## Accessibility Made Beautiful

Ascension Wheelchair Lifts are designed to deliver safe, reliable access without compromising the character of your space. **Our ADA-compliant solutions integrate seamlessly into commercial and public environments.**

With pitless, rampless, and towerless configurations, flush entrances, color options and customizing available, Ascension lifts provide equitable access with a clean, intentional design.

### Clarity® Model - Visually Striking Wheelchair Lift for Narrow Spaces

The **Ascension Clarity®** enclosed wheelchair lift is an excellent solution for spaces where maximizing room, maintaining a clean aesthetic, and ensuring exceptional quality are priorities. Designed to reach up to 14 feet, the Clarity® requires only 4 feet of clearance for installation directly on your existing floor. **Its compact footprint and ultra-thin platform floor mean there is no need for an access ramp or installation pit.**
