Botanical Name	Common Name	Size	Price	Amount Available	Life Cycle	Light	Soil	Height	Bloom Time	Uses/Attributes	Notes
Adlumia fungosa	Allegheny vine	3" sq pot	$3	4*	Biennial vine	Full sun, partial shade	moist, well-drained	up to 10' climb	June, July, Aug, Sept	trellises, fences, slopes	grows as a rosette its first year; climbs and flowers its second year. bleeding heart-like flowers
Agastache nepetoides	Yellow giant hyssop	4.5" sq pot	$5	2*	Perennial	Full sun, partial shade	moist, rich, loamy	3-6'	July, Aug, Sept	pollinator gardens, deer resistant, naturalizer	grows tall; best planted at back of gardens. great for pollinators
Allium cernuum	Nodding onion	4.5" sq pot	$6	10*	Perennial	Full sun, partial shade	dry, rocky, moist	12-18"	July, Aug	rock gardens, cottage gardens, drought tolerant, edible, deer resistant	attractive to butterflies and bees. can be used like chives in recipes
Anemone canadensis	Canada anemone	3" sq pot	$4	SOLD OUT	Perennial	Full sun, partial shade	moist, clay	1-2'	May, June	fast-growing ground cover, water margins, ditches, walkways	spreads aggressively; good for outcompeting invasive plants. do not plant with smaller, less aggressive plants
Antennaria plantaginifolia	Plantain-leaved pussytoes	4.5" sq pot	$6	13*	Perennial	Full sun, partial shade	dry, rocky, shallow	6-12"	April, May, June	rock gardens, slopes, small ground cover, drought tolerant, walkways	host plant for American Painted Lady butterflies. nice silvery foliage
Aquilegia canadensis	Eastern red columbine	4.5" sq pot	$6	5*	Perennial	Full sun, partial shade	moist, well-drained, rocky	2-3'	April, May	rock gardens, slopes, shade gardens, cottage gardens	host plant for Columbine duskywing butterfly. the flowers are visited by hummingbirds. self-seeds a lot
Arabidopsis lyrata	Lyreleaved rock cress	3" sq pot	$3	SOLD OUT	Biennial or short-lived perennial	Full sun, partial shade	well-drained, rocky, shallow	4-12"	April, May, June, July	rock gardens, slopes, crevices	shallow-rooted; great for rock gardens and filling in areas with little disturbance
Asclepias incarnata	Swamp milkweed	4.5" sq pot	$5	30*	Perennial	Full sun, partial shade	moist, wet, clay	3-4'	July, Aug	rain gardens, water/pond margins, swampy/poorly drained areas, pollinator gardens	host plant for Monarch butterflies, as well as many other insects. despite its name, can tolerate many soil conditions except for those that are consistently dry
Boltonia asteroides	False aster	3" sq pot	$4	3*	Perennial	Full sun, partial shade	moist, clay	4-6'	Aug, Sept, Oct	rain gardens, pollinator gardens, moist meadows	can tolerate short periods of flooding. grows quite tall
Campanula rotundifolia	Harebells	4.5" sq pot	$6	3*	Perennial	Full sun, partial shade	moist, well-drained	12-18"	June, July, Aug, Sept	rock gardens, containers	grows best with afternoon shade and consistent moisture. can be short-lived but will self-seed. long blooming time.
