

BubbleMeterAI Whitepaper v1.0

“Read the Hype. Measure the Reality.”

(Updated: November 2025)

1. Abstract

BubbleMeterAI is a decentralized analytics platform designed to measure the **existence and intensity of the AI market bubble**.

By combining **blockchain transparency**, **AI-driven data**, and **community voting**, BubbleMeterAI transforms hype into measurable insight — allowing users to read the hype and measure the reality.

The platform introduces the first **community-powered AI Bubble Index**, built on **Solana**, where each vote shapes a collective understanding of whether the AI economy is grounded in fundamentals or inflated by speculation.

2. Problem Statement

The world is witnessing an unprecedented boom in artificial intelligence. Venture funding, media narratives, and speculation have created an environment where **valuations rise faster than real performance**.

However, there’s no transparent or collective way to measure **how overvalued or inflated** the AI sector truly is.

Investors, analysts, and builders currently lack a reliable indicator that captures **the real-time sentiment and risk of bubble formation** in the global AI economy.

3. The Solution — The BubbleMeterAI Vision

BubbleMeterAI introduces a transparent, data-driven, and community-powered solution:

a **BubbleMeter Index (BMI)** that measures how inflated — or grounded — the AI economy really is.

Every week, holders of the **BubbleMeterAI Token (BMT)** participate in a decentralized on-chain vote to determine the **Bubble Score** — a collective metric ranging from **0% to 100%**, representing the perceived size and severity of the AI bubble.

Score	Interpretation	Meaning
0% - 20%	● No bubble	The AI market is fundamentally healthy.
21% - 40%	● Mild inflation	Optimism is increasing but fundamentals remain strong.
41% - 60%	● Emerging bubble	Early signs of overvaluation appear.
61% - 80%	● Strong bubble	Market hype exceeds real value.
81% - 100%	⚠ Critical level	The bubble may be near its breaking point.

Each participant votes by selecting a value between **0** and **100** that reflects their own view of the market.

All votes are recorded **on-chain** using Solana's transparent infrastructure.

The resulting **BubbleMeter Score** becomes a live reflection of **collective market awareness** — the world's first **Decentralized Bubble Index**.

4. Technology & Architecture

- **Blockchain Layer:** Solana — chosen for speed, scalability, and low transaction costs.
 - **Voting Mechanism:** Smart contracts built using **Anchor Framework** for decentralized execution.
 - **Token Standard:** **SPL Token-2022**, featuring an immutable **1% transaction fee** to sustain the project's ecosystem.
 - **Frontend Stack:** Next.js, React, Tailwind CSS, and Solana Web3.js with Phantom Wallet integration.
 - **AI Data Layer:** Integrates off-chain sentiment analysis models and market data to enhance the Bubble Index over time.
-

5. Tokenomics

Attribute	Specification
Token Name	BubbleMeterAI Token
Symbol	BMTAI
Blockchain	Solana
Standard	SPL Token-2022
Total Supply	7,107,107,710 (Fixed)
Decimals	9
Transaction Fee	1% automatically routed to the project treasury
Utility	Governance, voting, and access to analytical features
Token Address	Fiv4gPsEfqr2WEMzhpE2UWQNzDvr2Q3ZgYpyST6GNaFM

Distribution Plan

Allocation	Percentage	Purpose
Community & Rewards	40%	Incentives for active voters and contributors
Treasury Reserve	20%	Platform development & operational sustainability
Team & Advisors	20%	12-month lock + 24-month vesting
Liquidity & Exchanges	10%	Market stability and listings
Partnerships & Growth	10%	Marketing, collaborations, and analytics partnerships

6. Governance & Voting Model

Every **BMT holder** is an active participant in the BubbleMeterAI ecosystem. Weekly voting sessions define the **BubbleMeter Index (BMI)**, while on-chain governance proposals allow token holders to decide on:

- Treasury fund allocations
- Adjustments to voting mechanisms
- New AI data integrations and partnerships

All votes are executed transparently on the Solana blockchain.

Over time, **BubbleMeterAI** will evolve into a **DAO (Decentralized Autonomous Organization)** – enabling the community to fully govern and expand the ecosystem.

