Automate Lifecycle Management

An accurate IT asset inventory is just the beginning.

→ Audits and compliance

→ Risk Management

→ Finance Management

→ IT Governance

Key features at a glance

- ✓ **Discovery** – Use our proprietary Agent to report on your online assets, extract data from your existing applications, applications — such as Intune, JAMF, Google, and AWS — use Network Discovery, or import manually via CSV.
- ✓ **Integrations** – Connect with 20+ tools, from Service Management, such as InvGate Service Management, to tools for user provisioning, remote desktop, user authentication, cloud services, Device Management, hypervisors, contracts, and warranties.
- ✓ **Smart Tags** – Adapt inventory for any purpose with custom tags and condition-based smart tags to manage assets according to health status, warranty, or usage.
- ✓ **Automations** – Set up alerts, policy triggers, and routine processes to reduce manual intervention. Reduce time and schedule reports to automate reporting.

Other features – Remote desktop integrations, software deployment, software metering, automatic depreciation with rules, Contract and License Management.

Simplify Asset Management with InvGate

Automated asset discovery

Track and manage every stage of your assets' lifecycle - from acquisition to retirement - with smart automation and instant insights through Smart Search.

Unify your asset inventory

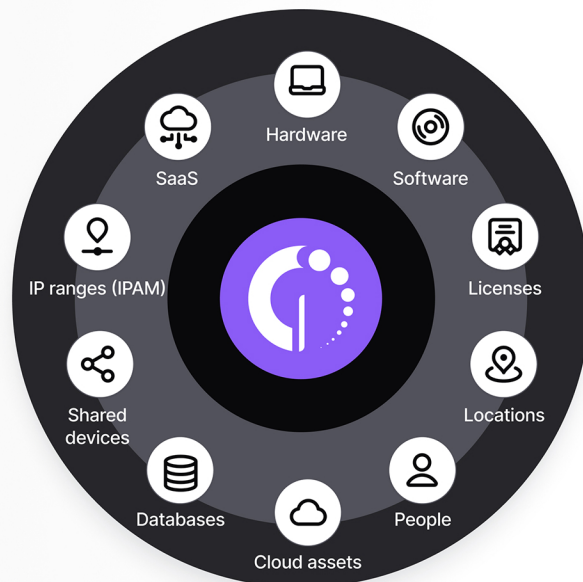

Easily maintain an organized and up-to-date view of all assets across your environment. Smart Search allows you to locate assets by user, location, or status within seconds.

Optimize IT spend

Gain financial clarity and control with automated depreciation and budget insights that support strategic cost optimization.

Integrate with Service Management

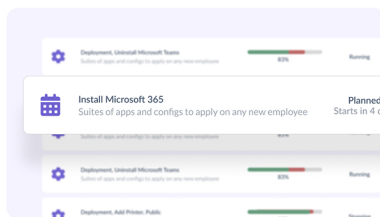

Leverage native integrations with InvGate Service Management and other Service Management tools for a unified experience across asset and ticketing workflows.

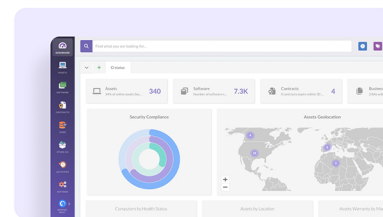

Know your assets: Discover, manage, and report with InvGate

Understand your inventory with CMDB

Manage licenses and policy compliance with deployment

Report daily and optimize reports with custom dashboards

"Your implementation team was awesome to work with. You did a great job of showing us around the product and implementing it. I really appreciate InvGate and their attentiveness and helpfulness." - Clearview Federal Union
