August 8th 2021

Glebe Rugby League club would like to thank Gordon Sports for the use of their Edge Sports balls. The Glebe Ron Massey cup team (Mens open age) used these balls during training and game day warm-ups.

The balls were great when used in passing drills both off the ground and standing. The unique weighted ball meant the players had to really concentrate on their technique to get the desired spiral on the football. When a ball was passed incorrectly you could visually see the effect of a poor pass. With continued practice I saw an improvement in my players passing skills from not just the ball players (hooker/halves) but from our ball playing forwards which is vital in the modern game.

The Edge Sports balls were also used during kicking drills to help improve hand / eye co-ordination with our fullback and wingers. The weighted ball proved difficult to catch as they had increased movement while in the air. This again helped our players develop their skill set and was used regularly.

Thanks again for the use of these balls. They were very helpful and I recommend them to other rugby league clubs at both junior and senior level who are looking to improve their players passing and catching skills.

Nyke Aaron Zammit
Glebe Dirty Reds
Ron Massey Cup Coach.
