- **Psychic Mediumship**
- **Aura Readings**
- **Star Family Communication**
- **Clairvoyance**
- **Remote Viewing**
- **Precognition**
- **Telepathy & Channeling**

Christina Duffy, LMFT, Psychic Medium & Clairvoyant

At the age of eight, a near-death experience transformed my life. I connected with God and received a simple, profound recipe for living: love, be loved, just be, and experience life. This NDE awakened my psychic abilities, allowing me to communicate with animals and insects, see energy, spirits, auras, and orbs, and perceive the world with a psychedelic vision. My telepathic abilities led to unique and magical interactions, such as being accepted by a pack of wild wolves and taming wild birds.

At 17, I began my professional journey at the Berkeley Psychic Institute. For the past 38 years, I have passionately refined my psionic skills. My studies at the University of Conscious Evolution further honed my remote viewing abilities, where I was honored as the top remote viewer and channeler.

I approach my work with professionalism and integrity, creating a safe and supportive space for exploration and healing. I always ask for permission before using my psionics with a person, respecting their boundaries and needs. For more information about me, please visit duffychristina.com.

I look forward to connecting with you!

With love,
Christina
