Dan
RUBY
for Congress

Hi, I'm **Dan Ruby**. I understand that many families are struggling to make ends meet. We lack **affordable housing**, access to **mental health & substance abuse care**, and future-ready **K-12 and career education**.

I have **decades of experience working together**, putting people and projects first *without politics* to get things done: **I know what it takes for us to thrive**.

I'm ready to work for **clean water for all**, to **fight climate change** that causes **devastating wildfires** in our communities, and to **protect our natural resources** and wildlife responsibly.

I believe in **women's rights** to reproductive freedom and bodily autonomy: I will fiercely advocate for our **health and privacy**.

I care about each and every Oregonian: our seniors, students, veterans, workers, immigrants, minorities, people with disabilities, and LGBTQ+ folk. I will defend our rights and secure better supports for us all.

Vote for **true progress** in November:
Dan Ruby for US House of Representatives
