

TON BLOCKCHAIN ECOSYSTEM FUND

Alternative Markets Management

ABOUT AMM FUND

MISSION

To provide strategic and financial support to projects on TON - a revolutionary blockchain platform that uses the knowledge and experience of Telegram, one of the most popular messaging applications in the world.

VISION

To foster a strong and active community of TON investors and developers who share our vision of building a more open, fair and efficient digital economy.

OUR APPROACH

Smart Money

Providing not only financial support, but also strategic guidance, mentorship, and network access to the startups that we invest in. We help them overcome the challenges and seize the opportunities in the blockchain industry, especially on the TON platform.

Data-Driven Acceleration

We use our expertise and resources to conduct market analysis, and data-driven and research-based methods to accelerate the development and growth of the TON-based projects and its community.

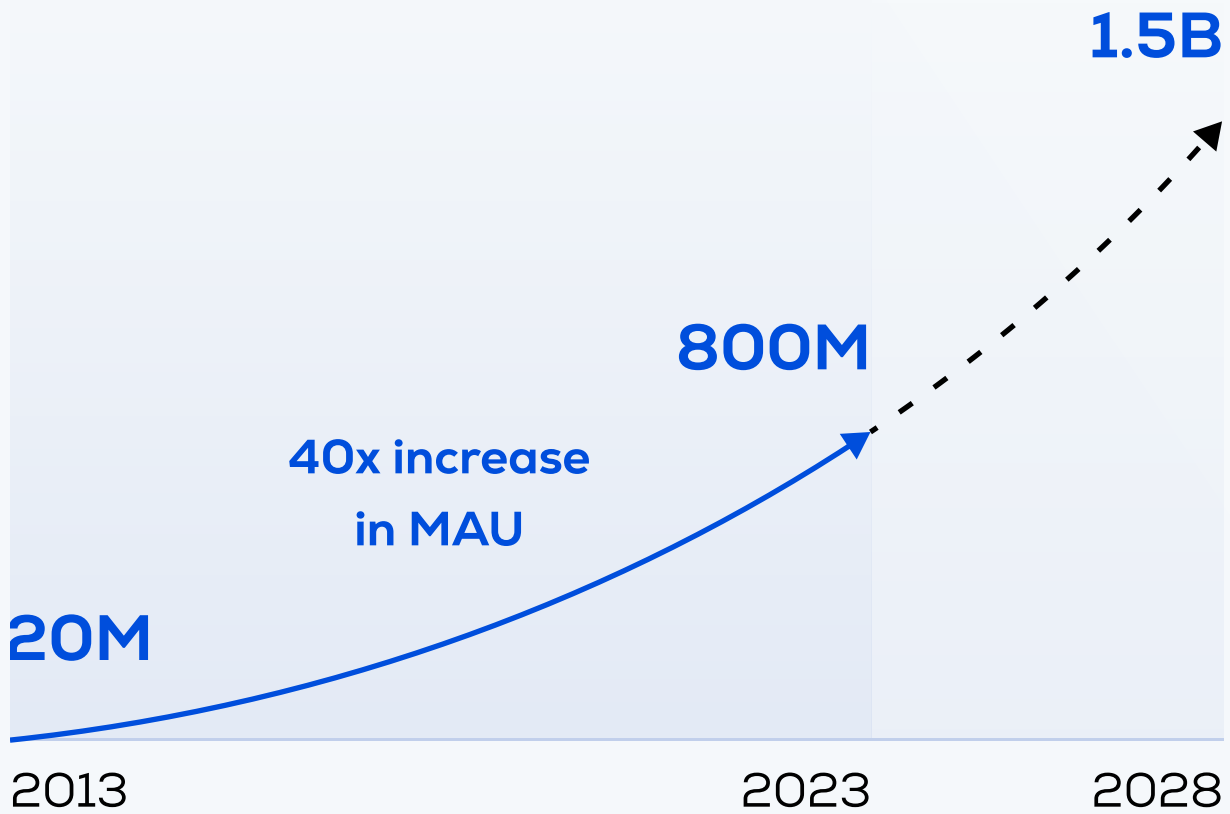

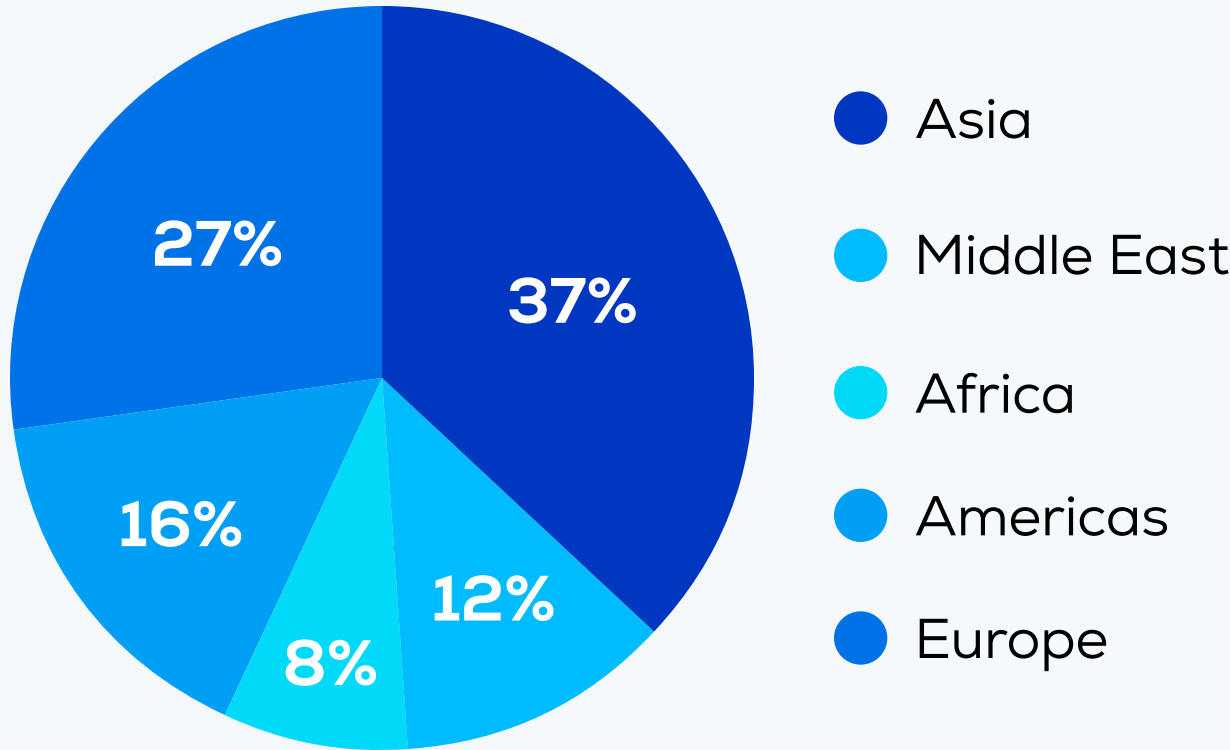

WE BELIEVE IN TON GROWTH

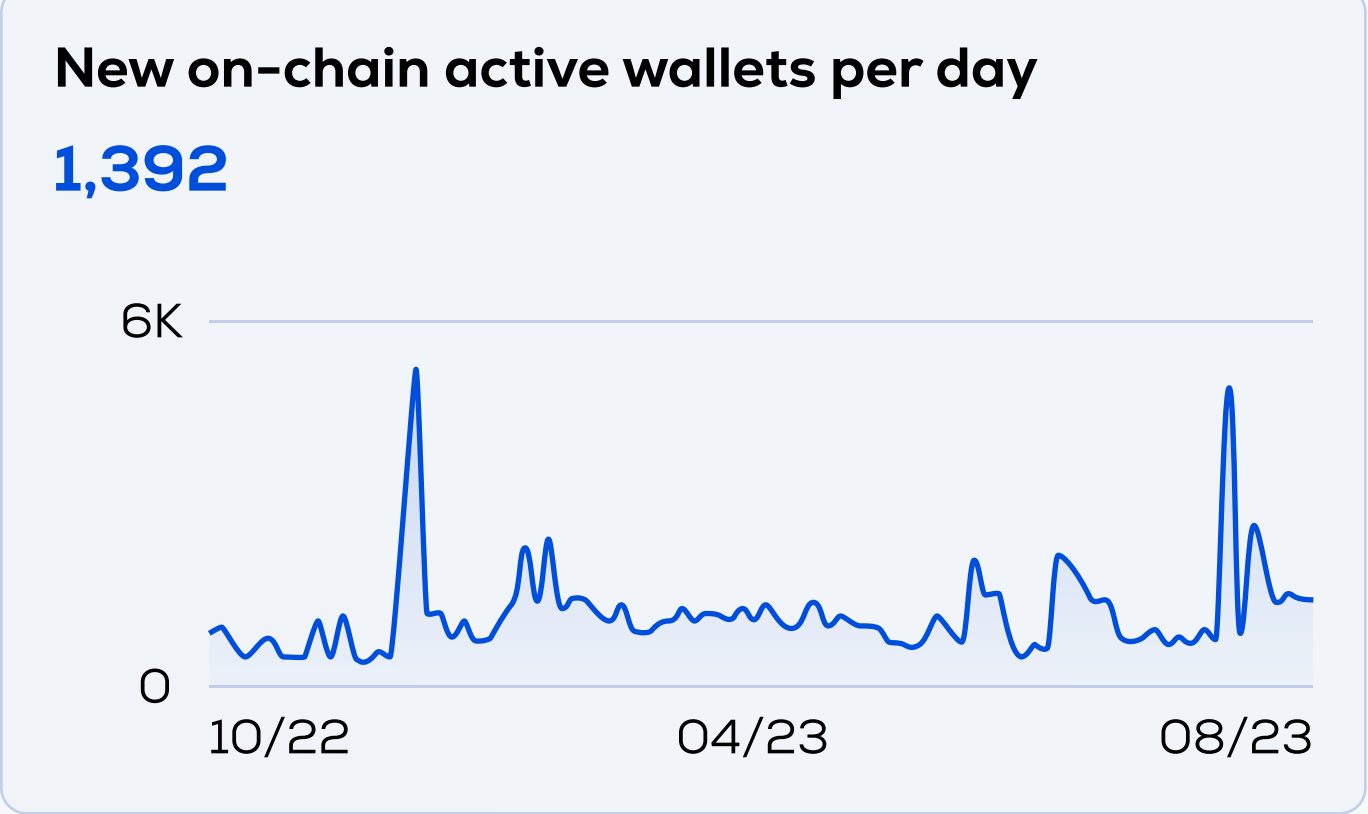

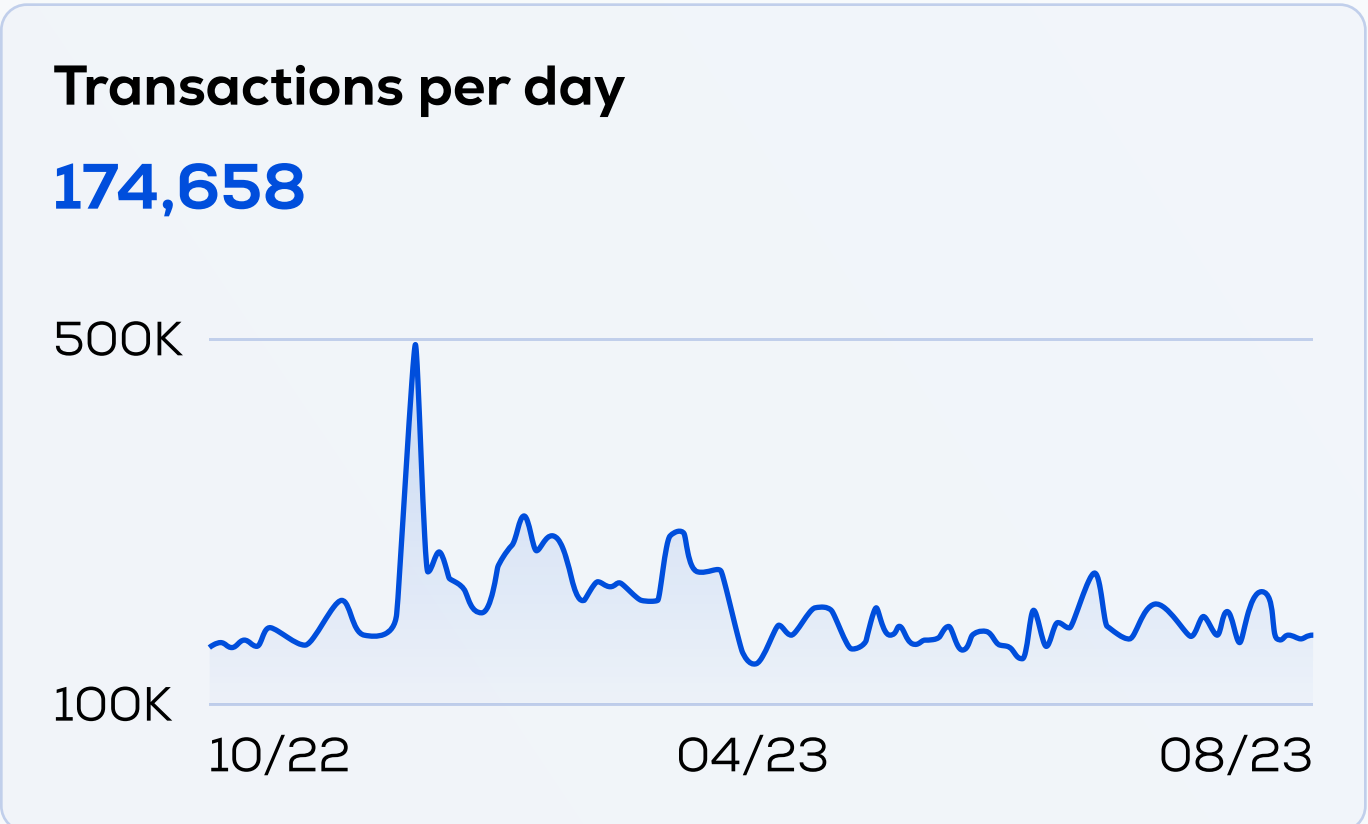

We believe in the growth of TON because of its development strategy and relation to the Telegram - the messenger that managed to gain over 800 million active users in 10 years.

In a year, TON has attracted an impressive 2.5 million users, which are accounts tied to any smart contract on the network, and about 500 thousand active wallets on the network. Daily transaction figures and new active wallets on the network are also high.