Capnoides sempervirens	Rock harlequin	3" sq pot	$3	3*	Annual or biennial	Full sun, partial shade	sandy, rocky, shallow, moist, dry, well-drained	1-3'	April, May, June, July, Aug, Sept	rock gardens, crevices, slopes	self-seeds prolifically. long blooming time. plants can be either annuals or biennials. best growth occurs in cool weather. also known as Corydalis sempervirens
Carex pensylvanica	Pennsylvania sedge	4.5" sq pot	$6	11*	Perennial	Full sun to full shade	dry, moist, well-drained, loamy	6-12"	April, May	ground cover, soft landings, shade gardens, erosion control, lawn alternative, deer resistant	tolerant of a variety of conditions. very attractive foliage and clumping habit. may be semi-evergreen in mild winters
Chamaenerion angustifolium	Fireweed	4.5" sq pot	$5	5*	Perennial	Full sun, partial shade	moist	2-4'	July, Aug	naturalizer, pollinator gardens	can be aggressive; spreads by both rhizomes and seeds
Chelone glabra	White turtlehead	4.5" sq pot	$6	38*	Perennial	Full sun, partial shade	moist, wet, rich	2-3'	Aug, Sept, Oct	rain gardens, pond/stream margins, poorly-drained areas	host plant for Baltimore Checkerspot butterfly. the flowers are favored by bumblebees
Clematis virginiana	Virgin's bower	4.5" sq pot	$7	1*	Woody vine	Full sun, partial shade	moist, wet, well-drained	10-20' climb	Aug, Sept, Oct	fences, trellises, water margins, woodland gardens	blooms on current year's growth. can climb quite aggressively. great for pollinators
Clinopodium vulgare	Wild basil	4.5" sq pot	$5	2*	Perennial	Full sun to full shade	moist, medium-dry	1-2'	April, May, June, July, Aug, Sept, Oct	pollinator gardens, ground cover, edible, long-blooming, shade gardens, walkways	very long bloom season; great for pollinators. edible leaves but rather mild-tasting
Collinsonia canadensis	Northern horsebalm	4.5" sq pot	$6	1*	Perennial	Partial to full shade	rich, moist, well-drained, clay, medium-dry	2-3'	Aug, Sept	shade gardens, soft landings, edible, aromatic	leaves have a pleasant citronella or lemon scent. underused shade plant
Conoclinium coelestinum	Blue mistflower	4.5" sq pot	$5	10*	Perennial	Partial shade	moist, wet, rich	1-2'	Aug, Sept, Oct	pollinator gardens, pond margins, forest edges, naturalizing ground cover, shady meadows	can be aggressive; spreads by both rhizomes and seeds. prefers soils that remain consistently moist
Cryptotaenia canadensis	Honewort	4.5" sq pot	$6	SOLD OUT	Perennial	Partial to full shade	moist, well-drained, rich	1-2'	June, July, Aug	shade gardens, naturalizer, edible	host plant for black swallowtail butterflies
Cunila origanoides	Dittany	4.5" sq pot	$7	1*	Perennial subshrub	Full sun, partial shade	dry, medium, shallow, rocky, sandy	8-16"	Aug, Sept	rock gardens, containers, edible, cottage gardens, deer resistant, drought tolerant, aromatic, walkways	leaves smell and taste similar to oregano. can form frost flowers
Dicentra eximia	Wild bleeding heart	4.5" sq pot	$7	20*	Perennial	Partial shade	moist, well-drained, rich	12-18"	April, May, June, July, Aug, Sept, Oct	shade gardens, rock gardens, containers, long-blooming, cottage gardens	very long bloom season; great for bumblebees. needs consistent moisture year-round; intolerant of wet soil in winter and dry soil in summer
Elephantopus carolinianus	Elephant's foot	3" sq pot	$3	SOLD OUT	Perennial	Partial shade	moist, dry, well-drained, sandy	2-3'	Aug, Sept	ground cover, forest edges, dry shade	large, attractive foliage. endangered in PA
Erigeron pulchellus	Robin's plantain	4.5" sq pot	$5	4*	Perennial	Full sun, partial shade	dry, poor, moist, well-drained	1-2'	May, June	rock gardens, ground cover, pollinator gardens, cottage gardens, drought tolerant	great for nutrient-poor soils where little else grows. spreads by stolons to form a ground cover
Euphorbia corollata	Flowering spurge	4.5" sq pot	$6	15*	Perennial	Full sun, partial shade	moist, dry, well-drained, sandy, clay, rocky	2-3'	June, July, Aug	meadows, cottage gardens, drought tolerant, pollinator gardens	tolerates a variety of soil conditions. pretty, baby's breath-like flowers
