

The Wasilla 2045 Comprehensive Plan!

The Wasilla Comprehensive Plan is getting an update, and we want to hear from **YOU!**

Did you know the City of Wasilla has a Comprehensive Plan that guides the long-term growth and development? Plans like this are essential to communities like Wasilla that are seeing growth in population and the economy, especially as the state's fastest growing region. The comprehensive plan provides a strategic framework for decision-making, helping communities anticipate and address challenges before they become problems.

Join us at an **Open House** this **Summer 2025**, and in the meantime visit our website here: **wasilla2025.com**

Here's why comprehensive planning is key:

1 Managing Growth

Comprehensive planning ensures that growth in Wasilla is orderly & sustainable, & in-line with what current residents and business owners desire.

2 Infrastructure That Keeps Up

The rapid growth & development within Wasilla puts increased demand on an aging infrastructure system. A comprehensive plan identifies current & future needs, helping to prioritize investments that accommodate growth without overburdening existing systems.

3 Economic Vitality

Planning helps create a resilient & adaptable local economy by identifying opportunities for new industries, businesses, & jobs. Wasilla is open for business, so let's plan for it!

4 Access to Recreation

Comprehensive planning helps balance development with the preservation of natural resources and green spaces, addressing issues like climate change, waste management, & environmental conservation. Sustainable planning can improve the long-term livability of Wasilla now & into the future.

5 Accessibility and Representation

A well-designed comprehensive plan ensures that all community members benefit from growth & development. This can reduce inequality & create a more cohesive, thriving community.

6 Community Driven Vision

Add your voice to reflect the goals, values and priorities for Wasilla - so growth aligns with what the community and not just what happens.
