

Dear Kids' Zone Family,

We have some big news! Private School has officially begun planning for a new elementary school campus - Kids' Zone Christian Academy!

The building process will progress over the next few years in steps beginning with the construction of a multi-purpose building that will include a gym and a cafeteria. In addition, we will open the 2023-2024 School Year at our new location, located off of County Road 307.

Next year's growth also includes expanding our elementary program to 4th grade! By the 2024-2025 School Year we plan to offer junior kindergarten through 5th grade. We are overjoyed that we will now be able to provide your children with a permanent school home throughout their elementary years!

As we continue to meet with architects and building professionals we will keep you updated on what next year will look like. Please know that safety will be at the forefront of all future plans and building designs!

We feel so incredibly blessed with this opportunity which allows us to accommodate our growing student population and to further serve the families who have "grown up" with us over the years. What an honor it has been watching our program grow from a one classroom kindergarten to the multi-grade school we are today. Thank you for entrusting your precious children to us!

Blessings,
Ashley Sigafos
