

Ingredient	CAS#	What It Is	What It Does
Water (Dihydrogen Monoxide)	7732-18-5	Diluent	Water is the universal solvent
5-Chloro-2-methyl-4-isothiazolin-3-one	26172-55-4	Preservative	Keeps organisms from growing in product to prolong shelf life
2-Methyl-4-isothiazolin-3-one	2682-20-4	Preservative	Keeps organisms from growing in product to prolong shelf life
Magnesium Nitrate	13446-18-9	Preservative	Keeps organisms from growing in product to prolong shelf life
Citric Acid	77-92-9	Organic Acid	Imparts pH balance to products
C7-21 Alcohols Ethoxylated	68991-48-0	Detergent	Breaks the surface tension of water to cause soil release
C9-11 Alcohols Ethoxylated	68439-46-3	Detergent	Breaks the surface tension of water to cause soil release
C8-18 Alcohols Ethoxylated Propoxylated	69013-18-9	Detergent	Breaks the surface tension of water to cause soil release
Lauryl Glucoside	59122-55-3	Degreaser	Helps to cut and release oils and grease
1-Methoxy-2-Propanol	124-68-5	Degreaser	Helps to cut and release oils and grease
Methoxy Propoxy Propanol	withheld	Degreaser	Helps to cut and release oils and grease
2-Methoxypropanol	118736-08-6	Degreaser	Helps to cut and release oils and grease
Propylene Glycol	57-55-6	Solubilizer	Help solubilize ingredients into water
Proprietary Fragrance Blend	withheld	Fragrance	Scent
Sodium C10-16 Alky Benzenesulfonate	15-081-042-met	Surfactant	Cleaning agent
Proprietary Cleaning Agent	withheld	Processing Aid	Cleaning agent
Tetrasodium Glutamate Diacetate	51981-21-6	Rinsing Agent	Rinsing agent and plant based cleaner
Proprietary Preservative Blend	withheld	Preservative	Keeps organisms from growing in product to prolong shelf life
Biodegradable Oil Blend	8001-79-4	Detergent	Breaks the surface tension of water to cause soil release
Light Paraffinic Oil	64742-56-9	Polishing Agent	Helps leave a shiny surface
Surfactant Polymer Emulsion Blend	withheld	Detergent	Breaks the surface tension of water to cause soil release
Proprietary Thickening Agent	75760-37-1	Thickener	Thickens product to adhere to surfaces
Fragrance	5989-27-5	Fragrance	Scent
Methyl Cellulose	9004-67-5	Thickener	Thickens product to adhere to surfaces
Enzyme Blend	withheld	Enzyme	Enzymes help digest starches and proteins
Propylene Glycol Ethers	34590-94-8	Detergent	Breaks the surface tension of water to cause soil release
Tetrasodium Ethylenediaminetetraacetate	64-02-8	Detergent	Breaks the surface tension of water to cause soil release
2,2',2''-Triethanol	4719-04-4	Detergent	Breaks the surface tension of water to cause soil release
Polyethylene Glycol Octylphenyl Ether	9036-19-5	Detergent	Breaks the surface tension of water to cause soil release
Alkyl Hydroxysultaine	72869-77-3	Surfactant	Cleaning agent
Ethoxylated Propoxylated Copolymer	9003-11-6	Degreaser	Helps to cut and release oils and grease
2-aminoethanol	141-43-5	Detergent	Breaks the surface tension of water to cause soil release
Tetrasodium Pyrophosphate Anhydrous	7722-88-5	Detergent	Breaks the surface tension of water to cause soil release
Sodium Lauryl Sulfate	Mixture	Surfactant	Cleaning agent
Macat CDO	Mixture	Surfactant	Cleaning agent