Eurybia macrophylla	Big-leaved wood aster	4.5" sq pot	$6	20*	Perennial	Partial to full shade	moist, well-drained, loamy	1-3'	Sept, Oct	ground cover, shade gardens, soft landings, walkways	spreads by rhizomes. best flowering occurs in part shade
Eutrochium dubium	Small Joe Pye weed	4.5" sq pot	$5	SOLD OUT	Perennial	Full sun, partial shade	moist, rich	3-5'	July, Aug, Sept	rain gardens, pollinator gardens, moist meadows, water margins, cottage gardens	great nectar source for butterflies. shorter than other species of Joe Pye weed. grows best in evenly moist soil
Fragaria virginiana	Wild strawberry	4.5" sq pot	$6	24*	Perennial	Full sun to full shade	moist, well-drained, sandy, rich, medium-dry	4-8"	April, May, June	ground cover, erosion control, slopes, edible fruit, drought tolerant, containers, walkways	excellent running ground cover that tolerates a variety of conditions. the fruit is small yet sweet and delicious; fruit ripens in late spring/early summer and is favored by wildlife
Geranium maculatum	Wild geranium	4.5" sq pot	$7	6*	Perennial	Full sun, partial shade	moist, well-drained	1-2'	April, May	shade gardens, soft landing, naturalizer, meadows, walkways	can be mass planted as a ground cover. foliage can turn yellow-brown in hot summer months and can be pruned back
Helianthus decapetalus	Ten-petaled sunflower	4.5" sq pot	$6	8*	Perennial	Full sun, partial shade	moist, well-drained	3-5'	Aug, Sept, Oct	pollinator gardens, forest edges, naturalizer, meadows	colonizes nicely via rhizomes. seeds are eaten by birds
Heliopsis helianthoides	Oxeye sunflower	4.5" sq pot	$5	34*	Perennial	Full sun, partial shade	moist, well-drained, clay, sandy, poor	3-6'	June, July, Aug	pollinator gardens, meadows, rain gardens, cottage gardens, drought tolerant	tolerates a variety of soil conditions
Heuchera americana	American alumroot	4.5" sq pot	$6	SOLD OUT	Perennial	Partial to full shade	moist, well-drained, rich	1-2'	July, Aug	rock gardens, woodland gardens, containers, walkways, drought tolerant, ground cover, evergreen	can be mass planted as a ground cover. foliage turns a coppery-orange color in fall and persists through winter
Hibiscus laevis	Halberdleaf rose mallow	4.5" sq pot	$6	4*	Perennial	Full sun	moist, wet	4-5'	July, Aug, Sept	water margins, rain gardens, swampy areas	grows quickly. host plant for gray hairstreak butterflies
Hypericum prolificum	Shrubby St John's wort	4.5" sq pot	$7	2*	Shrub	Full sun, partial shade	moist, well-drained	1-4'	July, Aug, Sept	rain gardens, pollinator gardens, meadows, foundation plantings, low hedge, drought tolerant	deciduous and blooms on new growth. favored by pollinators
Iris versicolor	Blue flag iris	4.5" sq pot	$6	12*	Perennial	Full sun, partial shade	moist, wet, shallow standing water	2-3'	May, June	water margins, rain gardens, ponds, moist meadows, cottage gardens, ditches, swampy areas, deer resistant	can be grown in a few inches of standing water
Lobelia cardinalis	Cardinal flower	4.5" sq pot	$6	SOLD OUT	Short-lived perennial	Full sun, partial shade	moist, wet, rich	2-4'	July, Aug, Sept	pond/stream margins, rain gardens, wet meadows, moist shade gardens	soil cannot dry out for too long. the flowers are visited by hummingbirds
Lobelia siphilitica	Great blue lobelia	4.5" sq pot	$5	4*	Perennial	Full sun, partial shade	moist, wet, rich, medium-dry	3-4'	July, Aug, Sept, Oct	shade gardens, water margins, rain gardens, meadows, naturalizer	tolerates a variety of soil conditions, even those on the drier side, but prefers consistently moist soil
Lysimachia ciliata	Fringed loosestrife	4.5" sq pot	$6	2*	Perennial	Full sun to full shade	moist, wet	2'	June, July, Aug	shade gardens, water margins, naturalizer	can tolerate short periods of flooding. can colonize in optimal conditions
Lythrum alatum	Winged loosestrife	4.5" sq pot	$5	13*	Perennial	Full sun	wet	2-3'	June, July, Aug, Sept	rain gardens, water margins, wet areas	needs consistent moisture