TELEGRAM GROWTH FORECAST

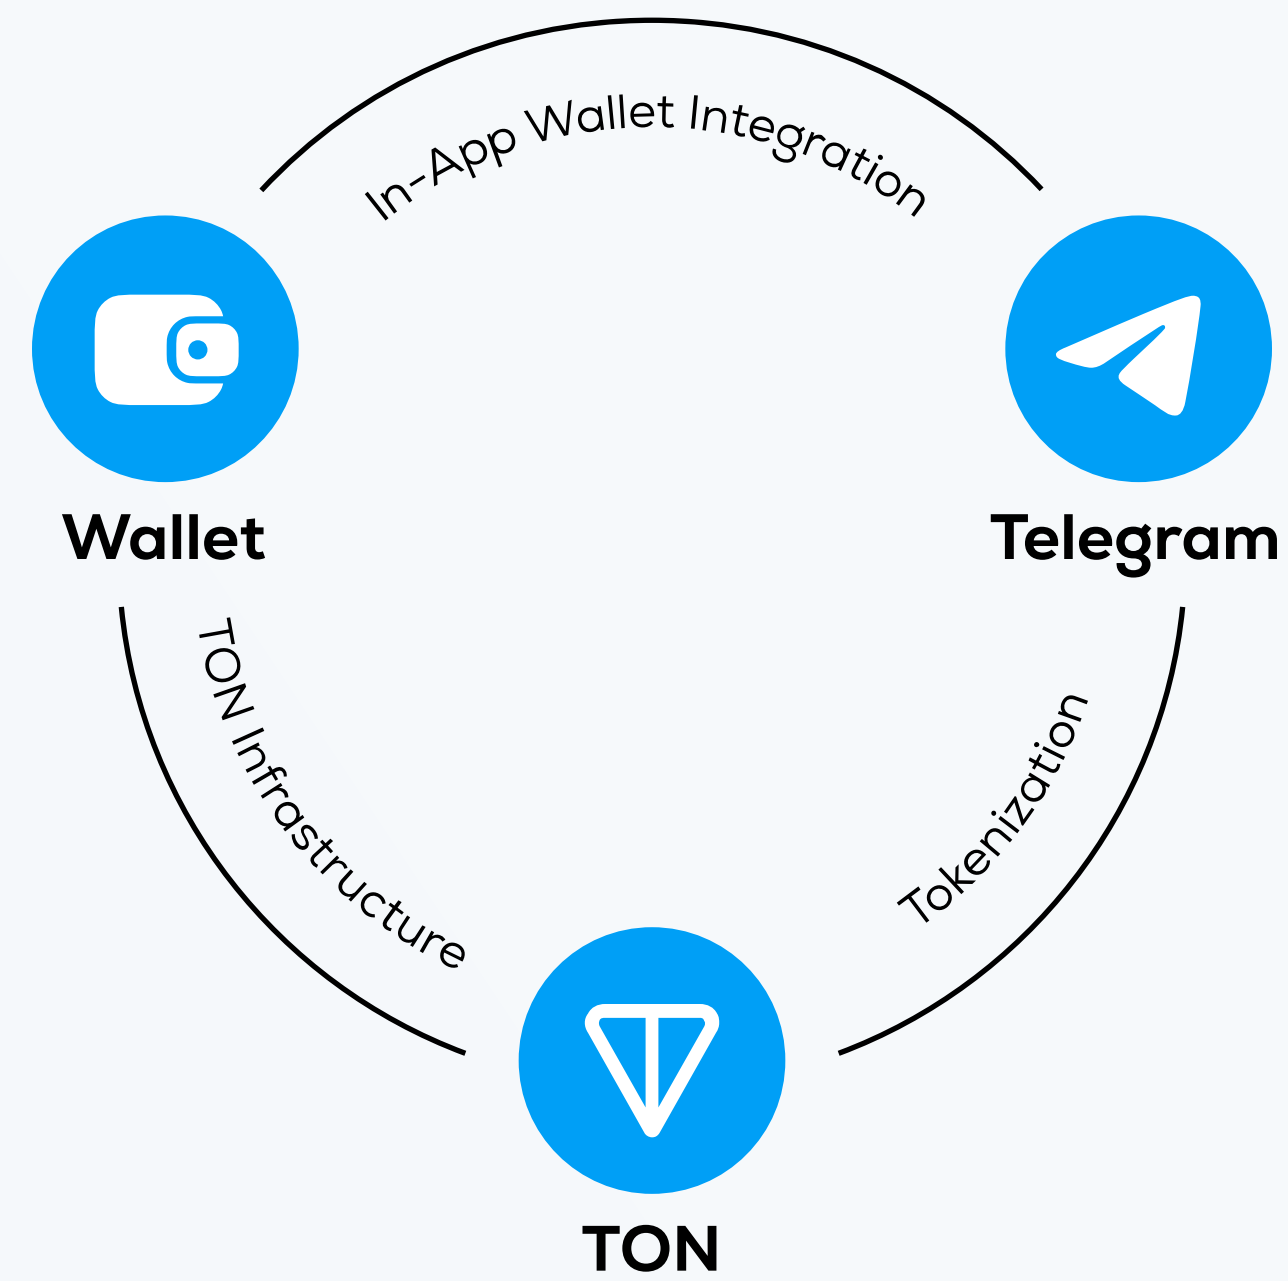

TON BLOCKCHAIN DATA

TON GROWTH STRATEGY

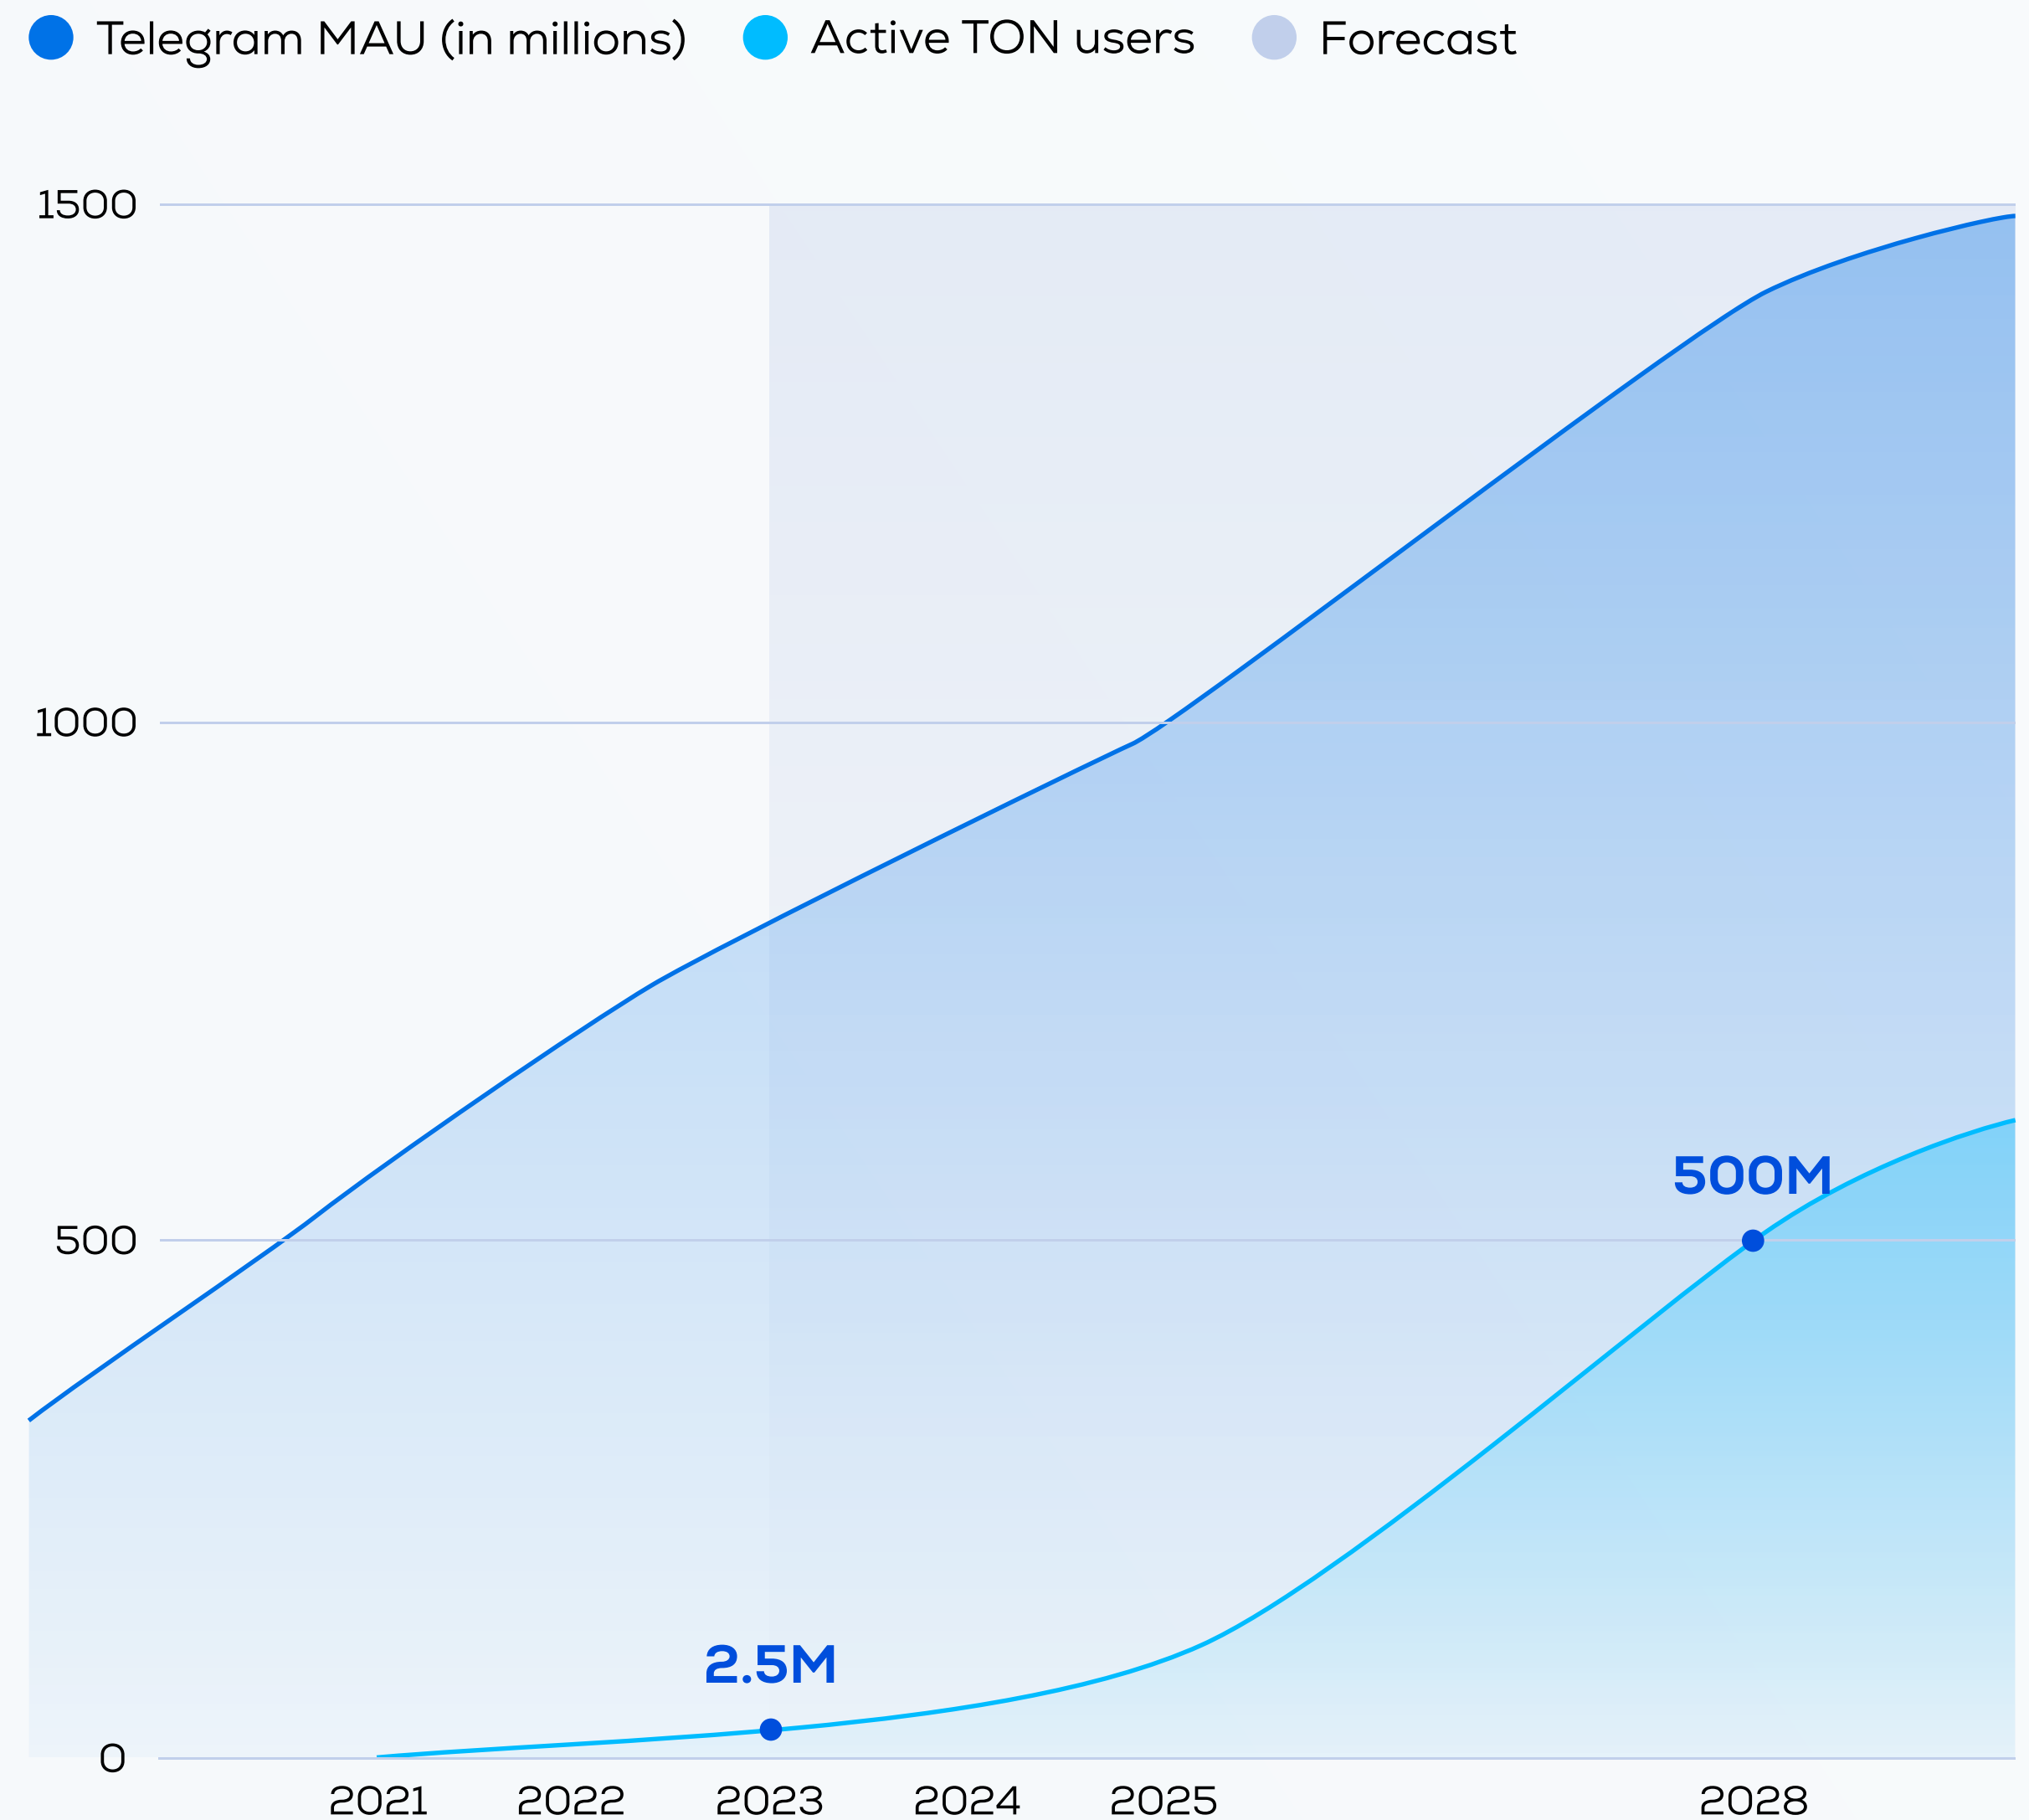

TON Foundation aims to onboard 30% of active Telegram users to TON in the next 3-5 years

The TON ecosystem's strategy centers on creating a Global Web3 Superapp through, merging TON's infrastructure with Telegram's mini-apps such as Wallet.

It empowers developers to craft user-friendly Web3 mini-apps with viral features.

Ultimately, the goal is to build a decentralized digital nation with its own economy and communication infrastructure, accessible to all.

AREAS OF INTEREST

Our goal is to identify projects that drive innovation and progress within the blockchain industry, regardless of their stage or valuation. We are particularly interested in ventures with a unique market fit that contribute to a secure environment.

TOP PRIORITY SECTORS		
DeFi	Development Frameworks	Payment Solutions
DEXes	Low code / No-code Solutions	Fiat On/Off-ramp
Yield Farming	Testing Frameworks	Crypto Banking
Staking	DApps Development Framework	Crypto Payments
Lending & Borrowing		
Blockchain & AI	GameFi	DAOs
MIDDLE PRIORITY SECTORS		
Web3 Education	Identity Management	SocialFi
Tokenization	Blockchain Analytics Tools	NFT

