

HIGH GROWTH RISK/RETURN STRATEGY

The Zuma Wealth High Growth Strategy is a risk/return portfolio designed for maximum participation in rising and recovering market environments.

Strategic, fundamental and quantitative methods guide overall risk exposure and seek to reduce the impact of losses during steep bear markets.

● Large Stocks
 ● Small Stocks
 ● Foreign Stocks
 ● Global Bonds

Strategically designed to **grow** wealth.
Disciplined rules to **guard** it.

Investor Benefits

Global stocks offer the best return opportunity and bonds add income and stability for **global asset class and multi-factor diversification**. **Vehicles for asset class exposure** are determined based on liquidity, price volatility and alpha.

Your **strategic** asset allocation **optimizes risk-adjusted returns** using long-dated historical returns and volatility data to meet your unique investment goals and financial life (**never one-size-fits-all**). **Allocations are calibrated** based on a price-driven overlay.

Positions are selected by identifying the most potential for beneficial outcomes. Holdings are eliminated using **quantitative decision rules** designed to **cut bear market exposure and mute losses**.

Unusual diversification across global asset classes to optimize return for risk.

- U.S. Large Cap Stocks
- U.S. Mid-Cap Stocks
- U.S. Small-Cap Stocks
- Developed Country Stocks