Meehania cordata	Meehan's mint	4.5" sq pot	$7	10*	Perennial	Partial to full shade	moist, well-drained, rich	4-6"	May, June	ground cover, shade gardens, soft landings, walkways	stoloniferous ground cover that spreads somewhat slowly. can handle full sun as long as soil remains moist
Mertensia virginica	Virginia bluebells	4.5" sq pot	$7	4*	Perennial	Partial to full shade	moist, well-drained, rich	1-2'	April, May	shade gardens, riparian areas, naturalizer, cottage gardens, soft landings	spring ephemeral that dies back by early summer; best planted with other perennials that will fill in the empty space. great early food source for bees
Mimulus ringens	Allegheny monkeyflower	1.7 gal	$10	8*	Perennial	Full sun, partial shade	moist, wet, loamy	1-3'	July, Aug, Sept	water margins, wet areas, rain gardens	needs consistent moisture. host plant for Baltimore checkerspot and common buckeye butterflies
Monarda fistulosa	Wild bee balm	4.5" sq pot	$5	2*	Perennial	Full sun, partial shade	moist, dry, well-drained, poor	2-4'	July, Aug, Sept	pollinator gardens, rain gardens, meadows, cottage gardens, edible, aromatic, deer resistant, drought tolerant, naturalizer	good pollinator plant. needs good air circulation. prone to powdery mildew, but it does not harm the plant
Monarda punctata	Spotted bee balm	4.5" sq pot	$5	25*	Biennial	Full sun, partial shade	moist, dry, well-drained, poor	2'	July, Aug, Sept	meadows, containers, pollinator gardens, edible, aromatic, deer resistant, drought tolerant	good pollinator plant. short-lived but can self-seed
Packera aurea	Golden ragwort	4.5" sq pot	$6	4*	Perennial	Full sun to full shade	moist, wet	1-2'	April, May	ground cover, riparian areas, stream margins, rain gardens, semi-evergreen	great fast-growing ground cover. needs consistently moist soil and tolerates occasional flooding
Penstemon digitalis	Foxglove beardtongue	4.5" sq pot	$5	SOLD OUT	Perennial	Full sun, partial shade	moist, dry, well-drained	3-4'	June, July	pollinator gardens, meadows, cottage gardens, drought tolerant	great for long-tongued bees and hummingbirds
Penstemon hirsutus	Hairy beardtongue	4.5" sq pot	$6	30*	Perennial	Full sun, partial shade	moist, dry, well-drained	12-18"	May, June	slopes, pollinator gardens, walkways, rock gardens, cottage gardens, drought tolerant	great for long-tongued bees and hummingbirds. blooms earlier than other beardtongues
Phlox divaricata	Wild blue phlox	4.5" sq pot	$7	15*	Perennial	Partial to full sahde	moist, well-drained, rich	8-12"	April, May	shade gardens, walkways, containers, soft landing, rock gardens, aromatic flowers, ground cover, semi-evergreen	likes to be lightly mulched. unfortunately, rabbits love to eat it
Physocarpus opulifolius	Ninebark	4.5" sq pot	$7	3*	Shrub	Full sun, partial shade	moist, well-drained, medium-dry, acidic	5-8'	May, June	hedge, foundation plantings, rain gardens, winter interest, pollinator gardens	deciduous. tolerates a variety of conditions. great native replacement for non-native ornamental shrubs
Physostegia virginiana	Obedient plant	4.5" sq pot	$6	36*	Perennial	Full sun, partial shade	moist, wet, acidic, well-drained	3-4'	July, Aug, Sept	rain gardens, naturalizer, meadows, pollinator gardens, cottage gardens	can spread aggressively. great pollinator plant
Polemonium reptans	Jacob's ladder	4.5" sq pot	$6	24*	Perennial	Partial to full shade	moist, rich, well-drained	1'	April, May	shade gardens, soft landings, containers, walkways, forest edges	can be mass planted as a ground cover. good early food source for bees. can be grown in full sun if soil is kept moist, but best in shade
Polemonium vanbruntiae	Appalachian Jacob's ladder	3" sq pot	$5	1*	Perennial	Partial shade	moist, dry, rich, loamy	2-3'	June, July	swampy/poorly drained areas, ditches/slope bases, water margins, wet meadows	endangered in PA; rare throughout its range. blooms later than Polemonium reptans