PROJECT ELIGIBILITY FACTORS & ASSESSMENT METHODOLOGY

WE INVEST IN EARLY-STAGE TECH COMPANIES

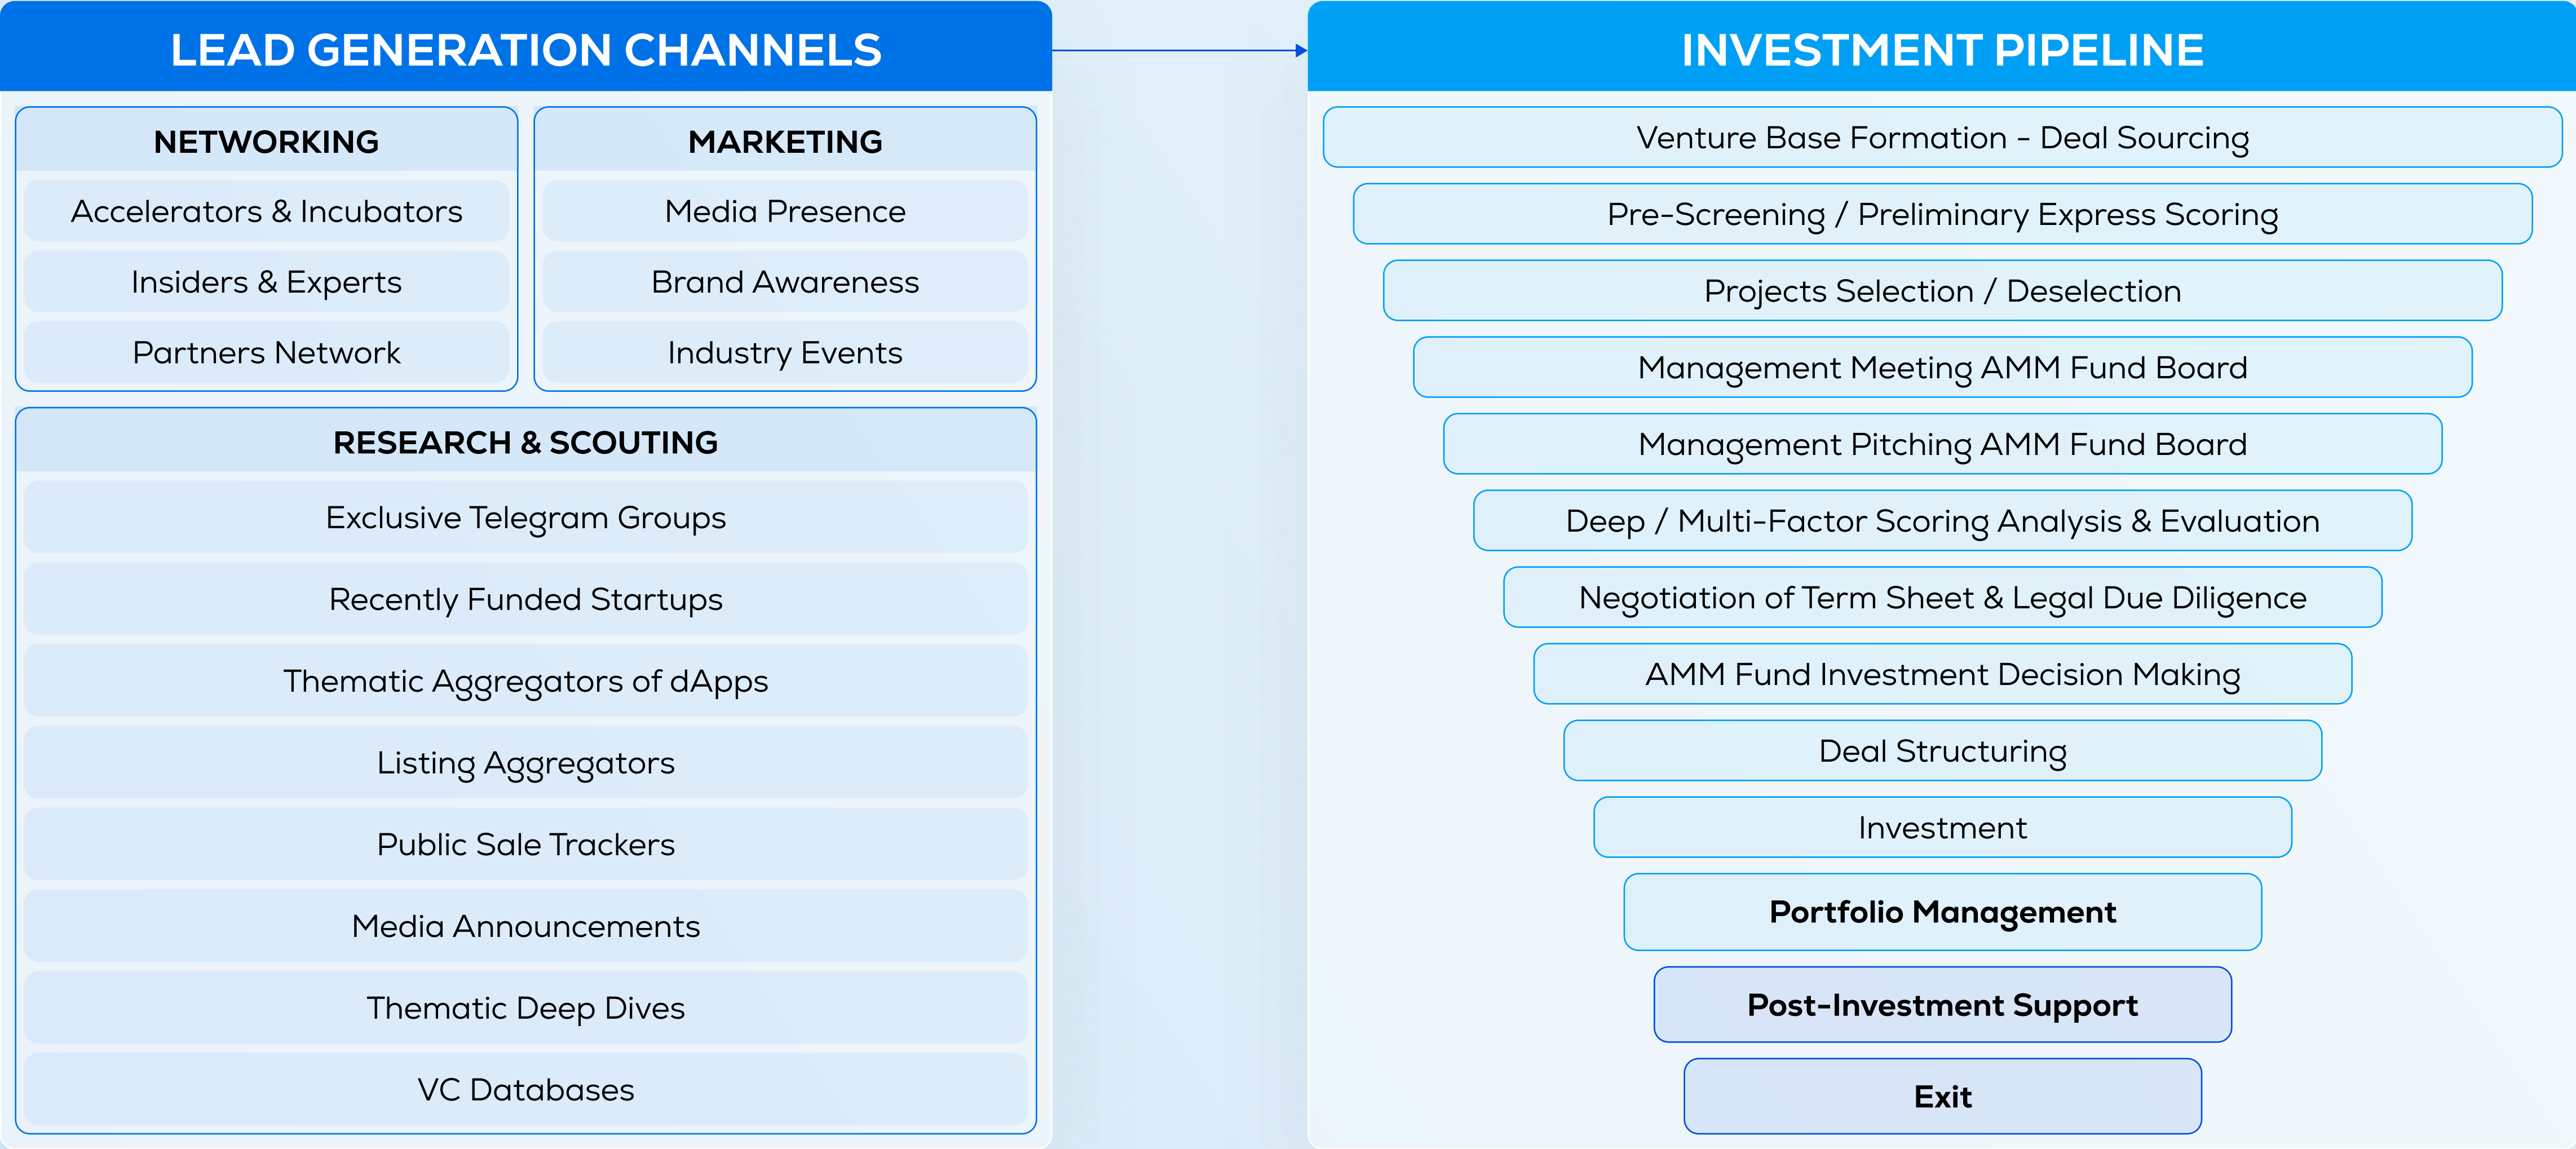

Using the unique multi-factor scoring methodology for project analysis and assessment we determine the optimal project for funding

