## Georgia Pediatric Program (GAPP)

This program was created to aid  
parents with the assistance of their  
child's everyday living needs i.e.  
Feeding assistance, Bathing,  
Incontinence care, Transfer assistance,  
Grooming, Getting dressed, G-Tube  
care, Medication administration, etc..  
This care will be provided by one of our  
licensed professionals.

The In-Home Skilled Nursing Program is  
designed to serve eligible members  
based on a medical necessity  
determination for children under the  
age of 20 years 11 months.

Families who do not have Medicaid but  
has private insurance can qualify for  
the Katie Beckett Waiver which  
removes family income from the  
equation. Families are approved based  
on the child's need and not the families  
income.

# GAPP Program Description

\*\*\*NO WAIT LIST\*\*\*

The Georgia Pediatric Program is a Medicaid program that provides services to medically fragile children who are in need of skilled and unskilled services.

Intake and evaluation for GAPP typically takes up to 30 days for service approval.

You as the parent will be involved with the development of your child's service plan of treatment along with any service goals.

## Why us?

Our company is dedicated to bringing you quality service as quickly as possible so that your child can begin receiving care immediately without the wait! We listen, We care and we HELP!

## Pediatric Services Available

We offer a wide variety of home health care services including but not limited to personal care/ hygiene, mobility assistance, recuperative care, wound care, catheter care, G-Tube care, visiting nurses, medication administration, respiratory treatment etc.. for children or young adults in need of in home care.

If your child is in need of these services please call us so that we can ensure that they receive the assistance that's needed.
