

# WELCOME TO THE NET GENERATION PLAYTRACKER

On January 1, 2021, USTA Youth Progression will be transitioning to USTA.com within your profile, and with that comes an exciting new look.

The new Net Generation PlayTracker will help parents and players navigate their development progress, replacing the current stars and trophies system. Now, players will collect play and win points after playing in USTA Team Challenges, USTA Junior Team Tennis and USTA Junior Circuit events.

The Net Generation PlayTracker is for players aged 5-11 and their parents to track progress at USTA competitive events, all in one place. Using the USTA's American Development Model (ADM) framework, players and parents will learn more about the recommended development pathway while earning digital accolades for their achievements along their tennis journey.

## BENEFITS OF THE NEW SYSTEM

- **More control and flexibility for parents and coaches**
- **More USTA program options, designed to suit players' age and skill level**
- **Clean and focused profiles to visualize a player's journey**
- **Earned advancement**
- **More consistency no matter where a player lives, allowing players to travel or move to a new Section with ease**
- **Players can earn points for both playing and winning**

## FOR CURRENT YOUTH PROGRESSION PLAYERS

Players will be grandfathered into the new system starting on January 1, 2021, based on their star and trophy totals on December 16, 2020. Those stars and trophies will be converted into Net Generation PlayTracker play and win points.