4.19 

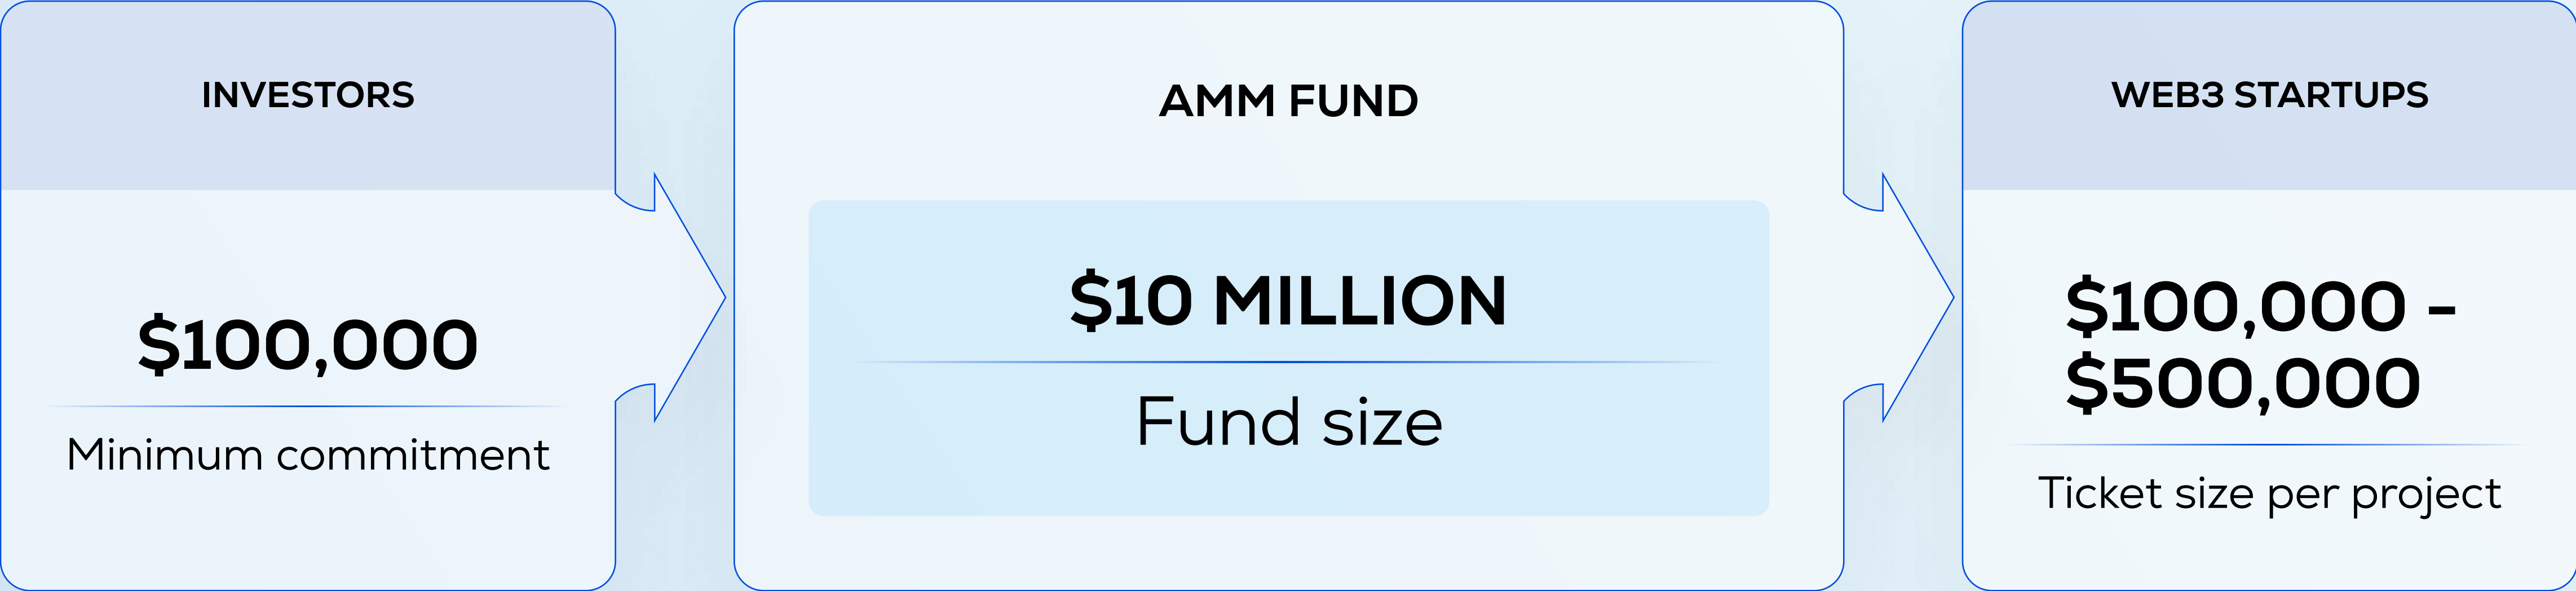

4/5 Project Fundamentals	4/5 Documentation	3.5/5 Social Media & Santiment	5/5 Target Users	4.2/5 Competition
5/5 Marketing & PR	2.75/5 Website	3.9/5 Tokenomics	4/5 Project Strategy	4.7/5 Product / MVP
4/5 Legal Structure	5/5 Technology	4.4/5 On-chain Stats	3.8/5 Governance Mechanism	4/5 Trading Stats
4.02/5 Risks	5/5 Company Finances	3.7/5 Team & Human Resources	5/5 Previous Investment Rounds	3.8/5 Valuation

INVESTMENT PROCESS

We leave no stone unturned in our investment process, meticulously researching and selectively choosing only the most promising projects to invest in

