OBJECTIVE

I am ready and able to assist captains, owners and management firms by providing temporary captain services on vessels in the Atlantic Region. I also am happy to serve as OOW for transits and deliveries.

USCG 1600 GRT MASTER - 3000 GT MASTER (ITC) - OCEANS

Raised by a Bermuda maritime family, I have served as captain for more than twenty years. I sailed competitively throughout my teens. Summer jobs included laboring in boatyards, teaching sailing and boat-handling to children, and working aboard charter vessels. In university I focused my attention on the helm, earning my first license and captain role at nineteen. At twenty-two I founded a charter business which grew in success over more than a decade of ownership. I performed all forms of maintenance on the vessels, which I feel grants an advantage over many younger yacht captains, where engineering seems to be a lost skillset. I have successfully operated a range of yachts, including dozens of term charters and thousands of day charters, with zero incidents, claims or terminations. I also have managed numerous complex maintenance and refit projects in various shipyards.

**Charter Bermuda, BVI Tour Center, Dove Restaurant,
Rising Son & Rebel Yell Catamaran, Rum Monkey S/F**

Managing Director | 2002 - 2016

Created a few maritime & tourism start-ups, as well as acquiring a French restaurant throughout fourteen years of entrepreneurship. Originally based in Bermuda with expansion to the BVI. I have owned several vessels under 65ft with a combined lift of 500 guests per day. Employed as many as 25 full and part time staff, managing all aspects of the successful companies up till their respective sales. I often would take temporary contracts operating yachts, while still overseeing my operations. My greatest success story comes through my previous employees who purchased parts of my small businesses, including two of my catamarans that still hold top slots on TripAdvisor.
