Delilah is a young, sweet cat who was lost when a blue Honda HRV was stolen from Booth & Chambers in north Milwaukee on 11/21/24 with her in a travel carrier. The Honda was found on the 2900 block of N 28th St at Locust & Chambers on Thanksgiving, but Delilah wasn't inside. She's still missing, and we are heartbroken. Delilah has extra toes on her front paws: 6 on one paw and 7 on the other. These special toes require regular vet care.

If you've seen, found, bought, sold, dumped, have, or been given her, please contact us. We understand, and will work with you to bring Delilah home. If you've grown attached, we'll help you find a new animal to love and provide everything you need to care for them. Those who know what happened to her and have other info to help us - there is reward money also available.

We're offering a reward* for Delilah's safe recovery, return or for any info that helps us recover her. She is deeply loved and missed so much by her family.