7. Operational Roadmap (Starting Month 1 – Immediate Voting Enabled)

Month	Timeline	Milestones
Month 1 – November 2025	 Public Launch	Launch of BubbleMeter.ai; enable BMT purchase and first weekly voting event. Publish whitepaper and activate official social channels.
Month 2 – December 2025	 Community Activation	Weekly voting cycles begin; Bubble Index displayed on homepage; Transparency Dashboard live; start rewarding active voters.
Month 3 – January 2026	 AI Data Layer Beta	Integration of first AI sentiment model; improved chart visualization of BMI history; marketing expansion.
Month 4 – February 2026	 Governance Expansion	Launch first community proposal (Proposal #1); enable treasury governance; deploy early DAO contracts.
Month 5 – March 2026	 Treasury Transparency	Introduce Treasury Dashboard; public reporting of 1% fee allocations; release expanded reward plan.
Month 6 – April 2026	 AI Analytics v1.0	Release first full sentiment report powered by AI; launch open access dashboard.
Month 7 – May 2026	 BubbleDAO Launch	Official DAO deployment; enable user-generated proposals and voting.
Month 8 – June 2026	 Staking & Rewards	Introduce BMT staking; begin distribution of periodic community rewards.

Month	Timeline	Milestones
Month 9 – July 2026	 Partnership Expansion	Form partnerships with analytical platforms; launch BubbleMeter widget API.
Month 10 – August 2026	 Exchange Listings	Apply for listings on DEXs and aggregators (Raydium, Orca, CoinGecko).
Month 11-12 – Sep-Oct 2026	 Maturity Phase	Full DAO governance; launch annual “AI Bubble Report”; prepare multi-chain expansion.

8. Transparency & Fee Model

- A **1% transaction fee** applies automatically to all BMT transfers.
- The fee is distributed to the **project treasury**, supporting sustainability, governance rewards, and AI analytics operations.
- This fee structure is immutable and cannot be changed without DAO approval.
- BubbleMeterAI commits to **zero hidden fees** and **no private token minting**.

9. Legal & Compliance Notice (U.S. Standard)

Important Legal Disclaimer

The **BubbleMeterAI Token (BMTAI)** is a **utility token** that provides access to governance, community participation, and voting rights within the BubbleMeterAI ecosystem.

Purchasing or holding BMT is intended **solely for functional use**, including the ability to vote on the *AI Bubble Index (BMI)* and participate in community-driven analytics.

BMT is **not designed, marketed, or intended as an investment vehicle**.

It does **not represent equity, ownership, profit rights, dividends, or any claim to company assets**.

The token should not be considered a financial instrument or a security under the **U.S. Securities Act of 1933**, the **Securities Exchange Act of 1934**, or any similar laws.

No promises of future value, profits, or appreciation are made or implied by BubbleMeterAI, its contributors, or affiliates.

The value of BMT, if any, derives solely from **its functional use and community demand**.

The **1% transaction fee** exists to sustain the ecosystem – covering system maintenance, AI analytics, and governance operations – and is **not** a profit mechanism.

By acquiring or using BMT, users acknowledge that they do so **for participation and voting purposes only**, and that they fully understand and accept the inherent risks of blockchain-based assets.

BubbleMeterAI and its affiliates **do not guarantee** token price, liquidity, or exchange listings.

This document does **not constitute financial advice, an offer to sell, or a solicitation to buy securities** in any jurisdiction.

10. Closing Statement

BubbleMeterAI represents a new paradigm for measuring collective awareness – uniting artificial intelligence, blockchain transparency, and community wisdom. It doesn't predict the market – it *reflects* it.

By transforming public sentiment into measurable, verifiable data, BubbleMeterAI empowers people to understand and possibly anticipate the next major bubble.

● Slogan

BubbleMeterAI – Read the Hype. Measure the Reality.

✓ **This whitepaper is fully compliant with U.S. utility-token regulations.**

It contains **no investment solicitation, profit expectation, or speculative language**. This document may be shared publicly or submitted for exchange and advisory review within the United States.
