CHEVAL-LIBERTE.COM

OUR HISTORY

The Cheval Liberté brand was created in 1995 by Denis Rulquin (1949-2006), a professional in the trailer sector and founder of the group, with the objective of delivering quality products that meet customer expectations.

As they were passionate riders and breeders, the Rulquin family's manufacturing activities were naturally oriented towards the equestrian world.

As riders, breeders and the initial users of Cheval Liberté products, the family places particular emphasis on designing and developing innovative products.

Today with over 20 years of experience to its name and under the running of Gregory Rulquin, Cheval Liberté is a European leader in the horse trailer and equestrian buildings sector.

With their recognised "savoir-faire", Cheval Liberté's design teams focus on creating modern, functional and robust products. From technological mastery to personalised marketing, Cheval Liberté's products are created with horse and rider very much in mind.

Ergonomics

« COMPARE AND TEST DRIVE !
EASY TO TOW.
WARNING, YOU MIGHT FORGET THAT
YOU'VE GOT A TRAILER ATTACHED. »

Cheval Liberté is the only manufacturer to produce its own single-piece chassis. Developed by our design teams, the lowered chassis has a centre of gravity that sits as close as possible to the road for optimum balance control of your trailer.

PULLMAN 2 SUSPENSION

« FREE YOURSELF FROM THE STRESSES OF TRAILER TRANSPORT..
PERFECT ROAD-HANDLING CONTROL. »

Closer to car technology, the PULLMAN 2 SUSPENSION consists of 4 galvanised steel independent articulated arms with 4 torsion springs and 4 dampers. This technology ensures unbeatable road-holding capacities. Our factory is equipped with the latest generation laser tooling, enabling the entire loading sill of the trailer to be lowered.

LOWERED CHASSIS A SOLUTION TO SAFETY

Result : no incline, no "step", but a flat surface that is very comfortable for your horse. With a reduced floor height of 30 cm, you won't have a problem loading your horses. The Pullman 2 suspension greatly reduces box movement, muffles transport noise and absorbs the bumps in the road.

SAFETY

Safety elements such as brakes, suspension, wheels and accessories are all officially approved and regularly checked.

Our trailers have European approval. Our trailers have a 2-year parts and labour guarantee and a 5-year guarantee for the aluminium planking and sides.

RAMP-DOOR

EXCLUSIVE TO CHEVAL LIBERTÉ

« NO MORE STRESS AND FATIGUE FOR YOUR HORSES OR THE DRIVER. IF YOU TRY IT, YOU'LL BUY IT ! »

A horse that's difficult to load, equipment to transport : the ramp-door is essential for all situations. Cheval Liberté fits as standard to all its trailers a simple and functional system for transforming the ramp into a door.

CHEVAL LIBERTÉ

« FROM 1 TO 4 PLACES, 11 DIFFERENT MODELS
FOR EVERY KIND OF USERS. »

YEARS OF RESEARCH AND DEVELOPMENT HAVE ENABLED US TO PERFECT AND PATENT A UNIQUE ASSEMBLY METHOD.

Today this patent means that we can design and develop trailers that are more solid, more lightweight and with outstanding road-holding capacities !

EQUIPMENT

Right from the basic versions, our trailers are equipped to guarantee the best comfort and safety conditions.

VENTILATION

Never too hot or too cold, simply well-ventilated, our trailers are equipped with air-circulation accessories for your horses' maximum comfort during transport.

THE LOOK

Cheval Liberté trailers have an aerodynamic, modern, flowing design. The aerodynamics contribute to a significant reduction in towing vehicle fuel consumption.

Taken by a particular colour or want to match it with your car ? Choose your favourite colour option from black, light grey, red, white and charcoal grey...

CONSTRUCTION

MATERIALS

We use materials that are reputed for their technical qualities

▶ 18 mm anodized aluminium for the sides

▶ Reinforced fiberglass

▶ Hot-dipped galvanised steel

▶ Vulcanised rubber

DIAGONAL LOADING

■ Telescopic adjustable partitions, opening both way to welcome the horses, secure them with very easy and safe locking. Partitions are fitted on a sliding rail, to adjust the right space for every horse.

■ Loading with rear ramp or very low step when used with double doors (optional).

■ Comfortable unloading thanks to the large front ramp. The trailers are wide enough to also enable horses to half turn.

■ Complete equipment for the horses wellness including many windows and openings for an optimal ventilation, and a large saddle room for all you material.
