

CENTRAL CARROLLTON ASSOCIATION

2/25/24

## ***SPRING TREE PLANTING***

The **Central Carrollton Association** (CCANewOrleans.org) is working with Connie Uddo "NOLA Tree Project" to rebuild the tree canopy of our neighborhood.

We can improve our neighborhood by adding shade trees to our homes, keeping our streets cool and green. This **Spring** we hope to provide trees to any neighbors within the CCA - with a planting in **early April** (TBA). A group of CCA neighbors will assist with the plantings. The City has provided funding through a grant to CCA to purchase the trees.

Please join us in this exciting effort. To date, we have planted over 500 trees in our neighborhood.

Trees can be planted on your private property or city property in front or beside your home. We only need a few things from you if you would like a tree for your home:

- 1) Your agreement to keep the tree(s) well watered for the first year.**
- 2) We are focusing our plantings between sidewalk and street, since CCA is sponsoring the planting we will not need additional approval from Dept. of P&P.**

Please fill in the information on the back of this form, including the diagram indicating where you want the tree(s). Also, list your first three (3) choices of tree you would like planted. Number your priority choices.

"NOLA Tree Project" will provide 5 gal. trees to the CCA. Larger trees (15 gal) are available by special order. Send or drop off forms to the address below. The Central Carrollton Association tree committee asks for volunteers to help with the planting this **Spring**. If you are interested in helping with the plantings, please call 504-861-8465.

Check out Connie's website ([www.nolatreeproject.org](http://www.nolatreeproject.org)) to see what she is doing. Please help to support her effort.

**Let's make Carrollton Green again !**

Please return this form, by **March 15th** to:

Barry Kohl  
CCA Tree committee  
1522 Lowerline St.  
New Orleans, LA 70118  
504-861-8465  
[bkohl40@cs.com](mailto:bkohl40@cs.com)

We will contact you before the planting in **April**

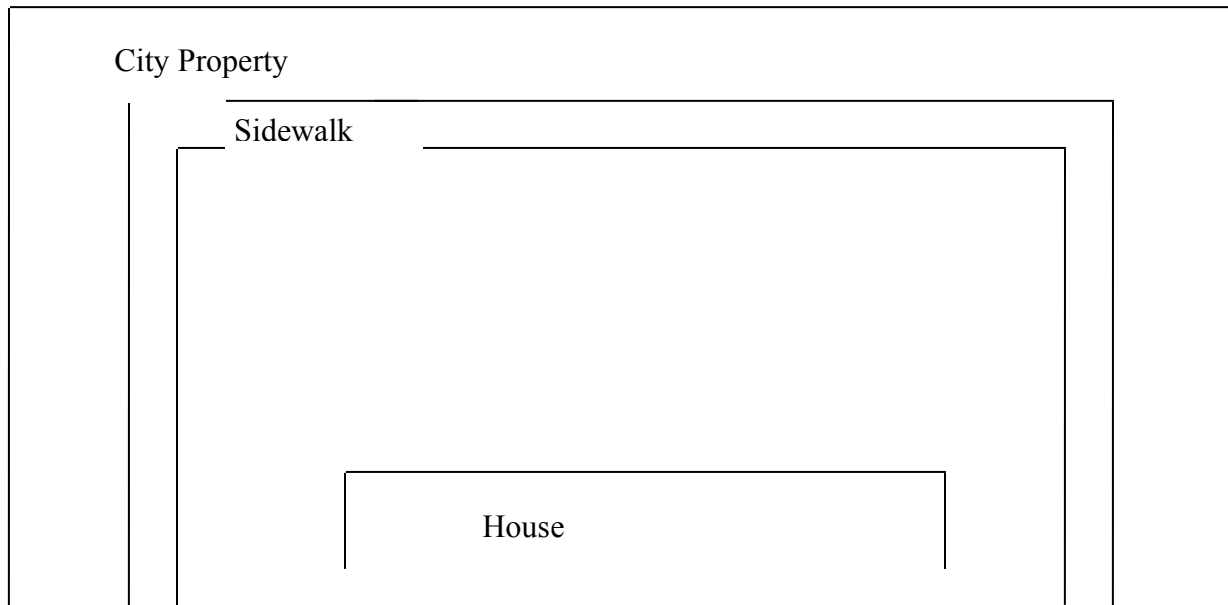

**Choose your trees:** Place a 1 by the tree you most want planted, 2 for the next choice and 3 for your third choice.

- |                                      |                                             |                                         |
|--------------------------------------|---------------------------------------------|-----------------------------------------|
| <input type="checkbox"/> Live Oak    | <input type="checkbox"/> Bald Cypress       | <input type="checkbox"/> Crepe Myrtle   |
| <input type="checkbox"/> Pecan       | <input type="checkbox"/> Southern Magnolia. | <input type="checkbox"/> Savannah Holly |
| <input type="checkbox"/> Nuttall Oak | <input type="checkbox"/> Sweet Bay Magnolia |                                         |

If you have power lines (not cable or phone) above your planting site, choose a tree which has limited height such as Japanese Magnolia or Sweet Bay Magnolia. Live oak can be planted, since they can be pruned without damaging the tree shape.

**Planting Diagram:** Mark location(s) where you are requesting a tree to be planted and identify the tree.
