

CALLING ALL TEACHERS AND ADMINISTRATORS: A COUNSELING CONFERENCE FOR YOU

REVOLUTION:

EQUITY, DISPARITIES, & STUDENT MENTAL HEALTH
OCTOBER 8-10, 2020 • CASC • VIRTUAL CONFERENCE

School counselors have for years have expressed that their best allies come from instructional staff & school leaders. This year, more than ever, all educators are approaching the unique challenges brought on by Covid19 with an openness to learning new information uncharacteristic to their roles and training. Consequently, in the spirit of sharing and collaboration, the California Association of School Counselors (CASC) are inviting educators to attend a CASC sponsored virtual conference (October 8-10, 2020). This conference is designed to provide intensive and wide-ranging professional development to address the rising difficulties students are facing - mental health, equity, and disparities. The conference is affordable, has dynamic keynote presentations, and is hosting 50+ sessions to meet each participant's diverse needs - whether you are from an urban district, rural, suburban small, large, north, south, or somewhere in-between. No way is there time to see all presentations in 2.5 days. However, we thought about that and participants will have access to recorded workshops until December 10, 2020. For more information and to register click [here](#).