Pycnanthemum muticum	Clustered mountain mint	4.5" sq pot	$5	15*	Perennial	Full sun, partial shade	moist, well-drained	2-3'	July, Aug, Sept	pollinator gardens, meadows, cottage gardens, drought tolerant, aromatic, edible, naturalizer, deer resistant	one of the best plants for attracting a variety of pollinators. the foliage has a pleasant minty scent. can spread quickly
Pycnanthemum tenuifolium	Thinleaf mountain mint	4.5" sq pot	$5	18*	Perennial	Full sun, partial shade	dry, moist, well-drained	2-3'	July, Aug, Sept	pollinator gardens, meadows, cottage gardens, rock gardens, erosion control, drought tolerant, aromatic, edible, deer resistant	the thin, needle-like leaves have a wonderful minty fragrance. excellent plant for pollinators
Rosa palustris	Swamp rose	4.5" sq pot	$7	7*	Shrub	Full sun, partial shade	moist, wet, rich, acidic	3-6'	June, July	rain gardens, water margins, boggy/poorly drained areas, aromatic flowers	great wildlife value; the fruit (hips) are eaten by birds. good replacement for non-native roses
Rudbeckia fulgida var. deamii	Black-eyed-Susan	4.5" sq pot	$6	28*	Perennial	Full sun, partial shade	dry, moist, well-drained	2-3'	July, Aug, Sept, Oct	pollinator gardens, rain gardens, borders, rock gardens, cottage gardens, drought tolerant	great late summer and fall color and food source for pollinators. spreads quite slowly. tolerates clay and poor soils
Rudbeckia triloba	Brown-eyed-Susan	3" sq pot	$4	1*	Biennial or short-lived perennial	Full sun, partial shade	moist, well-drained, rich	2-3'	Aug, Sept, Oct	pollinator gardens, meadows, drought tolerant	tall plant that is ideal for pollinator and bird gardens. short-lived but self-seeds
Ruellia strepens	Smooth wild petunia	4.5" sq pot	$5	3*	Perennial	Full sun to full shade	moist, well-drained, rich	1-3'	June, July, Aug, Sept	woodland gardens, ground cover	host plant for common buckeye butterflies
Salvia lyrata	Lyreleaved sage	4.5" sq pot	$5	SOLD OUT	Perennial	Full sun, partial shade	moist, well-drained, sandy, poor, rocky	1-2'	May, June, July	ground cover, rain gardens, erosion control, drought tolerant, lawns, meadows	rosette of attractive leaves that can vary in color. the tubular flowers are visited by pollinators. sometimes sets seed without flowering
Sambucus canadensis	Elderberry	4.5" sq pot	$7	34*	Shrub	Full sun, partial shade	moist, wet, rich	5-10'	June, July, Aug	hedge, stream/pond margins, rain gardens, edible flowers and fruit, erosion control, riparian areas, naturalizer	decidous shrubs that spreads quickly via suckers. best planted where it can spread. the fruits and flowers must be cooked properly before eating. good food source for wildlife
Scutellaria incana	Hoary skullcap	4.5" sq pot	$6	30*	Perennial	Partial shade	moist, dry, sandy, clay, well-drained	2-3'	July, Aug, Sept	rock gardens, containers, partly shady gardens, cottage gardens, pollinator gardens	very pretty flowers with a long blooming period in summer. good for bees
Scutellaria lateriflora	Mad dog skullcap	4.5" sq pot	$5	SOLD OUT	Perennial	Full sun, partial shade	moist, wet	2-3'	July, Aug, Sept	water margins, marshy areas, rain gardens, naturalizer	can spread aggressively. great pollinator plant for moist areas
Sedum ternatum	Woodland stonecrop	4.5" sq pot	$6	20*	Perennial	Full sun to full shade	moist, well-drained, shallow, rocky	3-6"	April, May	rock gardens, forest edges, shade gardens, containers, drought tolerant, ground cover, slopes, deer resistant	small succulent that is easily propagated by cuttings. good mat-forming ground cover
Silene stellata	Starry campion	4.5" sq pot	$6	2*	Perennial	Full sun, partial shade	moist, dry, well-drained, clay, sandy	2-3'	June, July, Aug	woodland borders, cottage gardens, drought tolerant, meadows	needs good drainage. pretty flowers with frilly petals
Solidago caesia	Wreath goldenrod	4.5" sq pot	$5	4*	Perennial	Partial to full shade	moist, dry, well-drained, poor	1.5-3'	Aug, Sept, Oct	rock gardens, forest edges, partly shaded gardens, containers, drought tolerant	attractive arching stems. can handle dry shade. does not spread aggressively. keystone plant that hosts over 100 species of caterpillars
