

# MIKEAL ANTHONY GRETO

## SINGER/ SONGWRITER/RECORDING ARTIST

Mikeal Anthony Greto is a multi-instrumentalist who started his journey as a songwriter by the age of fourteen. After spending most of his musical career writing and performing in bands that collectively produced more than 8 albums worth of material, Greto's solo work is further pushing the boundaries of his craft. After losing his son in 2017, Mike is embracing songwriting at the most vulnerable time of his life.

His solo debut released in 2022, "Blue Roots (Vol. I)" was a cathartic journey of love and loss, creating a soft soundscape of cellos, mandolins and acoustic guitars that pull at the heartstrings of it's listeners. With his latest release, "In Florescence (Vol. II)", Greto is moving towards happiness and songs that carve a path to joy for him and undoubtedly the listener. Ripe with rhythm and redemption, these new songs will lift your spirits while reminding of the fragility of life.
