

Meet Your Neighbors!

While we enjoy big lots here in Arden Oaks, sometimes all that space makes it hard to meet people. As a new neighbor, we suggest that you reach out to your immediate neighbors to introduce yourself and your family. Whether it's to the next door neighbors or the neighbors across the street or around the corner or all of them, you may be surprised at how happy your neighbors will be to get to know you and to share similar information about themselves with you. Not only may you find new friends and potential baby or pet sitters, but getting to know your neighbors will help the security of your property, your neighbor's property, and the overall neighborhood.

Here is some suggested information you might share with your neighbors.

New Neighbor Information

Name(s): _____
