

**AUTEL MAXI HVAC**

# A/C ISN'T JUST ABOUT COMFORT ANYMORE

## ADVANCED HVAC & THERMAL MANAGEMENT TRAINING

**FRIDAY, OCTOBER 30, 2026**

**8:00 AM – 6:00 PM**

*Continental breakfast, snacks, and lunch included*

**HILTON GARDEN INN ROSLYN**

**3 Harbor Park Drive | Port Washington, NY 11050**

*Need to stay the night? A discounted group rate is available.  
Use the group code "Autel" when booking.*

### NOT JUST CABIN COMFORT—CRITICAL VEHICLE SYSTEMS.

For decades, automotive HVAC, heating, A/C and climate control service has primarily been about keeping occupants comfortable in the cabin.

In hybrids, EVs and an increasing number of ICE vehicles, HVAC has evolved into an interconnected thermal-management system supporting batteries, electronics and other critical systems throughout the vehicle.

When proper heating and cooling are compromised, vehicle performance and operation can be too—potentially leaving your customer and their vehicle stranded.

*Start transitioning your A/C service to a modern HVAC workflow.*

### A NEW APPROACH: COMMERCIAL HVAC TESTING MEETS ADVANCED AUTOMOTIVE DIAGNOSTICS

Join us for a full day of advanced HVAC and thermal-management training with the **Autel MaxiHVAC AC909D**. Combine vehicle data with A/C system measurements to diagnose faster, reduce guesswork, and build the skills needed to service today's evolving HVAC and thermal-management systems.

### TRAINING WILL COVER:

- Advanced HVAC diagnostic strategies using OBD data and physical system measurements
- Pressure, temperature and humidity analysis
- Compressor, condenser, evaporator and metering-device diagnostics
- Electronically controlled A/C systems and components
- ICE, hybrid and EV thermal-management, including heat-pump systems
- Efficient, guided diagnostic workflows using the Autel MaxiHVAC AC909
- New refrigerant leak detection techniques

**FULL-DAY TRAINING | \$249 PER TICKET**

*Seating Is Limited. Reserve Your Ticket Today.*

to reserve your seat.

### MEET YOUR TRAINERS:

**GARY DELUCA | AUTEL U.S. FOUNDER**

With more than 50 years of experience in automotive training and repair, spanning automotive diagnostics, A/C and commercial HVAC, Gary founded Autel U.S. & has been a driving force in advancing automotive diagnostic technology, transforming real-world service challenges into practical solutions for today's technicians.

**GARY MACHIROS | OWNER OF APPLIED AUTOMOTIVE TECHNOLOGY**

With more than 40 years of experience in automotive repair, diagnostics and shop ownership, Gary has spent decades training technicians in advanced automotive technologies. An ASE Master Technician, instructor and industry consultant, he combines real-world repair experience with expertise in diagnostics, ADAS, A/C and HVAC.
