

How much will my repair or service cost?

Part of our commitment to integrity is the promise to only provide the most accurate information possible. This particularly includes work estimates. Plumb Perfect provides on our website a partial list of labor-only estimates for routine repairs. Because of the very wide range of cost for fixtures, those costs are not included. For larger jobs, Plum Perfect will provide a detailed, written estimate after we have had a chance to inspect the issue, determine the cause and develop a solution.

How soon can you come out?

Plum Perfect, Inc. is available 24/7 for emergency situations. For non-emergency repairs, we will work with your schedule to provide a response as soon as possible. If it is a smaller repair, please see our website for a labor only estimate and link to schedule.

Is there an easier way?

Yes, for certain salutations. If the service requested is relatively minor, such as a fixture replacement, and if the client is willing and able to provide a photograph, we can sometimes provide a more precise estimate. We are looking for things that would complicate a basic service, i.e. seriously corroded fittings in an otherwise simple faucet replacement.

Is Plum Perfect licensed?

Yes, Plumb Perfect is fully licensed, insured and bonded. Your protection is very important to us.

Is your work guaranteed?

Yes,
