

COVID 19 COMMITTEE CHARTER

The purpose of this committee is to aid the RSA Board of Directors in developing policies and distributing reliable information on the prevention of COVID 19 disease (the disease caused by infection with SARS-CoV-2, a respiratory virus) in the residents, guests and workers at the RSA condominium. Up to date information will be derived from knowledgeable sources such as the CDC (<https://www.cdc.gov/coronavirus/2019-ncov/index.html>), published professional medical journals and accepted best medical practices. It is expected that new information may result in changing policies. The committee will not provide advice on the treatment of disease. Members of the committee should have some background in medicine, public health or the impact of policies in residential buildings.

Approved by RSA Board of Directors August 17, 2021
