

OK

This sign is to be displayed during a disaster or EPC drill to be seen from the street to indicate you do not need assistance. This allows EPC volunteers to concentrate on other residents who may need medical or other help.

- Staple this sign onto a piece of heavy cardboard to keep it stiff.
- Keep it near a front window, perhaps behind a piece of furniture for easy access.
- After the emergency or drill - REMOVE from window immediately.
- Don't display before leaving your home for several days, advertising you are absent. Instead, tell your neighbors you are traveling.
