WECANCU

A RELIABLE OFF GRID VIDEO & AUDIO SITE SECURITY SOLUTION

SOLAR CCTV INTRUDER DETECTION SYSTEM

After years of trial and error with 'off the shelf' products, WeCanCU have developed a reliable, powerful but flexible electronic security solution based on a global Viewing platform with video integration for Sites, Farms, Building and remote locations.

The Solar WeCanCU Surveillance CCTV Intruder Detection System works by detecting motion in a protected area and triggering a siren/ strobe. The alarm is transmitted instantly by 4G to our control room who will action the situation in accordance to the requirements of your site.

The control room and approved personnel can also control the site by connecting to the security system.

In addition, an option is also available to Listen into the Audio & Video playback or download footage required.

BENEFITS:

- Solar Powered system, no hardwiring required
- High-definition infrared camera for high quality images day and night.
- Virtual lines deliver clear images of alarm activation activity
- Audible siren and strobe light to assist deterring offenders from site
- View your jobsites LIVE 24/7 via Smart Device and Desktop
- Excellent site management tool
- Full operation of multiple sites via Smart App arm/disarm the system, zone control, outputs on/off, view cameras & allow multiple users.
- Programmable automatic arming and disarming.
- Intelligent charging control via solar panel ensures minimum one week of power supply
- Embedded web browser
- High security encrypted communications
- Remote programming and system updates
- Real time back to base monitoring and support via our 24/7 control centre*
- Rapid security response to site for verified alarm activations - available upon request*
- Flexible system installations to meet any specific site requirements
- Flexible hire options to suite your needs
