through tech and have your photo taken with your bike(s) [Yes, only you can bring your bike through tech].

After tech is done, you can proceed with putting your tire warmers on and setting up your pit area.

Tech will be closed at 8:55am for riders meeting and will not be available again till lunch.

MANDATORY RIDERS MEETING AT 9:00AM, OR YOU DO NOT RIDE.

If you do fall and have been cleared by Medical, you must have your bike cleared through Tech again before riding that bike again.

Bikes fallen on track if not rideable back to pits will stay out on track and only be available for pick up at lunch and at the end of day to maximize track riding time.

You will be responsible for getting your own bike off track. (We do not have a track designated bike pick up service, ask a friend and work it out when it's available to get picked up).

Rules and Regulations:

All Groups

Please, please and please!!! Warm up your bike, tires and your mind on your out lap.

Every time you proceed on to the track you will **NEVER APEX TURN 1 ON YOUR OUTLAP!**

wheel over 1 foot off or higher are considered unnecessary and unsafe. You will get one warning from control riders. A second infraction will be removal from the event.

NO RIDERS ARE TO LOOK REARWARDS except control riders or those who have been given permission ahead of time.

Passing is allowed anywhere when done safely (remember everyone is a friend or a friend of a friend).

Slow and Intermediate group passing should be done with wingspan spacing (both riders with arms spread out should not be able to touch each other 6 feet minimum apart).

When exiting the track, you will indicate after turn 12 that you are coming off with your left hand up and staying wide to the right, NOT APEXING TURNS 13 & 15 while proceeding to the pit exit.

Under all circumstances when you will not be riding at pace or something has gone wrong with your bike, you MUST first raise one hand over your head to indicate you will be doing something unpredictable BEFORE slowing down gradually. This will also be used to indicate you will be coming off track after turn 12. If you see a RED FLAG, please also follow this procedure and ride with 60-80% speed.

Standard Safety Gear Required – Full leather suit, boots covering ankles, gauntlet gloves, spine board, and helmet.

Cameras – must be within 6 inches wide of the vehicle body OR within 1.5 feet above the body of the vehicle / mounting vertical point.

Nothing is to be in your mouth when going on track ie: gum, chewing tobacco, candy etc...

If you find you are caught in a group and do not feel comfortable, please signal that you will be pulling off track after turn 12 with your hand raised and ride through the hot pits. The flagger will let you back on track when it is safe to do so, and you will reposition yourself for what is hopefully clearer track.

NO STOPPING ON TRACK.

If you fall, check yourself first. If you are alright, get out of the impact zone. If you are injured do not move, we will come get you.

NEVER REMOVE YOUR HELMET ON TRACK!!! This will red flag the session and end your day of riding.

Get on track through hot pits.

Get off track through pit exit.