Solidago odora	Licorice scented goldenrod	4.5" sq pot	$5	1*	Perennial	Full sun, partial shade	moist, dry, well-drained, poor	2-4'	Aug, Sept, Oct	pollinator gardens, meadows, cottage gardens, naturalizer, aromatic, deer resistant, drought tolerant	the leaves have a nice anise or licorice scent. keystone plant that hosts over 100 species of caterpillars
Symphyotrichum cordifolium	Heartleaf aster	4.5" sq pot	$4	6*	Perennial	Partial to full shade	moist, dry, rich, well-drained	2-3'	Aug, Sept, Oct	shade gardens, dry shade, ground cover, walkways, cottage gardens, slopes	great late-season food source for pollinators. can handle dry shade. will flower best in part shade
Symphyotrichum lateriflorum	Calico aster	4.5" sq pot	$5	6*	Perennial	Full sun to full shade	moist, well-drained, clay	2-3'	Aug, Sept, Oct	rain gardens, riparian areas, walkways, slopes, pollinator gardens, naturalizer	tolerates a variety of conditions, including brief flooding. great late season food source for pollinators. the name "calico" refers to the varied colors of the central disk flowers
Symphyotrichum puniceum	Purplestem aster	4.5" sq pot	$5	12*	Perennial	Full sun, partial shade	moist, wet, well-drained	3-5'	Aug, Sept, Oct	rain gardens, meadows, naturalizer, water margins	very tall aster with reddish-purple stems. good late season food source for pollinators. nice, large aster flowers
Symphyotrichum shortii	Short's aster	4.5" sq pot	$5	SOLD OUT	Perennial	Partial to full shade	moist, dry, well-drained	2-3'	Aug, Sept, Oct	shade gardens, dry shade, soft landing	looks and acts similar to Symphyotrichum cordifolium, but is less common and a native of limestone bluffs
Teucrium canadense	American germander	4.5" sq pot	$6	2*	Perennial	Full sun, partial shade	moist, rich, clay, well-drained	1-2.5'	July, Aug, Sept	woodland gardens, naturalizer, riparian areas, erosion control	spreads via rhizomes to form colonies; can be somewhat aggressive in optimal conditions. good plant for bees
Thalictrum dioicum	Early meadow rue	3" sq pot	$4	15*	Perennial	Partial to full shade	moist, well-drained	1-2'	April, May	shade gardens, soft landings, containers, walkways, forest edges	early season bloomer with delicate leaves. likes cool weather
Tiarella cordifolia	Foamflower	4.5" sq pot	$6	25*	Perennial	Partial to full shade	moist, rich, well-drained	8-12"	April, May, June	shade gardens, soft landings, containers, walkways, semi-evergreen, ground cover	can be mass planted as a ground cover. attractive foliage and spikes of feathery flowers in spring. semi-evergreen in mild winters. foliage color and shape can vary. does not like wet winters
Viola eriocarpa	Smooth yellow violet	4.5" sq pot	$5	SOLD OUT	Perennial	Partial to full shade	moist, rich, well-drained	4-12"	April, May, June	shade gardens, rock gardens	yellow-flowered violet that is not aggressive. also known as Viola pubescens var. eriocarpa. host plant for fritillary butterflies
Viola pedata	Bird's foot violet	4.5" sq pot	$6	1*	Perennial	Full sun, partial shade	moist, dry, sandy, rocky, well-drained	3-6"	April, May	rock gardens, slopes, walkways, drought tolerant	somewhat finicky violet with very attractive flowers that rival that of cultivated pansies. needs well-drained soil. host plant for fritillary butterflies
Viola subsinuata	Wavy-leaf violet	3" sq pot	$3	SOLD OUT	Perennial	Partial shade	moist, well-drained	3-6"	April, May	shade gardens, lawns, ground cover	similar to Viola palmata, but all leaves are lobed. host plant for fritillary butterflies.
Zizia aurea	Golden Alexander	4.5" sq pot	$5	14*	Perennial	Full sun, partial shade	moist, well-drained, clay	1-3'	April, May, June	pollinator gardens, moist meadows, woodland openings and edges, cottage gardens	good naturalizer for a variety of soil conditions. host plant for black swallowtail butterflies
