

# #ALLINCHALLENGE

## Frequently Asked Questions

### **What is the timeline?**

Our timeline is merely based on the funds we can raise. All projections can be completed within 200 days but with limited funds we may have to stretch that out to a longer time frame.

### **What are the priorities of the project?**

Our priority is to ensure that we get everything that is needed in order to have all the proper safety precautions in place.

### **How will we use the things we're investing in to reach people?**

The main thing to understand is that for our doors to remain open these are necessary steps that must be taken. We are not investing in projects merely for a new look or new facility. These are all the steps needed not based on the wants in the church.

### **Shouldn't we focus our energy and resources for missions?**

Cypress Fellowship has always given to our missions and we will continue to serve the community locally as well as globally. We currently support several missionaries on a monthly basis, and we plan to continue this work as God allows.

### **How will the projects improve safety and security?**

We'll be increasing our water pressure, working on sprinkler system, fire alarm system along with widening our entrance that will allow our fire trucks a safe entrance if ever needed.

### **What if we don't raise enough money?**

We will not put ourselves in a financial bind in order to complete the projects. If we fall short, we will merely continue to work at a slower pace. We do not ever want to be enslaved to debt.
