

June 2023

AMG UK Group 2006 Pension Plan (the 'Plan')

Dear

Change of pensions administrator

I'm writing to let you know that Aon has been appointed as pensions administrator for the Plan with effect from 30 May 2023.

The Plan was administered by Mercer and the Payroll administered in-house by AMG and bringing both these services to Aon will bring efficiency to the service for members. Aon is one of the top UK pension plan administrators.

If you've been in touch with the AMG administration team and your query hasn't been dealt with by 30 May 2023, it will be passed to us, and we will get back to you. If you need to get in touch with us, you'll find our contact details, as well as your Plan member reference number, on the right.

We'll work with the Trustee to try to make sure that there's minimal disruption to the Plan's pensions administration services during the transition. Please refer to this letter for the relevant contact details and phone number, should you have any queries after the transition.

If you are currently receiving a pension from the Plan, your pension will continue to be paid into your account each month. The first pension instalment paid by Aon will be the instalment paid on 15 June 2023. You will receive a payslip in May, and thereafter, only if your monthly pension changes by £10 net or more. We will also provide you with your P60.

Please also find enclosed your Summary Funding Statement attached to this letter.