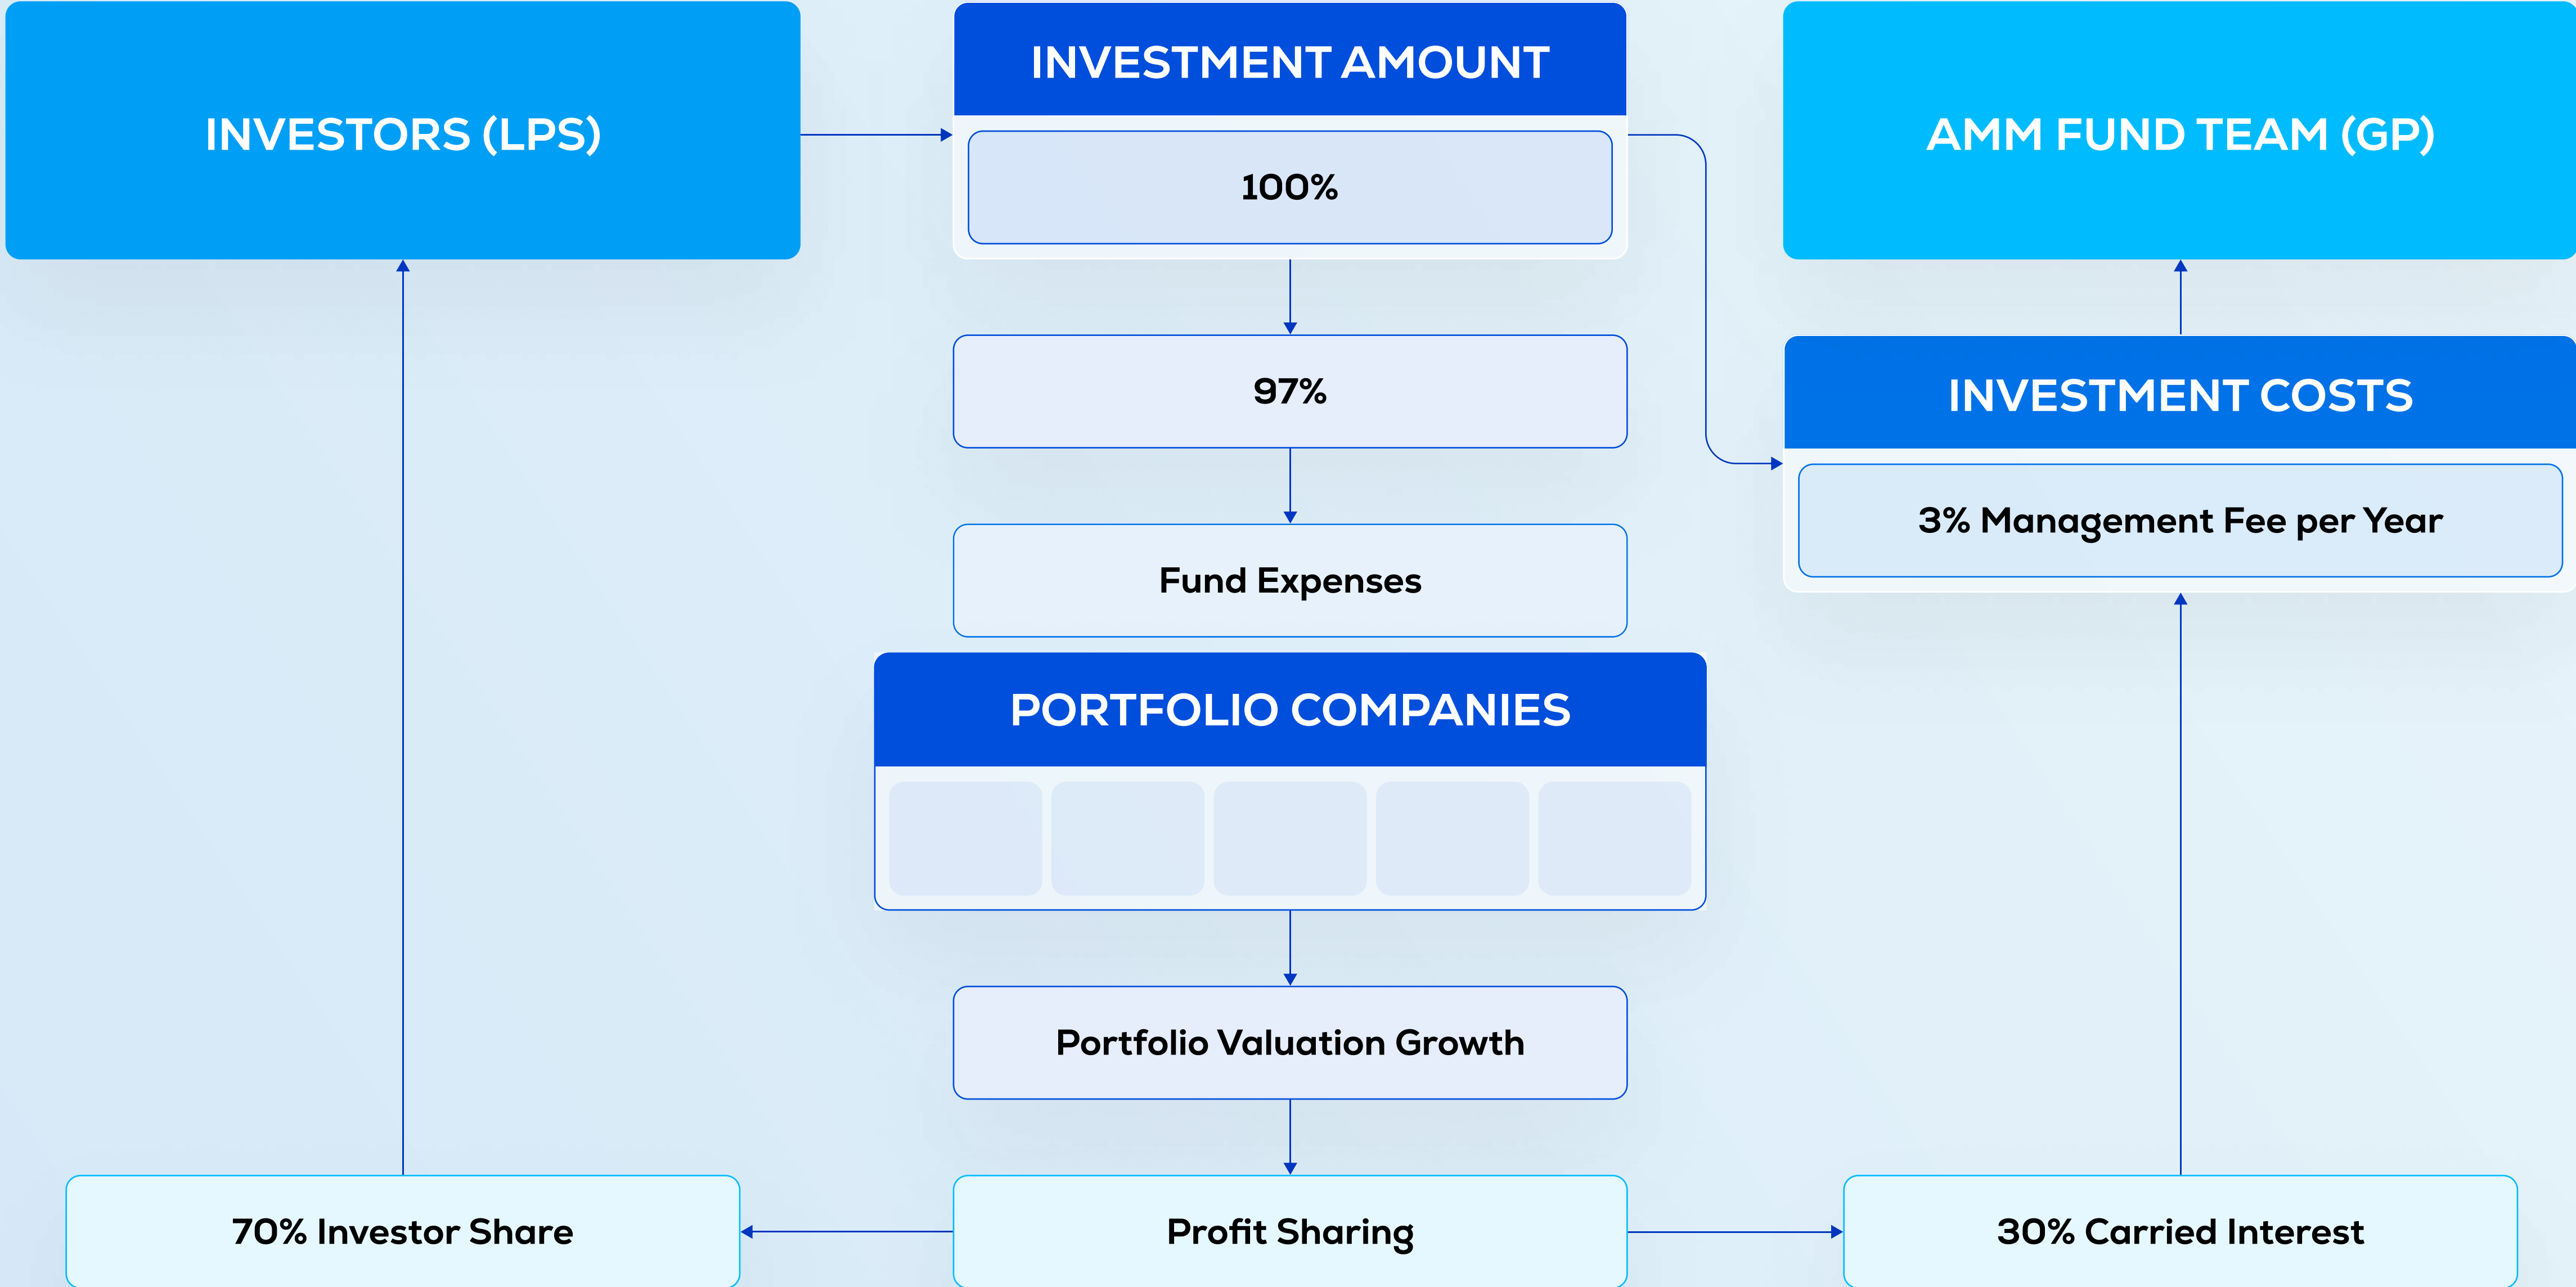

INVESTOR PROPOSAL / INVESTMENT OFFER

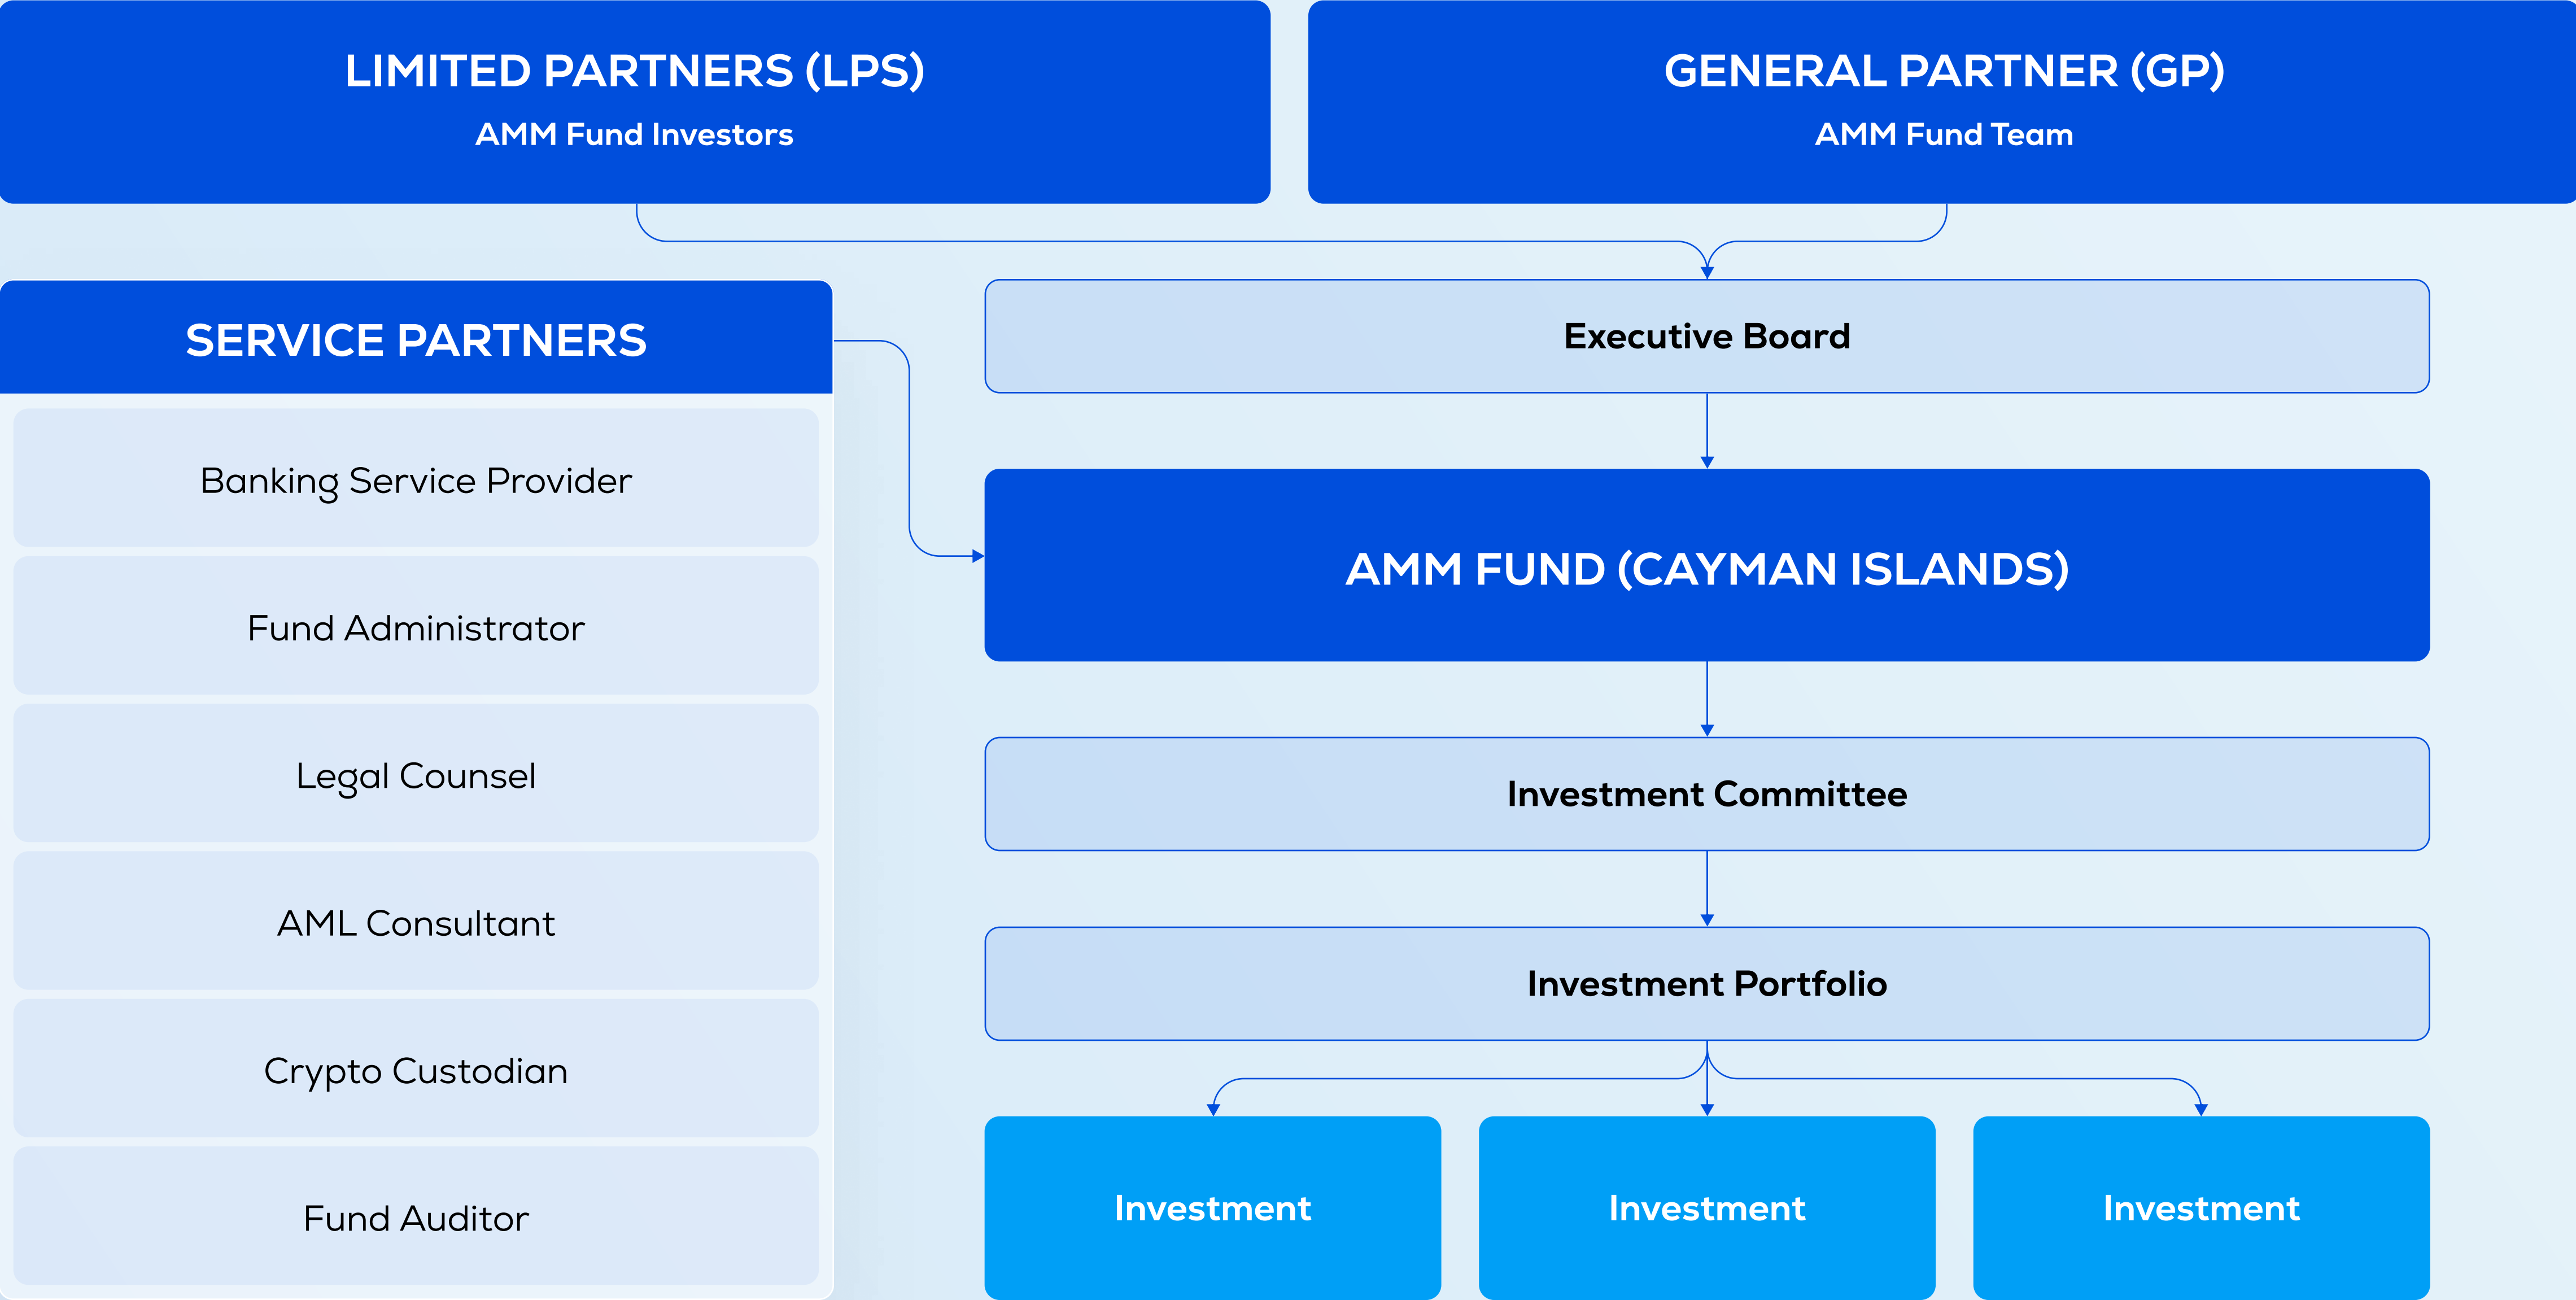

INVESTMENT DEAL PARAMETERS				
SEED & PRE-SEED	EXCHANGES & OTC	TOKENS & EQUITY	2-4 YEARS	30% - 70%
Stages	Secondary Markets	Investment form	Investment horizon	Annual Target Rol
