## PLASTIC LAMINATE TOILET PARTITIONS

Limitless flexibility at a low initial cost. With virtually any color, pattern, or wood grain available, Plastic Laminate elevates any room to its fullest designer potential while remaining reasonably priced.

## Benefits:

- Low maintenance and fast lead times
- Thousands of colors and patterns available
- Ideal for industrial facilities, offices, public transit stations, and restaurants

## SOLID PHENOLIC TOILET PARTITIONS

The exceptional strength and impact resistance of Solid Phenolic ensures it will hold up to the toughest of environments. Now available in black core, Solicore, and Colorcore materials.

## Benefits:

- Resistant to wet and humid environments
- 25 year warranty
- Perfect for showers, pools, locker rooms, schools, and saunas

## SOLID PLASTIC TOILET PARTITIONS

HDPE is made from recycled materials and is itself also 100% recyclable. It naturally resists mold, mildew, fungus, and bacteria, making for a safer and healthier environment inside your facility.

## Benefits:

- Will not rust or delaminate, power washable, and steam cleanable
- Available in NFPA 286 fire rated material
- Ideal for schools, parks, gyms, hospitals, sports arenas, and airports

## EUROPEAN STYLE

Simplicity and elegance are the definition of the European Style. Satisfy your vision with an unrivaled architectural statement while retaining maximum privacy and functionality.

## Benefits:

- Maximum privacy options come as standard
- Limited visible hardware
- Essential at luxury suites, VIP lounges, and executive offices

## LOUVER DOORS

A small detail can make big things happen. While a classic partitions serves it's purpose, it does not have the same flare and eye appeal of a Louver door.

# MOLDING DOORS

Door moldings make all the difference between a plain, bland room and a classy work of art. It is an easy way to add depth, personality, and balance to any room.
